ecial Values in Boys' Clothing Not of Our Own Manufacture

is the same kind of clothing that the average clothing stores sell at the prices we for our guaranteed U-CANT-TEAR brand clothing. In style, quality and workmanis so very much inferior to our U-CANT-TEAR brand clothing that we do not d it at all. We simply offer it to accommodate those who want to buy the cheapthat can be purchased, and to show how much we are able to undersell clothon a patch of the same quality. These are good values at the prices we ask, but if you want the best value, buy our U-CANT-TEAR brand clothing. It costs very little more and will give twice the satisfaction. We do not furnish cloth samples of these suits. Each one is accurately illustrated and described, and guaranteed to be exactly as represented. Money returned if they are not found so. Note descriptions for sizes. **Be sure to state boy's age when ordering.** Average shipping weight of suits on this page, 2 pounds each.

MEN'S FINE SILK NECKWEAR

SHIPPING WEIGHT OF ANY TIE ON THIS PAGE, 2 OUNCES.

No. 33F8365 French Fold Four-In-Hand Ties. Made from fine qualities in beautiful colorings and of silk in the new narrow fold and style. We carry stock almost every color and can fill your order promptly. Give your preference in color.

No. 33F8375 Fancy Reversible Four-In-Hand Ties. 3¼ inches wide. Made from imported silks in fancy styles and colorings. Give shade and pattern wanted.

No. 33F8364 Imperial Wide Flowing End Four-In-Hand Ties. All made of beautiful quality silk. This number we show in the most common and most complete of shades and effects, black inclusive. Give shade and pattern wanted.

No. 33F8428 Silk Knit Elastic Band Four-In-Hand. Come in all colors, including black. Give color desired.

42c EACH No. 33F8380 Band Teck Ties. No. 33F8383 Shield Teck Ties.

These two numbers are made from pure silk in the newest and handsomest patterns on the market. The workmanship and finish are the best that can be produced. The quality of the silk used is equal, if not superior, to that found in goods usually selling at double our price. We can furnish you with nearly any shade or pattern you desire, including plain black. **Give pattern and color wanted.**

42c EACH No. 33F8398 French Style Four-In-Hands in plain colors. Made from a beautiful quality of fine poplin weave silk. Soft and lustrous. Very desirable for summer wear. Full 50 inches long. Comes in the following plain colors: Cream-white, lavender, Copenhagen blue, gray, scarlet, cardinal, tan, brown, navy blue or black. **Give color wanted.**

21c EACH No. 33F8412 Men's Batwing Style String Ties made of good quality silk. A popular style for wear with band or turndown collars. We have them in the following plain colors: Black, white, navy blue, brown, gray, garnet or lavender. **Give color wanted.**

$1.38 A SET No. 33F8325 Handkerchief, Tie and Socks. All Pure Silk of the same color. Gold plated stick pin with each set. All four articles boxed together in handsome gift box. Very stylish and suitable for birthday or holiday gifts. Your choice of the following colors: Copenhagen blue, purple, navy blue, pearl gray, golden brown, garnet, old rose or heliotrope. **Be sure to give color wanted, also size of socks.** Shipping weight, 10 ounces.

21c EACH No. 33F8390 The Widely Advertised Suskana Brand Four-In-Hand Ties, in plain colors, made reversible. Width, 2 inches, length, 46 inches. Regularly retail at 50 cents each. Each tie bears the Suskana label. We can furnish in the following plain colors: Black, white, navy blue, brown, gray, garnet or lavender. **Give color wanted.**

19c EACH No. 33F8392 Men's Suskana String Ties. Made from the same material as the above number, and come in the same colors. **Give color wanted.**

42c EACH No. 33F8405 Men's Fancy Reversible Four-In-Hand Ties. 1¾ inches wide, 50 inches long. This is the proper length and style for summer wear. Made of pure silk in beautiful patterns and colorings. **Give color preferred.**

COMBINATION SET.

19c EACH No. 33F8306 Band Teck Ties. No. 33F8308 Shield Teck Ties.

Excellent qualities in new and handsome patterns. Silk used in these ties is that usually found in the regular 50-cent grades. We can furnish nearly every shade or pattern. **Give preference.**

29c EACH No. 33F8373 Narrow Reversible Four-In-Hand Silk Ties. Made of pure silks in attractive designs and colorings. This shape is especially designed for wear with the closed front turndown collars. **Be sure to give shade and pattern desired.**

19c EACH No. 33F8394 Fancy Reversible String Ties. Width, 1½ inches. Beautiful patterns and colorings; at less than one-half regular prices. **Give shade and pattern desired.**

79c EACH No. 33F8401 Men's Folded End Four-In-Hand Ties. Made from a beautiful high luster full weight poplin weave silk. This quality generally retails at $1.00 to $1.50 each. Workmanship and finish the best that can be produced. We can furnish the following plain colors: Navy blue, pearl gray, heliotrope, garnet, brown or black. **Give color wanted.**

19c EACH No. 33F8366 Reversible Four-In-Hand Ties. Width, 2 inches. Made of pure silk in beautiful new designs shown by others at 50 cents each. We can supply you with almost every pattern or color which you may desire, including black. **Give shade and pattern desired.**

10c EACH No. 33F8310 Silk Shield Teck Ties, for wear with turndown collars. Made of good quality silk in neat and attractive colorings and patterns. **Give shade and pattern wanted.**

19c EACH No. 33F8420 Pure Silk Shield Bow Ties. For wear with turndown collars. Very fine qualities and handsome colorings. All colors, including black. **Give color desired.**

YOU CAN'T AFFORD TO OVERLOOK OUR FELT MATTRESSES.

What a "Pair of Blankets" Means.

While bed blankets are sold by the pair, it must be understood that a pair of blankets are woven in one piece. We state size of each blanket and give the price per pair. When price is quoted for a pair, you will receive two blankets of the size quoted but they will come woven together in one piece. If you prefer single blankets, see our Nos. 24F2471 and 24F2483.

All Wool White, Gray or Scarlet Blankets.

These blankets are made of medium quality strictly all wool yarn. The material is thoroughly cleaned and scoured, and guaranteed free from grease. Lockstitch edges. White, gray or scarlet, with fancy borders. Size, 58x76 inches. Weight, 3¾ pounds.

		Price, per pair
No. 24F2435	White with pink or blue border...	$3.19
No. 24F2441	Gray with pink or blue border...	3.19
No. 24F2447	Scarlet with black border.....	3.19

Better Quality and Larger All Wool Blankets in White, Gray or Scarlet.

Tapestry Couch Covers

Guaranteed Best Quality
Obtainable at the Price

No. 24F1500 Durable Tapestry Couch Cover, finished all around with 4-inch fringe. Priced lower than usual, owing to the enormous quantity we had made. The best low price cover ever offered. Comes in one color effect in stripes of red, blue, green and tan. Size, 3 yards long by 58 inches wide. Weight, each, about 3 pounds.

$1.70 EACH No. 24F1502 Oriental Design Fringed Couch Cover of good substantial quality. Would cost you at least $2.50 if bought at retail. Edges trimmed with 4-inch fringe. Only one color combination: Red predominating with several shades of blue, green and gold in the figures. Size, 2⅞ yards long by 58 inches wide. Weight, each, about 3¼ pounds.

$1.75 EACH No. 24F1504 Tapestry Couch Cover of rich Oriental design. Durable quality, nicely fringed and a beautiful color arrangement. Has the appearance of expensive imported tapestry. Comes in one color effect only: Terra cotta background in combination with tan, blue and green. Size, 2⅞ yards long by 56 in. wide. Weight, each, about 3 lbs.

No. 24F1506 Reversible Tapestry Couch Cover, recommended as being an exceptional value and serviceable quality. A fine Oriental design in nicely blended colors and trimmed with fringe. Only one color effect, which includes shades of green, brown, red, blue and tan. Size, 3 yards long by 58 inches wide. Weight, each, about 3 pounds.

$2.15 EACH No. 24F1508 Heavy, Firmly Woven Tapestry Couch Cover. A quality and design equal to any sold at $3.50 elsewhere. A cover that will look bright and new even after years of hard use. Only one color effect. A nicely blended combination of tan, green, red and blue. Size, 3 yards long by 58 inches wide. Weight, each, about 3½ pounds.

$2.50 EACH No. 24F1510 Beautiful Tapestry Couch Cover. Far superior in quality to any you could buy at retail for the price. Made especially for us, and we insisted on finest yarns, firmest weave and best possible finish. A combination of green, red and tan, with green predominating. Size, 3 yards long by 56 inches wide. Weight, each, about 4 pounds.

No. 24F1512 Tapestry Couch Cover of unusual merit. Design, coloring and weave are all better than you would expect at this price. Reversible, and finished without fringe. Two color effects: Red or green predominating with other colors blended. Mention color wanted. Size, 3 yds. long by 58 in. wide. Weight, each, about 4½ lbs.

$3.95 EACH No. 24F1514 Tapestry Couch Cover, combining rich style and durability. The most durable couch cover made, and the design is one of the prettiest Oriental effects. Would cost at least $6.00 each at retail. The background is a deep red, with design worked out in green, gold and tan. Size, 3 yds. long by 60 in. wide. Weight, each, about 4¼ lbs.

$4.00 EACH No. 24F1516 Gobelin Style Tapestry Couch Cover of the highest quality. Made without fringe, like all expensive imported couch covers, and in subdued shades of terra cotta, green, gold and blue. Will harmonize nicely with the popular Mission style of furnishings. A rare bargain at our price. Size, 3 yards long by 60 inches wide. Weight, each, about 4½ pounds.

Lace, insertion or fringe extra according to price list below.

SPECIAL SIZE MADE TO ORDER WINDOW SHADES FOR STORES, OFFICES AND HOMES.

These shades we make to order from the very best quality hand made water color opaque shade cloth. It usually requires about four days to make special size shades made to order. We require the full amount of money with the order in every instance. Shades made to order cannot be returned if sent as ordered. Don't fail to give size and color wanted.

NOTICE—Special size shades are made only in the following colors: Dark green, olive green, drab, slate, sea green or light buff. Shade cloth 48 inches and wider is made heavier stock and will not always exactly match colors of smaller shades.

It is particular to state whether your measurement is for the length of roller from tip to tip or the width of cloth. In the price list below, "width in inches" is the width of cloth. If the exact size you wish is not given in the following schedule the next larger size will be charged, but the shade will be made the exact size you order.

No. 24F1964 Order by number, size and price, and be sure to state color wanted.

Carpets, Rugs and Linoleums

Floor Oilcloths and Mattings

line of floor coverings offered in these pages is entirely new for son with the exception of a few numbers which we have retained ent of their unusual popularity for the past season. Satisfac- the keynote of our carpet, rug and linoleum offerings. Every of the many thousands submitted to us was carefully examined and tested with that one end in view—satisfaction, both in price and in quality. You cannot possibly secure as good a value for your money anywhere else as you can from these pages. Our guarantee of satisfaction or your money back applies to every item in this department and protects you against any possible disappointment.

How to Make a Diagram of a Room.

How to Order and Our Prices for Sewing Carpet

In ordering carpets be careful to give the exact size of room or rooms. If an odd size, having a fireplace, bay window or offset, be sure to send a diagram with exact measurements, also be sure to state where entrance and front of room is; and allow 1½ yards in every 25 yards for waste in matching the pattern.

State whether you want the strips to run the long or short way of the room. We always cut the carpet to the best advantage when no instructions are given about cutting.

We cut all carpets to match free of charge, and our prices for sewing (as explained below) are so very low that it does not pay to do this work yourself.

We strongly advise having your carpets cut and sewed by us, as there will be less waste and better matching if we make the carpet for you, for the reason that where we are cutting up hundreds of rolls we can always make a saving of waste by cutting and matching from several rolls, and in every case where we use less waste than you have allowed, namely, 1½ yards to every 25 yards ordered, we will return the difference.

PRICE FOR SEWING INGRAIN, RAG OR GRANITE CARPET.

For 2 cents per yard extra we will cut, match and sew ingrain, rag or granite carpet to fit any room.

PRICE FOR SEWING BRUSSELS, VELVET OR AXMINSTER CARPET.

For 3 cents per yard extra we will cut, match and sew any of our Brussels, velvet or Axminster carpet to fit any room.

PRICE FOR SEWING AND FITTING WITH A BORDER.

For 10 cents per yard extra we will cut, match and sew any Brussels, velvet or Axminster carpet ordered with a border.

Special Notice! Allow for Waste in Matching Carpets

When you order a carpet cut, matched and sewed, or a number of yards of carpet in one piece you must make a little allowance for waste in matching the pattern. For example, if you wish to cover a room that measures 25 yards, you should order 26½ yards, for although the 25 yards will cover the room by actual measurement, the pattern will not match; therefore, the 1½ yards extra is needed so that the pattern will match exactly. For a room measuring 12 yards you should allow 12¾ yards, that is, you should allow and pay for 1½ yards extra for every 25 yards of carpet required by actual measurement.

ust send us an order for car- ou will make a diagram, with ements carefully taken and ked on the diagram, it will ssible for us to make a mis- ching and fitting your carpet

This Table Shows How Much Carpet You Need

size of your room is not given in this list we advise you to allow enough money to pay for the next larger size, and we will cut the carpet least possible waste and charge only for the exact amount of carpet used in the cutting. In this table we have figured in the waste the room, but if in cutting the carpet there happens to be less waste we will return whatever balance is due you at the time the made. When necessary to send in a drawing of your room locate front of house, entrance and bay window if any.

en Ordering Carpet Made With a Border

Send enough money to pay for same, as it will avoid any delay in writing for money to cover cost of goods. Remem- carpet is only 22½ inches wide. The body of the carpet is 27 inches wide. The diagram shown on this page is of a room 10 feet 6 inches and if you will follow instructions given we do not think you will experience any **enough to pay for carpet and border to fit any room.**

distance around the room in yards, which gives the exact number of yards of border required. In this instance inches is 10 feet 6 inches of 42 feet, which is 14 yards of border.

number of strips of carpet, deduct the width of two strips of border or 45 inches from 10 feet 6 inches, which inches, or 81 inches. Divide by 27 inches, which is the width of one strip of carpet, which gives the number needed.

length of the strips, deduct the width of two strips of border or 45 inches from length of room of 10 feet 6 the length of strips, or 6 feet 9 inches. Three strips 6 feet 9 inches would be 20 feet 3 inches or 6¾ yards. for **matching patterns,** which would make the total amount of carpet and border to fit a room 10 feet 6 inches—22¼ yards. The cost of sewing carpet with border is 10 cents per yard extra.

would require more than an equal number of strips and less than 13 inches in width, you should allow for carpet. If more than 13 inches is needed you should allow for one full width.

How to Get Carpet Samples

necessary for you to send for carpet samples, because we illustrate and describe fully the various kinds of carpet we also show the general color effect. You can readily make your choice from this catalog without samples, to satisfy you in every way. You take no risk whatever, but if you prefer to see samples of carpet before cents in postage stamps (which is just barely enough to cover the cost of packing and mailing the set of what kind of carpet you want, whether Ingrain Carpet (Set A), or Brussels Carpet (Set B), or Axminister Carpet (Set C), and we will mail you a set of samples showing each quality of carpet we handle of the kind

sample Hemp and Rag Carpet, Mattings of any kind or Rugs. Our descriptions and illustrations enable you to carefully without samples, and remember we guarantee absolute satisfaction or your money back. **save time by selecting your carpet and ordering it from this Big Catalog** as the illustrations and give you an excellent idea of just how the goods look.

ial Notice! In ordering carpet matched and sewed be careful to give the exact size of room or rooms. If an odd size, having a fireplace, bay window or offset, be sure to send a diagram, also indicate on diagram where entrance and front of room is.

Floor Oilcloths and Linoleums

Linoleum is rapidly displacing every other form of floor covering for kitchens, dining rooms, bathrooms, vestibules, stores, offices, etc., because of its long wear, cleanliness, comfort, beauty of designs and colorings. We offer the newest designs in each grade at prices only a trifle over the actual cost of manufacture.

Natural Wood Finish Filler or Border for Rugs

39c A YARD

Very popular form of trimming or border around rugs. A light weight linoleum made on heavy burlap, with painted back and brilliant varnished surface. Can be revarnished occasionally and will give excellent service. The design on the left is a perfect imitation of beautiful parquet flooring in light oak coloring. The design on the right is a copy of fine hardwood floor. Our price of 39 cents a yard is exceptionally low. This quality usually brings about 60 cents a yard.

No. 37F300 Width, 36 inches. Weight, about 1¾ pounds a yard. Price, per yard.... **39c**

No. 37F302 Width, 36 inches. Weight, about 1¾ pounds a yard. Price, per yard.... **39c**

See Wool Filled Ingrain Terry for Rug Borders on page 426.

Floor Oilcloths

Two New Designs of Good Quality at Interesting Low Prices

No. 37F304 Weight, about 2¾ pounds a square yard. Width, yards .... 1 1½ 2 Per running yard 28c 42c 56c

No. 37F306 Weight, about 3½ pounds a square yard. Width, yds. 1 1½ 2 2½ Per running yard 30c 45c 60c 75c

Special Qualities in Low Priced Printed Linoleums

Very good floor covering considering the low prices. However, for best service, satisfaction and economy we recommend the better grades of printed and inlaid linoleum. This grade weighs about 3½ pounds a square yard. We offer a choice of six designs.

No. 37F308 Fine Quality Printed Linoleum. Weight, about 3½ pounds a square yard. Width, 2 yards. Price, per running yard.....**90c**

No. 37F310 Fine Quality Printed Linoleum. Weight, about 3½ pounds a square yard. Width, 2 yards. Price, per running yard.....**90c**

No. 37F312 Serviceable Quality Printed Linoleum. Weight, about 3½ pounds a square yard. Width, 2 yards. Price, per running yard.....**88c**

Best Qualities in Extra Heavy Printed Linoleums

Better and heavier grades than our Special Quality Printed Linoleums. We recommend these qualities if you are considering printed linoleums. Choice of six beautiful designs.

No. 37F320 Heavy Quality Printed Linoleum. Weight, about 4¾ pounds a square yard. Width in yards.... 2 2½ 4 Per running yard..98c $1.22 $2.35

No. 37F322 Extra Quality Printed Linoleum. Weight, about 4¾ pounds a square yard. Width in yards.... 2 2½ 4 Per running yard.$1.07 $1.35 $2.50

No. 37F314 Extra Quality Printed Linoleum. Weight, about 3½ pounds a square yard. Width, 2 yards. Price, per running yard.....**92c**

No. 37F316 Serviceable Quality Printed Linoleum. Weight, about 3½ pounds a square yard. Width, 2 yards. Price, per running yard.....**88c**

No. 37F318 Serviceable Quality Printed Linoleum. Weight, about 3½ pounds a square yard. Width, 2 yards. Price, per running yard.....**88c**

No. 37F324 Fine Quality Printed Linoleum. Weight, about 4¾ pounds a square yard. Width in yards.... 2 2½ 4 Per running yard.$1.05 $1.30 $2.45

No. 37F326 Extra Quality Printed Linoleum. Weight, about 4¾ pounds a square yard. Width in yards.... 2 2½ 4 Per running yard.$1.07 $1.35 $2.50

Popular Long Wearing Inlaid Linoleums

Good grade of Inlaid Linoleums which we offer at a money saving price. Never changes appearance, because colors are the same clear through to the heavy burlap foundation. Choice of three new designs.

No. 37F332 Popular Inlaid Linoleum. Weight, about 5¾ pounds a square yard. Width, 2 yards. Price per running yard **$1.90**

No. 37F334 Popular Inlaid Linoleum. Weight, about 5¾ pounds a square yard. Width, 2 yards. Price per running yard **$1.85**

No. 37F336 Popular Inlaid Linoleum. Weight, about 5¾ pounds a square yard. Width, 2 yards. Price per running yard.....**$1.85**

No. 37F328 Heavy Quality Printed Linoleum. Weight, about 4¾ pounds a square yard. Width in yards.... 2 2½ 4 Per running yard..98c $1.22 $2.35

No. 37F330 Fine Quality Printed Linoleum. Weight, about 4¾ pounds a square yard. Width in yards.... 2 2½ 4 Per running yard $1.05 $1.30 $2.45

CAUTION—When you buy Linoleum in cold weather, always be sure it is thoroughly warmed through before unrolling. It is liable to crack and be ruined if you fail to observe this reminder. The safe way is to let linoleum stand in a warm room for one or two days, according to weather conditions, then it may be unrolled without danger.

Digitized by Google

Extra Heavy Inlaid Linoleums

We recommend this grade especially for hard wear. The colors are solid clear through to the extra heavy burlap foundation and the pattern cannot wear off until the entire fabric is worn out. Comes in six patterns with a splendid variety of colorings.

MATTING AND RUGS MADE OF FIBER AND WOOL

Fiber Matting and Rugs are the newest and most popular of inexpensive, sanitary floor coverings. They are woven closely, are very durable and easily kept fresh and clean.

New Sanitary Fiber Matting.

No. **37F3484** Width, 36 inches. Weight, about 15 ounces a yard. Price, per yard.....**24c**
Full roll, containing about 75 to 80 yards. Price, per yard **23c**

Fiber Matting is more durable and sanitary, and more attractive in design and color effect than straw matting. Can be used on either side. We furnish the above design in green, tan, blue or red. **Mention color wanted.**

Combination Wool and Fiber Matting.

No. **37F3486** Width, 36 inches. Weight, about 21 ounces a yard. Price, per yard.....**32c**
Full roll of 50 to 60 yards. Price, per yard.....**31c**

This Matting is a closely woven combination of heavy wool yarns and tough, strong fiber. It is very durable, easily kept fresh and clean and can be used on either side. Very popular and we price these at a very low figure. Strictly fast, nonfading colors. This is too heavy to roll in green, tan or red. **Mention color wanted.**

Assortment of Chinese and Japanese Mattings on page 426.

Combination Wool and Fiber Rugs.

No. **37F604** Size, 6x9 feet. Price...**$3.75**
No. **37F606** Size, 9x9 feet. Price... **5.75**
No. **37F608** Size, 9x12 feet. Price... **7.25**

For bedrooms and dining rooms these Wool and Fiber Seamless Rugs are ideal, and very reasonable in price. Made of heavy wool yarns and tough fiber in the beautiful design illustrated. Fast, nonfading colors. The 9x12-foot size weighs about 26 pounds. Furnished in green, tan or red. **Mention color wanted.**

All Wool Art Squares are firmly woven without seams, using only selected scoured yarns, and may be used either side. Each design is in three color effects, with backgrounds in red, green or tan. **Always mention color wanted.** Owing to the enormous demand we find it is not always possible to send the exact pattern illustrated, so we occasionally, but not often, send designs very similar but exactly the same fine quality.

Bessemer Rug.

No. 37F662 Size, 9x12 feet. Price....$10.80

Bessemer Rugs are closely woven from selected heavy wool yarns. Especially recommended for durability and guaranteed fast color. Can be used either side and woven in one piece without seams. Besides the color illustrated we furnish this design in terra cotta and green, and green and red, the first named color predominating in each instance. **Mention color combination wanted.** Made only in one size, 9x12 feet, and weighs about 23 pounds.

Extra Quality Brusselette Rugs

$3.84 to $12.80

Durable, inexpensive floor covering, woven in one piece without seams, and wool faced on both sides so either side may be used. We illustrate two designs appropriate for use anywhere. Either design may be had with background in red, green or tan. **Give catalog number of size wanted, also state color of background wanted.** Weight of 9x12-foot size, about 17½ pounds.

16c to 35c A YARD Special Values in Serviceable Hemp and Rag Carpets

Special Quality Hemp Carpet.

A sanitary and durable fabric that gives splendid service considering the low price. How-ever, our 25-cent grade shown to the right will give much better satisfaction and will really be cheaper in the end, as it is much heavier and finer. See illustration No. 37F100 on page 427 for this carpet. Weight, about 16 ounces a yard.

No. 37F100 Width, 36 inches. Price, per yard....16c

Our Best Quality Hemp Carpet.

25c A YARD

The most satisfactory quality of Hemp Carpet obtainable. Closely woven and extra durable. Can be used on either side. See illustration No. 37F102 on page 427 for the color effect of this carpet. Weight, about 24 ounces a yard.

No. 37F102 Width, 36 inches. Per yard..25c

Our Extra Quality Rag Carpet.

35c A YARD

A good rag carpet always gives splendid service. This carpet is heavy weight, made from clean, sanitary rags, with extra heavy cotton warp closely woven. You will like this quality and pattern. This carpet is reversible. See illustration No. 37F104 on page 427 for the color effect of this carpet. Weight, about 2 pounds a yard.

No. 37F104 Width, 36 inches. Price, per yard....35c

to 24c A YARD For These Granite Reversible Carpets. They Are Money Saving Values

cial Quality Granite Carpet.

While we recommend the better carpets, this Special Quality Granite Carpet is a good value for the price. Made of jute filling, woven closely with a strong cotton warp. Either side can be used. The color effect of this carpet is shown, illustration No. 37F106. Wt., about 13½ ounces.

No. 37F106 Width, 36 inches. Price, per yard...18c

Select Quality Granite Carpet.

21c A YARD

A very good carpet, heavier and better quality than our 18-cent grade. Either side can be used. Refer to illustration No. 37F108 on page 427 for the color effect of this carpet. Weight, about 14 ounces a yard.

No. 37F108 Width, 36 inches. Price, per yard..21c

Superior Quality Granite Carpet.

24c A YARD

The heaviest and best Granite Carpet obtainable. Made of heavy jute filling and closely woven extra strong cotton warp. A wonderful value. You can use either side. The color effect of this carpet is shown in illustration No. 37F110 on page 427. Weight, about 16 ounces a yard.

No. 37F110 Width, 36 inches. Price, per yard...24c

27c to 30c A YARD For Quarter Wool Reversible Ingrain Carpets

Quarter Wool Ingrain Carpet.

Our Popular Quarter Wool Ingrain is a substantial and reasonably durable carpet, but we recommend our 29-cent Challenge grade for greater satisfaction. See illustration No. 37F112 on page 427 for color effect of this carpet. Weight, about 25 ounces a yard.

No. 37F112 Width, 36 inches. Price, per yard....27c

Challenge Quarter Wool Ingrain Carpet.

29c A YARD

Our Challenge Grade Quarter Wool Ingrain Carpet is made of thoroughly scoured and closely woven yarns of finer quality than used in our Popular Ingrain. You can use either side. Illustration No. 37F114 on page 427 shows the color effect of this carpet. Weight, about 25 ounces a yard.

No. 37F114 Width, 36 inches. Price, per yard....29c

Defense Quarter Wool Ingrain Carpet.

30c A YARD

Extra quality, closely woven from good cotton and wool yarns. Very serviceable. Either side may be used. For the color effect of this carpet see illustration No. 37F116 on page 427. Weight, about 25 ounces a yard.

No. 37F116 Width, 36 inches. Price, per yard.....30c

49c TO 51c A YARD — FINE QUALITY WOOL FILLED INGRAIN CARPET

YOUR CHOICE PATTERNS IN VARIED COLORS—TWO OF THE BEST WEARING QUALITIES MADE

Our Peerless and Monitor Wool Filled Ingrain Carpets are made of special quality all wool filling with strong cotton chain or warp. They are the best wearing qualities made in wool filled ingrain carpets and cannot be equaled elsewhere at anywhere near our low prices.

49c A YARD **No. 37F138 Peerless Wool Filled Reversible Ingrain Carpet in a very pretty combination of green, tan and red.** Illustration No. 37F138 on page 427 shows you the exact color effect. Width, 36 inches. Weight, about 25 ounces a yard.

49c A YARD **No. 37F140 Peerless Wool Filled Ingrain Carpet.** A reversible pattern of scroll work and fern leaves in light tan and oak shades. The exact colors are shown on page 427, illustration No. 37F140. Width, 36 inches. Weight, about 25 ounces a yard.

TWO BEAUTIFUL PATTERNS IN OUR MONITOR BEST QUALITY WOOL FILLED INGRAIN CARPET

51c A YARD **No. 37F142 Monitor Wool Filled Ingrain Carpet.** You ... either side of ... floral design ... and red shades. ... filling with best ... Illustration ... on page 427 ... actual colors. ... inches. Weight, ... ounces a yard.

51c A YARD **No. 37F144 Monitor Wool Filled Ingrain Carpet in the old favorite green and oak colors.** The same fine quality as our other Monitor ingrain carpet. The exact colors of this pattern are shown on page 427, illustration No. 37F144. Width, 36 inches. Weight, about 25 ounces a yard.

52c A YARD COMPETITION GRADE SPECIAL — WOOL INGRAIN CARPET

THE SAME GRADE SOME DEALERS SELL AS BEST ALL WOOL

We offer this grade of carpet merely to show the useless efforts of others in trying to compete with us on quality and price. This wool carpet is not the same grade—as our 57 to 63-cent qualities, as some dealers would attempt to make you believe. It is made of the cheaper yarns, woven and dyed so cleverly that it is only by close examination that it can be detected from the best all wool qualities.

52c A YARD **No. 37F146 Competition Grade Special Wool Carpet.** While we recommend the better grades, if you want a cheap wool carpet, order one of these two patterns. No dealer can compete with us on these goods. This pattern is a light tan effect. We show you the actual colors on page 427, illustration No. 37F146. Width, 36 inches. Weight, about 20 ounces a yard.

52c A YARD **No. 37F148 Competition Grade Special Wool Carpet.** It will not wear nearly as long as our best all wool grades, but is a remarkable value for a low priced wool carpet. Some dealers call this best all wool and ask 60 cents a yard for it. We show the color effect of this carpet on page 427, illustration No. 37F148. Width, 36 inches. Weight, about 20 ounces a yard.

57c TO 59c A YARD — EXTRA VALUE ALL WOOL INGRAIN CARPETS

YOUR CHOICE OF THREE NEW 1911 DESIGNS AT THESE LOW PRICES

No. 37F150 In our Harvard All Wool Ingrain Carpets, both the filling and the warp are selected thoroughly ... worsted yarns. A fine flower pattern in soft tan and brown shades. ... effect on page 427, illustration No. 37F150. ... inches. Weight, about 24 ounces a yard.

57c A YARD **No. 37F152 Our Harvard All Wool Ingrain Carpet always satisfies.** No better carpet made for the price. This pattern has a green ground relieved with red and pink flowers. Illustration No. 37F152 on page 427 shows you the exact colors. Width, 36 inches. Weight, about 24 ounces a yard.

59c A YARD **No. 37F154 Good quality and firm close weave combine to make this All Wool Ingrain Carpet an extra special value.** The design is a pleasing floral effect in oak and green. The actual colors are shown on page 427, illustration No. 37F154. Width, 36 inches. Weight, about 24 ounces a yard.

57c TO A 63c Yard BEST QUALITY Reversible Two-Ply All Wool Ingrain Carpets 57c TO 63c

With the exception of our Empire and Cashmere Ingrain Carpets these are the very best quality obtainable in all wool ingrains. As a rule carpet dealers do not handle a better quality than this. We offer six beautiful designs and handsome color effects to choose from. They are of a splendid quality of all wool worsted yarns, firmly woven, and wear equal to carpets costing 75 cents a yard elsewhere.

57c A YARD **No. 37F164 Harvard All Wool Ingrain Carpet.** A grand design made of fine quality wool filling and wool warp, firmly woven and nicely colored. The pretty color effect is shown on page 427, illustration No. 37F164. Width, 36 inches. Weight, about 25 ounces a yard.

62c A YARD **No. 37F166 Superior All Wool Ingrain Carpet.** An excellent design which comes in a desirable color effect, as shown on page 427, illustration No. 37F166. An extra fine quality all wool reversible carpet. Width, 36 inches. Weight, about 25 ounces a yard.

59c A YARD **No. 37F168 Special Value Ingrain Carpet.** A new design in shades of green and tan. On page we show the color effect in illustration No. 37F168. All wool yarns and free from or oil. Width, 36 inches. Weight, about 25 a yard.

62c A YARD **No. 37F170 Superior All Wool Ingrain Carpet.** Pretty floral and scroll design in harmonizing colors. See illustration No. 37F170 on page 427 for color effect. You can use either side and the colors are nonfading. Width, 36 inches. Weight, about 25 ounces a yard.

62c A YARD **No. 37F172 Superior All Wool Ingrain Carpet.** Splendid quality well woven from all wool yarns. Excellent pattern and coloring. We show the general color effect on page 427, illustration No. 37F172. Width, 36 inches. Weight, about 25 ounces a yard.

63c A YARD **No. 37F174 Heavy Weight Ingrain Carpet.** A magnificent popular shadings of red and green ways looks bright and clean actual colors may be seen by referring tration No. 37F174 on page 427. Width, Weight, about 25 ounces a yard.

60c A YARD Standard All Wool Ingrain Church or Lodge Carpet

This is a special quality, made especially to stand the hard usage to which carpets are subjected in such public places as churches and lodge halls. Made of an excellent grade of worsted yarns and worth fully a third more than our price. We also furnish 22½-inch stair carpet to match. Made in two colors, as shown in illustrations No. 37F156 to No. 37F162, on page 427.

Standard All Wool Hall Carpet. Width, 36 inches. Weight, about 25 ounces a yard.

No. 37F156 Two-tone green. Price, per yard..60c
No. 37F160 Two-tone red. Price, per yard..60c

32c A YARD

Standard Wool Filled Stair Carpet. Width, 22½ inches. Weight, about 11 ounces a yard.

No. 37F158 Two-tone green. Price per yard..32c
No. 37F162 Two-tone red. Price, per yard..32c

Superior All Wo Ingrain Carpet

62c A YARD **No. 37F176 Superior Ingrain Carpet** is made for durability and serv an excellent value at o low price. Heavy wool yarns w close and firm. A beautiful floral a tan background and can be u side. The design and quality is the our No. 37F170 on this page, but effect is different, as you will not ferring to the color illustrations on bearing the same catalog number 36 inches. Weight, about 25 ounce

Empire Three-Ply All Wool Ingrain Carpet

79c A YARD **No. 37F178 This is an unusually fine grade three-ply all wool carpet,** made from the best wool yarns and an extra heavy worsted warp, thoroughly cleansed and free from grease or oil. Three-ply carpets are so called because there are three thicknesses woven together as one, making them very durable and lasting. This illustration shows the beautiful floral and scroll design and by referring to No. 37F178 on page 427 you will see the color effect of this carpet. Either side can be used. Width, 36 inches. Weight, about 27 ounces a yard.

84c A YARD Our Cashmere Brussels Ingrain Carpet 84c A YARD

HEAVY ALL WOOL THREADS FIRMLY KNIT TOGETHER AND CLOSELY RESEMBLES BODY BRUSSELS CARPET IN APPEARANCE

These illustrations show you two handsome designs in our Cashmere Brussels Highest Grade Ingrain Carpet. A special weave having the appearance of body Brussels and a durability unequaled by any other carpet made to sell at this price. Holds original color and brightness through years of wear.

84c A YARD No. 37F180 Cashmere Brussels Ingrain Carpet. A splendid floral design in tan and green, as shown in illustration No. 37F180 on page 427. The richest and most durable carpet made for the price. Weight, about 25 ounces a yard. Width, 36 inches.

No. 37F182 Cashmere Brussels Ingrain Carpet. 84c A YARD An Oriental design with red ground and figures in tan and green. The colors are shown on page 427, illustration No. 37F182. A quality always sold at much higher prices. Weight, about 25 ounces a yard. Width, 36 inches.

BRUSSELS STYLE JUTE CARPET

38c A YARD No. 37F184 This carpet will give good wear, although it contains no wool or cotton. It is made entirely of jute, but closely resembles high priced Brussels carpet. A tan effect with pretty scroll and flowers in green and red, as shown in illustration No. 37F184 on page 427. Very serviceable considering the low price, but we recommend our better grades where durability is essential. Weight, about 25 ounces a yard. Width, 27 inches. No border is made for this carpet.

WASTE IN MATCHING CARPETS.

When you order a carpet you should make an allowance for waste necessary in matching the pattern. For example, if you wish to cover a room that measures 25 yards, you should pay for 26½ yards although 25 yards will cover the room by actual measurement, but the pattern will not match at the seams. Therefore, 1½ yards are needed to make the pattern match exactly. A room measuring 25 yards would require 12¾ yards of carpet. Remember to allow and pay for 1½ yards of carpet extra for every 25 yards required by actual measurement.

57c A Yard WONDER VALUE TAPESTRY BRUSSELS CARPET

57c A YARD No. 37F186 Wonder Value Tapestry Brussels Carpet. This grade we have handled for years because it is a wonderful value. Made of good quality yarns, carefully constructed and will wear surprisingly well for a low priced carpet. Others charge 70 cents a yard for this grade. See illustration No. 37F186 on page 427 for color effect. Weight, about 23 ounces a yard. Width, 27 inches. No border is made for this carpet.

57c A YARD No. 37F188 Wonder Value Tapestry Brussels Carpet. Tasteful design and pretty color effect, as shown on page 427, illustration No. 37F188. The yarns are of good quality and are closely woven. Considering the low price, this carpet has wonderful wearing qualities. Weight, about 23 ounces. Width, 27 inches. No border is made for this carpet.

72c A Yard CHALLENGE NINE-WIRE TAPESTRY BRUSSELS CARPET 72c A Yard

Challenge Nine-Wire Tapestry Brussels Carpets are special value at 72c a yard. New patterns, new colorings and extra quality. They are strongly woven with a deep surface of fine worsted yarns on a firm heavy foundation, insuring the best possible wearing quality. The Brussels carpet usually sold at about this price is either lighter in weight or made of inferior yarns.

Challenge Nine-Wire Tapestry Brussels Carpets make exceptionally fine floor coverings, whether used as plain carpets or made up as rugs with border to match. On page 425 we quote low prices for making and sewing carpets with borders. Consult the color illustrations on page 428 and our instructions for ordering on page 425 and you will find it very simple to order these carpets.

From Manufacturer to You

SEROCO PAINT, GUARANTEE IT NOT TO PEEL, BLISTER, CHALK OFF, AND SELL IT FOR ABOUT HALF THE PRICE OF OTHER BRANDS

Seroco Paint is manufactured under our direct supervision in the Illinois Paint Works, one of the largest paint factories in the world. It was developed by a chemist of twenty-eight years' experience in practical paint making and an authority on paints and paints. Seroco Paint spreads easier, makes a better finish and lasts longer than any other paint, regardless of price. There is no paint that has the wearing qualities of Seroco. The fact that we are willing to guarantee it against peeling, blistering, chalking or rubbing off should convince you that it will be to your advantage to use the Seroco brand in preference to any other paint, no matter what claims are made for the ingredients or what the brand or price of other paints.

About the Advance in the Price of Paint

WHILE the present high cost of linseed oil has compelled us to advance our prices for paint, we are keeping our prices as low as possible in order to avoid any great increase in the cost of painting. Therefore, our advanced prices do not cover the difference in the cost of linseed oil. We prefer to accept a smaller profit than follow the example of other paint manufacturers who have taken advantage of the high price of linseed oil to secure greater profits, advancing their prices in excess of the difference in the cost of the oil. We would not under any circumstances change the quality of our paint to maintain our former selling price, nor reduce the quantity of linseed oil in our paint regardless of the condition in the linseed oil market. It would be impossible to make a paint we could guarantee to sell at less money than we ask. We will continue to manufacture the same high quality as heretofore. You will observe that at our present prices we save you more money than ever. Compare our prices with the greatly advanced prices of others.

This picture shows our great paint factory, the Illinois Paint Works, just across the tracks of the Baltimore & Ohio-Chicago Terminal Railroad Co. from our great buildings. We own and operate this entire plant and use the entire output exclusively. The building is four stories high, 125 feet long and 60 feet wide with large basement, and has an output of over a million gallons a year, and arrangements are made so that the output can be largely increased when demanded. It is equipped with the very latest and most scientific paint making machinery, huge grinders and mixers and color mixing machinery of the latest improved type. It is the most modern, up to date paint factory in existence, barring none, and is thoroughly in keeping throughout with the high quality of our famous brand Seroco Paint.

Pure Paint or Guaranteed Paint, Which?

Read our article on pages 450 to 451. We want you to know the facts as they exist in the paint industry. You ought to know them. We tell you why Seroco Ready Mixed House Paint at $1.10 to $1.23 a gallon is the best on the market, or to those who have become accustomed to the use of the so called "pure" paint, we offer the so called pure paint at $1.45 to $1.58 a gallon, representing a saving of 55 to 92 cents a gallon compared with what it will cost you elsewhere.

Why Hand Made Paint Is Not Reliable

DON'T attempt to make your own paint, and don't depend upon painters' hand made paints, because by the very nature of the materials it cannot be reliable. It is practically a physical impossibility for any painter to mix properly by hand the lead, oil and colors thoroughly and accurately enough to secure a paint that will give good service. In order to obtain a perfect shade of any color it is necessary to be accurate. If a painter mixes a small quantity he seldom hits exactly the same shade a second time if necessary to increase his supply for the same job; or if, to be on the safe side, he mixes too large a quantity, he wastes the paint. Besides, he will take much time to mix it, for which time you have to pay. You are also likely to get a poor job. Why attempt something that has uncertain results, especially when it costs more to do it that way? We offer you a certainty—a paint guaranteed not to peel, blister, chalk or rub off, which either you or a painter may use with equally satisfactory results.

Guaranteed House Paint at $1.10 to $1.23 a Gallon and Barn Paint at 79 to 84 Cents a Gallon Mean Big Money Saving on Any Job of Painting

We quote correspondingly low prices for carriage paints, varnishes and all sorts of finishes, nor have we stopped at saving you money on the material alone. Out of our years of experience and careful study and many experiments, we have written a book on "How to Paint," an exceedingly simple and practical book that will save you all the cost of hired labor, enabling you to do as perfect a job of painting as an experienced painter. This book is mailed free along with our Paint Color Sample Book.

Keep Your Buildings Painted and Save Costly Repair Work

Everybody knows the importance of keeping buildings or structures well painted from the standpoint of appearance and the value to any property and in case you wish to sell you will not only find it easier to sell, but your property will bring a higher price when well painted. But no one should overlook the great danger in the failure to keep them well painted. If you leave buildings or other structures to the mercy of the sun and the rain, decay is hastened and it will only be a short time before costly repair work is urgently needed. It should be scarcely necessary to state that lumber and repair work are now very costly. All large corporations, railroad and steamship companies, municipalities, private and public utility concerns, invariably give every structure of wood, iron or steel a coat of paint immediately on completion and make provision for repainting periodically. They know it means economy and you can't do better than follow their example. **Our paint is being used everywhere, because it is absolutely reliable and because it is guaranteed, the only guaranteed paint on the market. You can't afford to neglect any building or structure you own when we sell guaranteed paint at such prices.**

Bathroom Outfits Are Values Every Home Should Investigate.

Seroco Paint, Manufactured and Sold Exclusively by U
Is the Best Paint Made. The Test of Service Proves It

No paint offered by any other firm or individual at any price surpasses our Seroco Brand, in the qualities which go to make a high class, satisfactory paint for houses, barns, fences, wood and iron, for exterior or interior work, where a paint of extra quality and wonderful durability is required. Seroco Ready Mixed House Paint is manufactured by us in our own paint factory under the supervision of expert paint chemists, and it is because this paint is made by us from tested materials of our own selection that we are able to give a binding guarantee on every gallon sold by us. It is ground and mixed in the finest appointed paint factory in this country. There is just the right proportion of each ingredient necessary to give an extra high grade, free working paint.

Full Measure and Full Weight

When you pay us $1.10 to $1.23 a gallon for Seroco Ready Mixed House Paint, according to the quantity ordered, remember that you get absolutely full weight and full measure, and at these remarkably low prices, which are based on the cost of materials and labor in our own factory with but one profit added, we give you a paint guaranteed not to peel, blister, rub or chalk off, a paint that for preserving qualities and length of wear cannot be excelled by any paint, regardless of the price or ingredients used in its manufacture. Our colors have great strength. We use only the best colors in tinting our paints; in fact, stronger colors could not be had at any price. Remember, when you buy from your local dealer you pay the profits of the manufacturer, jobber and retailer, and above all you have very little or no protection should the paint go wrong. On the other hand, when you buy Seroco Ready Mixed House Paint you pay but one profit, and that is the **manufacturer's** profit, which is ourselves, and you are thoroughly protected by the strongest guarantee that was ever put on a can of paint.

You Can Order Direct From This Catalog

Select the color wanted from the colors named on opposite page, with our guarantee that the color and quality will please you, or we will return your money; but if you prefer to see the exact colors before ordering, write us and we will mail you our special Paint Color Sample Book free with our compliments. The book shows samples of the actual colors of all the different paints we handle. With our Paint Color Sample Book we will include a book entitled "How to Paint." This book gives full information on how to prepare all surfaces for painting, how to preserve your brushes, how to kalsomine, and contains valuable information for the novice as well as for the expert painter.

GUARANTEE

We hereby guarantee that this Seroco Paint is composed of the highest grade ingredients, is a perfect preservative, contains nothing injurious, will cover from 250 to 300 square feet, two coats to each gallon, and will not peel, blister, chalk or rub off. We agree to furnish new paint free, should our Seroco Paint fail to come up to our guarantee.

SEARS, ROEBUCK AND CO.

Directions

For first coat of new or unpainted surfaces, thin the paint with boiled linseed oil in the proportion of ½ gallon of oil to 1 gallon ready mixed paint; for surfaces in fairly good condition the proportion of oil used for thinning first coat need not be so great. For second coat, use the paint as received, unless it should be very thick, when a little boiled linseed oil may be added.

How to Find How Much Paint You Require

To find out the quantity of paint you require, measure the length, width and height of the building. In measuring the height you can measure it at one corner, as it is not necessary to measure it at the highest point of the gable. Add together the total number of feet of the two sides and two ends of the building that you want to paint. This will give you the total length of the surface you wish to paint. Then multiply this by the height of the building in feet, which gives you the number of square feet of surface to be covered with paint. One gallon of **Seroco Ready Mixed Paint** will cover from 250 to 300 square feet of surface two coats, according to the condition of the surface. Some surfaces are very porous and absorb more paint than others; therefore, in figuring we suggest that you take the basis of 250 square feet to the gallon. Then divide the number of square feet you get by 250 and that gives you the number of gallons required for the building.

For example, suppose your building measures 20 feet wide, 30 feet long and 20 feet high, you would figure it as follows:

Front	20 feet
One side	30 feet
Rear	20 feet
Other side	30 feet
Total	100 feet
Multiply this by height	20 feet
Total	2,000 sq. ft.

Divide this by 250, which represents the approximate number of square feet that 1 gallon of our paint will cover the surface two coats. You will find this gives you the result 8 gallons, so that it will be necessary for you to buy 8 gallons to cover the surface of a building of the size given two coats. If the surface is in good smooth condition, you can easily see that it will not require even that much. By multiplying the price per gallon by the number of gallons wanted, you can easily see exactly what it will cost you. We sell our **Seroco House Paints** in 5-gallon kits and in gallon cans; thus for a building of the size given, you would require a 5-gallon kit and three 1-gallon cans of paint, if you wanted 5 gallons all one color. It costs $1.20 per gallon for Seroco House Paint in 5-gallon kits and $1.23 per gallon for three 1-gallon cans, so that total cost would be $9.69 for all the paint you would require for such a building. If you want to paint a barn or fence, measure in the same way and figure the cost of our Mineral Barn Paint accordingly.

$1.10 A GALLON IN 50-GALLON BARRELS.	$1.13 A GALLON IN 25-GALLON ½ BARRELS.	$1.20 A GALLON IN 5-GALLON KITS.	$1.23 A GALLON IN 1-GALLON CANS.

About the Advance in the Price of Paint

WHILE the present high cost of linseed oil has compelled us to advance our prices for paint, we are keeping our prices just as low as possible in order to avoid any great increase in the cost of painting; therefore, our advanced prices do not cover the difference in the cost of linseed oil. We prefer to accept a smaller profit than follow the example of other paint manufacturers who have taken advantage of the high price of linseed oil to secure greater profits, advancing their prices far in excess of the difference in the cost of the oil. We would not under any circumstances change the quality of our paint to maintain our former selling price, nor reduce the quantity of linseed oil in our paint regardless of the condition in the linseed oil market. It would be impossible to make a paint we could guarantee to sell for less money than we ask. We will continue to manufacture the same high quality as heretofore. You will observe that at present prices we save you more money than ever. Compare our prices with the greatly advanced prices of others.

"PURE" PAINT O

We Sell Both Kinds—Read These Pages and Take Your Choice. Don't Let Claims of "Purity" Deceive You Into Paying High Prices.

Seroco Ready Mixed Paint, guaranteed not to peel, blister, chalk or rub off, $1.10 to $1.23 a gallon, about half the price others ask for paint not guaranteed. For Color Samples write for Paint Color Sample Book.

Ready Mixed Paint, the same as advertised others as "Pure Paint," guaranteed as "Purity," but not as to wearing qualities, $1. to $1.58 a gallon. For Color Samples write Paint Color Sample Book.

Once upon a time the only two known ingredients for making paint were white lead and linseed oil. That was before the introduction of the telegraph, the telephone, the harvester, the daily newspaper, the trolley car, the typewriter, the automobile, or any of the other labor saving, comfort giving devices that we call **modern ideas.** It is an absolute fact that a paint compounded according to the formula of our forefathers is no more fit for modern use than a hand flail would be fit for threshing on a modern farm.

White lead ceased to be the only mineral used for paint making as soon as it was discovered that the old original "pure" paint would not wear well; that in a year's time, as a rule, it would show a dirty gray color and would rub off readily; that it would peel, blister and chalk off, leaving the original surface exposed to the elements; in other words, the "pure" paint was **POOR PAINT.** The demand for a better paint than could be made of white lead and linseed oil alone prompted numbers of expert chemists to give their time to paint making. These experts aimed to produce a **good paint;** paint that would really protect whatever surface applied to; paint that would wear well and look well. Naturally, they used many ingredients as well as white lead and linseed oil. So successful were these improved paints that dozens of great paint factories have been established throughout the country, all making the modern **ready mixed paints,** using various combinations of minerals and other ingredients. While no two of these modern paint makers turn out exactly the same kind of product, it is a significant fact that **practically all of the so called ready mixed paints have proven by the test of service to be an improvement on the out of date "pure" paint made of white lead and linseed oil only.**

Some years ago we began the development of a paint factory, securing the services of a chemist of twenty-eight years' experience in practical paint making. We told him we wanted a paint we could **guarantee,** something hitherto unheard of in the paint business. When we placed on the market our Seroco Ready Mixed Paint, our absolute guarantee went with it. It was and is today the only paint sold under a positive guarantee that it will not peel, blister, chalk or rub off. We have sold more than five million gallons of it, and the present demand is at the rate of a million gallons a year.

Seroco Ready Mixed House Paint contains linseed oil, lead, zinc, barytes, dryer and other ingredients, compounded in exactly the right proportions, perfectly mixed and ground by machinery so as to produce a perfect paint. Millstones weighing hundreds of pounds do the grinding and mixing. The tremendous friction warms and thins the oils so that every particle of pigment is thoroughly absorbed into the body of the paint. The result is that Seroco Ready Mixed House Paint, upon drying, becomes a tough, leathery skin, having great elasticity, binding together all the pigments employed, giving long life and thoroughly satisfactory wear. We are perfectly safe in guaranteeing Seroco Ready Mixed House Paint not to peel, blister, chalk or rub off, because we know that the perfect methods of manufacture we employ such an ironclad guarantee.

The tremendous success of our Seroco Guaranteed P Paints has naturally been a severe blow to certain ma turers of white lead whose out of date product cannot c to sell against the competition of a modern ready mixed backed by a guarantee that means something. They claimed and still claim that paint made of white lead is th "pure" paint, and they try to lead paint purchasers to th conclusion that all paints containing other ingredien "impure." We ask you simply to note the vital defect i argument: **They have neglected to guarantee their pr** Just ask yourself which you would prefer: A paint m one old fashioned ingredient which **cannot be guarantee** cause without the addition of certain other essential ingre it will not wear, or a paint that is properly compounde all the best ingredients, and which is positively guaran wear and give perfect satisfaction. There is only one to this question, because there is **only one guaranteed** and that is Seroco Ready Mixed House Paint.

In connection with the claims made for white lead as a servative, it is worth knowing that railroad ties, docks bridges of iron and wood, railway trestles and viaducts, structures, buildings of all sorts all over the countr painted with all kinds of preservatives, some containing white lead, but many more of them containing no whi at all. All sorts of railway cars having to stand all ki weather in every climate are painted with a combination which a white lead man would call "impure," but it giv best of wear and satisfaction or it would not be used.

Your "pure paint" dealer will not tell you, perhaps be he does not know, that in France, Germany and other pean countries the use of so called "pure white lead is not permitted on government buildings, railroads or and every can, kit, barrel or other package containing lead must be labeled with a skull and crossbones as a wa of its poisonous and deadly contents. In many countri use of pure white lead is not permitted at all for in painting, while if it is used for exterior painting a sign be the words "Poison—White Lead" must be displayed the work is in progress.

As a rule we take no notice of what our competitors because we feel that our millions of customers will know the truth about our goods and will tell the truth them to others, but the advertising of the so called paint by the makers and dealers in white lead has be misleading, so unfair to people who really want the be at the lowest price, that we feel the foregoing statement due to our customers and the public in general. We **everybody** against paying high prices for paint that is not paint, regardless of the ingredients used in compoundi **We warn everybody** to buy no paint that is not guara by a concern whose guarantee means something.

GUARANTEED PAINT

ady Mixed Paint Advertised by Others as "Pure" Paint

Guaranteed as to "Purity," but Not Guaranteed as to Wearing Qualities

E ORDERING THE PAINT QUOTED ON THIS PAGE, BE SURE TO READ OUR ARTICLE ON "'PURE' PAINT OR GUARANTEED PAINT" ON OPPOSITE PAGE.

The manufacturers of white lead are spending enormous sums of money to combat the improvements being made in paint, ause these improvements threaten to decrease the demand for their products. We have, therefore, considered it our duty the public to state the facts as we have done on the previous page. But in so doing we realize that some people are not ly convinced that new methods are an improvement; also that the extensive ising of the white lead manufacturers and influence of dealers may prejudice people against any other than so called "pure" paint. We are not going to let thing stand in our way to give to the people what they insist on having if we can them money on it. We therefore offer this so called "pure" paint on our usual of actual cost to manufacture and one profit. We find that we can make you a ng of 55 to 92 cents a gallon on it as compared with the prices asked elsewhere the same kind of paint. Why pay $2.00 to $2.50 a gallon elsewhere when we sell you at $1.45 to $1.58 a gallon? If we cannot convince you by our statements on previous page, the result of twenty-eight years of practical paint making, then let least save you money on the paint you want, for we have it. We put the formula ery can, kit or barrel and we guarantee it to be according to the formula. Of se, we guarantee it only as to contents and not as to wearing qualities. We will $100.00 to any college professor, chemist or anyone else who can furnish proof the paint in any of these cans, kits or barrels is not according to the formula.

h your own interests, however, let us reason together before you spend your money called "pure" paint. Consider what paint is for. It has two functions: The first most important function is the preservation of the building or structure painted st the elements and against decay. The second function is the improvement in pearance of the building or structure. The paint that best performs these two s, that is, preserves the best and gives the best finish and appearance, is cer- the best paint, regardless of its contents or price. Our extensive experiments tests of the wearing qualities of paint prove that the so called "pure" paint does not cover and preserve buildings or ures by any means as well as the combination paints on the market manufactured by many different ready mixed paint and that it has no better finish. (Read the previous page.) We also find that our Seroco Guaranteed Paint covers preserves better, lasts longer and has a better finish than the so called "pure" paint or any other brand of paint on rket. We consider, in view of these facts, that the advertising of white lead manufacturers is tricky and therefore an knowledgment that they have no sound argument to put up in favor of their paint. Their use of the word "pure" is plainly the purpose of prejudicing the people against other than so called "pure" paint, the inference being that all other paints "impure." The facts show that the white lead manufacturers are not entitled to the use of the term "pure" as applied er paints. Considering the functions of paint, the proper term to use in referring to their so called "pure" paint is perfect" paint; for actual tests show that it **has not the qualities of a perfect paint.**

Before offering any merchandise, we always conduct an elaborate system of tests. We cannot afford to put our un- guarantee on any goods without knowing the material of which they are made and their construction. We wish to state the plain facts about every item of merchandise we offer for sale. Applying this careful system to so called "pure" paint, we find that it cannot be guaranteed for wearing qualities. As explained on the previous page, pure white lead and linseed oil without other essential pigments do not make a good wearing paint. Other ingredients in addition to white lead and linseed oil, in the right proportions and properly mixed and ground, are necessary to make a paint with a good covering capacity and dependable wearing qualities. So in offering you this paint we wish you to understand exactly what our tests show. If you insist on having it, we can save you money on it, as shown by our prices.

You will observe that we are obliged to ask more money for so called "pure" paint which we CANNOT GUARANTEE as to wearing qualities, and which no one can guarantee as to wearing qualities, than we ask for our Seroco Guaranteed Paint. On the face of it, this may seem strange that we can produce a better paint for less money than a poorer paint, but it is a fact, nevertheless. It is simply due to the fact that white lead manufacturers have practically a monopoly on white lead and the prices are maintained at a high figure, making it an expensive ingredient to begin with, and when you consider that it is the only pigment used in so called "pure" paint, it makes the paint more expensive than other paints not containing so large a proportion of lead. Remember, we guarantee the "pure" paint offered on this page to be the same kind of paint offered on the market elsewhere as "pure" paint. Compare the formula on our cans, kits or barrels with the formulas on the cans, kits or barrels of dealers in so called "pure" paint. We guarantee our paint to be according to the formula. We base our prices on the actual cost of the white lead, linseed oil and colors and the cost to manufacture. We add just our usual small profit. We find that we can sell it to you at $1.45 to $1.58 a gallon, according to quantity. Your net saving is 55 to 92 cents a gallon if you buy it from us, because it will cost you about $2.00 to $2.50 a gallon elsewhere. This difference in price is due to the excessively large profits and selling expenses of the white lead manufacturers and dealers who handle their goods.

Most likely some neighbor of yours has used Seroco Guaranteed Paint. Ask him what he thinks of it. Try Seroco Guaranteed Paint and see for yourself. Remember, the entire institution of Sears, Roebuck and Co. is behind our guarantee on Seroco Guaranteed Ready Mixed Paint. Read our article on the preceding page and take your choice of Seroco Ready Mixed Paint, as described on pages 448 and 449, or ready mixed paint advertised by others as "pure" paint, described on this page.

SEROCO MINERAL BARN PAINT

WEATHERPROOF

69c a Gallon in 50-Gallon Barrels	**74c** a Gallon in 25-Gallon ½-Barrels	**79c** a Gallon in 5-Gallon Kits	**84c** a Gall 1-Ga Cans

Compounded by an Expert Chemist

Our Seroco Weatherproof Mineral Barn Paint is compounded by one of the most expert paint chemists in the country and possesses peculiar properties not common in ordinary barn paint. It is a high class, unexcelled preservative which we recommend specially for structural iron work, barns, grain elevators and the like. It is absolutely weatherproof, having been tested under most trying conditions. It is acknowledged by all who know it to be the most durable preservative of wood. It is ground to unusual fineness by the most modern up to date machinery, both minerals and oils being thoroughly ground and reground together. You may use it with the confidence that it is the best possible mineral paint on the market regardless of name, make or price of other brands. By paying higher prices elsewhere you cannot secure a better paint. Higher prices mean larger profits and expenses of middlemen, really a waste of money to you.

New Process Mineral Barn Paint

Our Second Quality Mineral Paint

A high grade paint is a cheaper paint to use on your buildings than a cheap or low priced paint. You cannot expect the best wearing materials in a cheap paint, nor can you expect the manufacturer, the jobber or the paint dealer to sell his paint below cost. When you buy a low priced paint from the ordinary paint dealer you must remember that there are two or three profits included in the price you pay for the paint and you can draw your own conclusions as to the quality of the ingredients used in its manufacture. Such paints are not worth the labor of putting them on your buildings; they last about six months or a year and then you are obliged to repaint.

For years we have been experimenting with different oils and pigments with the object in view of making a low priced paint that would look well and wear better than the cheap, worthless, low priced paints that are now on the market. In our New Process Mineral Barn Paint we have succeeded in making a paint that, while not guaranteed, will wear longer and look better than any cheap mineral barn paint you can buy on the market at anything like our price. It is manufactured in our own paint factory and we know every ingredient that it contains; we know that the oil and pigments used in its manufacture are of better quality than is contained in most of the low priced paints on the market.

Our Guaranteed Seroco Weatherproof Mineral Barn Paint listed on opposite page, is by far the cheapest and best paint to use, considering its high quality and wonderful wearing qualities; the labor of putting on the paint is also an important consideration—you do not want to be bothered with painting every few years, but if a second quality paint will answer your purpose, and if you want a paint that will improve the appearance of your buildings where length of wear is only a second consideration, a paint that costs but very little and that will brighten up the buildings and sheds on your premises for a reasonable length of time and where repainting is done every season or two anyway to brighten up the surrounding, then order our New Process Mineral Barn Paint and we will send you a better paint than you can buy elsewhere at anything like our price. Remember, we manufacture the paint ourselves, and by purchasing from us several profits are eliminated.

Don't Neglect Your Barn

It is real economy to keep your barn, granary, sheds and outbuildings protected with paint at all times. Furthermore, well painted buildings add to the attractiveness of your place, and add a higher price should you desire to sell.

Our Guaranteed Seroco Mineral Barn Paint listed on opposite page is the very best barn paint manufactured and we strongly recommend that you purchase it in preference to any other brand, regardless of name, make or price. By using our Seroco Mineral Barn Paint you are assured of long and satisfactory wear, an attractive appearance and a good strong color. If, however, a cheaper paint is wanted, one that will give better service than cheap barn paints offered by others, then purchase our New Seroco Mineral Barn Paint listed on this page.

CARBOL WOOD PRESERVER

A Great Preserver and Protection Against Insect Pests

No. 30F1946 Carbol Wood Preserver **has been on the market over twenty-six years and has received the severest test in its preserving qualities.** Telegraph poles that were treated ten years ago are as good as new today. Thousands of dollars have been saved by its use. Carbol Wood Preserver is recommended for wooden fence posts, poles, sills, joists, wooden curbings and steps, trestle work and bridges, railroad ties, water tanks, silos, wharves and docks, ships, boats, barges, dams, plank walks, windmill and water towers, piles and boats to keep off the teredo; all wood exposed to moisture or other climatic influences and insects. If your chicken house is infested with lice and mites, give the interior a coat of this preserver; it will kill all lice and mites and will keep your chicken house free from such pests. Nearly all railroads use this material for treating ties. Moisture or insects will have no effect on fence posts that are properly treated with Carbol Wood Preserver.

Carbol Wood Preserver is a heavy, dark brown oil stain which impregnates all kinds of wood. It is not explosive or inflammable, nor does it evaporate. It is applied with a brush like paint, or the posts or timbers may be dipped or immersed in the liquid. One good heavy coat is enough, as it penetrates very deeply. A gallon will cover about 250 square feet one coat. Nothing better on the market for preventing decay.

SEROCO FLOOR PAINT

READY MIXED.

$1.05 TO $1.08
A GALLON
According to Quantity

FOR PAINTING FLOORS OF

Kitchens, Dining Rooms Bedrooms, Porches and Step

Seroco Ready Mixed Floor Paint is without a doubt the very best wearing floor paint manufactured; it is the result of many years of experimenting and is made by our own secret formula. It must not be classed with the many heavy, worthless floor paints offered elsewhere, for even though our price is lower the quality is unsurpassed. We are so confident that you will be well pleased with Seroco Floor Paint that we agree to return your money if you do not find it everything we represent it to be.

It Makes Old Floors Look Like New

Applied to the floor in the kitchen, the dining room or the bedroom, it will give long and satisfactory service; for our floor paint will stand more foot friction and general wear than any other paint; furthermore, it is easily applied, dries hard and is readily kept clean. It adds immensely to the appearance of a room. If your floors are worn and disfigured, we urge you to give our Seroco Ready Mixed Floor Paint a trial. An old discolored bedroom floor can be made clean and sanitary with two or three coats at a very small expense. After this paint has been applied and becomes dry it is very easily scr and washed without affecting the paint in the slightest degree. It is also highly recom by us for porch floors, steps and board walks. Its application preserves the wood a save many a repair bill.

New or old floors which have not been previously painted require three coats. One gallon will cover from 300 to 350 squa two coats and from 200 to 250 square feet three coats. It will dry in a single night. These are the most attractive colors in floor paints come:

Neverleak Roof Cement Paint

WILL STOP THE LEAKS IN YOUR ROOF

LEAK ROOF CEMENT PAINT IS THE BEST SUBSTANCE KNOWN FOR REPAIRING ROOFS AND KEEPING THEM IN CONDITION. IT PRESERVES SHINGLES, TIN, IRON OR FELT FROM THE ACTION OF THE ELEMENTS AND WILL MAKE AN ORDINARY ROOF LAST TEN YEARS LONGER

LEAKY ROOFS, EITHER TIN, IRON, COMPOSITION FELT OR OLD SHINGLES

made watertight and as good as new with our Neverleak Roof Cement Paint. No other roof paint or any of the so called roof coatings will do what you can accomplish with this remarkable paint. It is a combination of oils, gums, etc., that is more durable than any other paint made for this particular purpose. You can patch holes with this material by following our simple directions.

OUR NEVERLEAK ROOF CEMENT PAINT DOES NOT CONTAIN AN OUNCE OF COAL TAR.

Coal tar products are worthless because they will soften during very hot weather, causing them to crawl and expose parts of the roof. Our **Neverleak Paint**, after once dry, will not soften during the hottest weather. It is a heavy rubberlike, waterpoof liquid cement that **will make an old roof watertight with one application.** One coat of this material is equal to three coats of any other paint or coating; therefore, in most cases, one coat will be sufficient to stop leaks.

Suitable also for all iron work, bridges, smokestacks, water tanks, iron pipes, etc., that are exposed to heat, acid, electricity or the weather. One gallon will cover from 250 to 275 square feet one coat, and one coat is enough. **A boy can apply 10 gallons easily in a day.** Full and simple directions on each package; use any flat or round paint brush. Made in dark colors only, as follows: **Black, maroon and dark green.**

	50-Gallon Barrel, per gallon	25-Gallon Barrel, per gallon	5-Gallon Kit, per gallon	1-Gallon Can

Guaranteed to Stop Leaks in Your Roof if Directions are Followed. Money Returned if it Does Not.

Seroco Shingle Stain and Preservative

Our Shingle Stains are the best it is possible to make. They are made in our own paint factory and every package leaving our factory contains full measure and is guaranteed as to quality. Strong in color with the highest preserving qualities.

Too much stress cannot be laid on the necessity of preserving your roof and protecting it against the elements. It is just as important to keep your roof in good condition as it is to keep the rest of the house well painted at all times. Don't leave your roof to the mercies of the rain and sun without any protection, against decay by using our Shingle Stain. Remember, a few dollars spent is the means of saving a few hundred later on, for new shingles will cost considerably more money than the cost of enough stain to protect your roof for some. **Water will not penetrate shingles coated with our stains, rendering them practically immune from decay.**

Prices quoted below are based on the actual manufacturing cost with but a percentage of profit added, therefore do not be deceived by paying higher price, as a better shingle stain cannot be made. Send us we guarantee satisfaction or money returned. The shingles can on the stain or it may be applied with a brush. When applied with a brush will cover about 150 square feet of surface, one coat, or 100 square feet. When dipped, 2½ to 3 gallons will cover 1,000 of the regulation shingles. Two-thirds the length of the shingle only need be dipped.

Furnished in the following shades:

No. 30F1181 Moss Green. **No. 30F1183 Dark Slate.**
No. 30F1182 Dark Green. **No. 30F1185 Red.**
No. 30F1186 Brown.

Black Carbon Paint

FOR PAINTING IRON AND SHINGLED ROOFS, COMPOSITION OR FELT ROOFING, BRIDGES, IRON AND WOOD SHEDS, TELEPHONE POLES, SMOKESTACKS, ETC.

No. 30F1942 This paint is a pure carbon preparation and does not contain an ounce of coal tar or asphaltum. This carbon paint has been on the market and used for many years and is giving the best of satisfaction. It is not as elastic and durable as our Neverleak Roof Cement Paint but it has in many instances preserved roofs for five years. If circumstances are such that you must have a very low priced roof paint then send us your order for this carbon paint and we will ship it to you with the guarantee that it will wear longer and preserve better than any of the cheap coal tar paints or coatings on the market.

90c Paints Your Buggy With Seroco Buggy and Carriage Paint

A strictly high grade paint for buggies, carriages, wagons or any kind of vehicle. Also recommended for automobile bodies and gears. It is made from the best pigments ground in the finest carriage varnish, and for durability and finish our buggy paints are unexcelled. One coat makes a beautiful and durable finish and no varnish required. Two quarts, costing 90 cents, with very little labor will make an old buggy look like new. No experience necessary; anyone can apply it, as it comes to you ready for use. While this paint is made expressly for buggies, etc., it can be used with excellent results on settees, benches, lawn swings, chairs or any article exposed to the weather. Our buggy paints are made from the finest materials it is possible to obtain; for instance, the colors are nonfading and the costliest the market affords. We cannot afford to use cheap materials because we want your future orders, also the orders from your friends and neighbors. Manufacturing the paint ourselves enables us to use the very best materials and still be able to quote a price others ask for inferior goods.

70c Paints Your Wagon With Seroco Wagon and Implement Paint

ONE-HALF GALLON WILL PAINT ANY ORDINARY WAGON AND MAKE IT LOOK LIKE NEW

A paint made expressly for wagons and farm implements, has wonderful wearing qualities and covering power. Made of the very best materials with nonfading colors. Being extremely tough, it will not crack or peel off. It is cheaper to use paint than to allow your wagon or farm implements to go to decay. One gallon will, in many instances, refinish every implement on the farm. It is an ideal implement paint because it can be used on iron as well as wood with equal results. Saves many times its cost in preventing rust and decay. Anyone can apply it and do perfect work, as it is ready mixed and ready to be applied when you receive it. Dries hard with a high gloss. Apply with a No. 30F3028, No. 30F3034 or No. 30F3036 varnish brush, 1, 2 or 2½ inches in width.

Seroco Gold Leaf Enamel.

No. 30F2147 The best Gold Paint on the market. It dries with a bright, smooth finish, almost like gold leaf. Ordinary gold paint dries out very dull and sandy, but this article will leave a smooth finish as though it were burnished. The gold powder and liquid are put up separately in a patented double can and are mixed when ready to use. If you do not find this the best gold paint you have ever used, brighter than any other, also that it will cover more surface than any other, write to us and we will promptly return your money. For picture frames, lamps, chandeliers, statuary, bird cages, hinges, baby carriages, iron beds, chairs, baskets, wickerware, toys, curtain poles, room molding, bric-a-brac, etc. Apply with a flat lacquering brush, No. 30F3012, ⅝ inch or ¾ inch wide.

Seroco Gloss Enamel

A HIGH GLOSS INTERIOR PAINT.

GIVES THAT SMOOTH, GLOSSY PORCELAIN FINISH ON WOODWORK. ANYBODY CAN PUT IT ON VERY EASILY.

A SANITARY FINISH, AS YOU CAN WASH DIRT OR GREASE OFF YOUR WALLS WITHOUT AFFECTING THE FINISH.

The highest grade interior enamel for all purposes. Anyone can apply this enamel and produce that high gloss finish on woodwork, plastered or board walls, furniture, etc. It is a very sanitary finish for walls and woodwork because all dirt and grease are readily removed with soap and hot water without affecting the high gloss finish. Seroco Gloss Enamel is ready mixed and comes to you prepared ready for use and the directions are so simple that the most inexperienced can secure that smooth glossy porcelain finish on woodwork, walls, etc., the equal of the most costly enamel work produced by expert painters. Seroco Gloss Enamel is not an ordinary enamel paint but is a scientifically prepared mixture and should not be compared with the cheap, worthless enamels on the market. We are anxious that our customers give this enamel a trial. Send us an order and finish the walls and woodwork of one of your bedrooms and we guarantee that you will be so well pleased with the porcelain like finish that you will immediately treat other rooms likewise. The finest material on earth for finishing the walls and woodwork of bathrooms and kitchens. Since Seroco Gloss Enamel is made in a variety of beautiful shades, harmonious color combinations are possible; for instance, use a certain color for the walls and a harmonizing color for the woodwork. Remember, we are offering here the highest grade enamel it is possible to make and so prepared that the most inexperienced can produce with it the most perfect enamel finish. Apply with a varnish brush, No. 30F3036, size 2½ or 3 inches wide.

1-quart can.....34
½-gallon can.....66
1-gallon can.....1.24

15c A ½ PINT. Varnish Stain.

Stain and varnish used separately, on new work, produce a better finish than varnish stain, but for refinishing painted or varnished surfaces, such as old furniture, painted or varnished woodwork, this varnish stain is recommended. It stains and varnishes in one operation. Dries hard with a fine luster. Furnished in the following natural wood colors: Cherry, rosewood, mahogany, walnut, light oak, dark oak, antique oak. **Do not fail to mention color wanted.** Apply with a varnish brush; 2-inch brush recommended.

In selecting a color it is necessary that the color selected be of a similar shade to the old finish; for instance, a piece of furniture finished in mahogany cannot be refinished in light oak by applying the light oak varnish stain. **The varnish stain in this case will have to be of a dark color, either mahogany or walnut.**

Whitewashing and Spraying Machine $5

It Whitewashes, Sprays Trees, Shrubbery, Sheep and Cattle, and Does Many Other Useful Things

Straight Stream Nozzle.

Follower Wrench.

YOU CAN'T AFFORD to be without this machine for so low a price as $5.90. Send us your order today and we will ship you the machine promptly and guarantee to satisfy you in every way or you may return it to us at our expense and we will return your money, including freight charges.

IT DOES WHITEWASHING BETTER THAN WITH BRUSHES, simply because it forces whitewash into corners and crevices where disease germs lodge and which cannot be reached with brushes. In whitewashing chicken houses infected with lice, you can do the work from a door or window, thus avoiding the discomfort of being covered with chicken lice and dirt from head to foot.

FOR SPRAYING SHEEP AND CATTLE IT CAN'T BE BEATEN, as it forces the liquid through to the hide where you really want it. No other sprayer or machine will do the work with so little labor; and for spraying fruit trees and plants, and the many other purposes for which it is intended, it is a wonder. **After you have given this machine a trial you would not part with it for $100.00 if you could not get another.**

THE MACHINE IS SIMPLE AND EASY TO OPERATE. The legs can be removed instantly and thus occupy little space. It can be conveniently carried on cars, in buggies, etc. It is always ready, nothing to take apart or attach, and with a bucket of water you are ready to throw a 30-foot stream any time.

EQUIPMENT CONSISTS OF a 6-foot wrought iron spray pipe with ⅛-inch brass shutoff cock and brass spray nozzle, extra brass nozzle for straight stream work, iron follower wrench (used for tightening plunger ring in bottom pump cylinder), rubber suction hose with screen attachment and 8 feet of ⅜-inch special high pressure rubber discharge hose. Shipping weight, 40 pounds; net weight, 30 pounds.

HERE ARE SOME OF THE MANY THINGS YOU CAN DO WITH IT

You can whitewash chicken houses, barns, sheds, warehouses, basements, factories, etc.; wash buggies, outside windows, porches, sidewalks, outside walls of buildings, sprinkle flowers, spray fruit trees and plants, wash the feet horses and cattle, etc.

IT DOES ANY ONE OF THESE THINGS WITH EQUAL EASE AND DOES IT WELL.

No. 30F2382 **Handy Whitewashing and Spraying Machine.** Price, complete ..... $

SEROCO DRY COLORS

The following dry colors are used for tinting kalsomines, making graining colors and other purposes. Some use these dry colors for painting purposes by mixing them with linseed oil. This we do not recommend unless the mixture is put through a paint mill, as you will have nothing but a coarse mixture which is not fit for anything. If a mineral paint is desired at a low price you will profit by purchasing the Seroco Weatherproof Mineral Barn Paint; then you will have a substantial paint, a paint that will wear three times as long, therefore cheapest in the end.

TENCILS

THE STENCILS ARE MADE OF HEAVY OILED PAPER ARE USED FOR MAKING BORDERS, BINDERS, BORDERS AND CENTERPIECES ON KALSO-PAINTED AND FRESCOED WALLS.

are also used for making the same decorations on paper. For the stencil color on kalsomined, or papered walls use kalsomine of a harmonizing which add an ounce or less, according to quantity, lamp black (use No. 30F2343 Lamp Black). For painted walls prepare the stencil paints as follows: a quart or one-half gallon of the body paint to settle, pour off all of the oil and some of the add turpentine to the heavy material at the bottom and stir thoroughly. It is then ready for use. stencils are to be used for kalsomine stenciling it is that the stencils be given a light coat of shellac coat both sides of stencils; ¼ pint will coat stencils. For oil paints or oil colors it is not stencils. To convey a better idea of the use of the illustrations show more than one repetition stencil. Corner No. 421 is designed to attach to No. 422, but may be used separately as a drop border by repeating four times around a central Corner No. 425 matches Border No. 424, and can be in a number of ways. No. 413 can be repeated as a or by swinging it around in a circle will make a very fine centerpiece.

Stencils sent as ordered cannot be returned. ORDERING, MENTION CATALOG NUMBER AND NUMBER OF STENCIL WANTED.

VELVET SANITARY KALSOMINE OR WALL FINISH.

VELVET SANITARY KALSOMINE is a dry powder scientifically prepared and when mixed with hot water (full package) it is ready for the walls. It will give you a smooth finish and cover so that the most inexperienced can do perfect kalsomining with this material. If at any time tire of kalsomine or desire a change in color you can remove the old kalsomine with water and a sponge, at the same time you are also removing the dust and dirt that have settled on the walls. You cannot do this with some of the extensively advertised wall coatings because they cannot be removed and you are compelled to cover the dust and dirt with the new wall coating and seal the dirt to the walls instead of removing it. Our Sanitary Kalsomine is the best covering and easiest working kalsomine on the market and we guarantee you how clean and fresh a room can be made with a package or two of Velvet Sanitary Kalsomine. It comes in many beautiful tints so that each room, if desired, may be in a different color. It will give you a smooth velvety finish which will not rub off, and will not soil clothing that may come in contact with the wall. If you are tired of painted walls, then apply a coat or two of Velvet Sanitary Kalsomine directly on the painted walls and you will be delighted with the smooth, velvety finish; you do not have to remove the paint because it is a good undercoat for kalsomine. The most beautiful harmonizing combination of colors may be had with Velvet Sanitary Kalsomine.

One package is sufficient for an ordinary size bedroom

FOR OUR COMPLETE LINE OF KALSOMINE BRUSHES SEE PAGES 465 AND 467

25c A PINT Seroco Floor Oil.

No. 30F2635 Seroco Floor Oil. A special preparation for floors of residences and stores. A very small quantity applied with a cloth will bring out a rich color; also it will do away with scrubbing, as floors oiled with Seroco Floor Oil are easily cleaned by simply washing them with soap and water.

1-pint can	$0.25
1-quart can	.42
½-gallon can	.75
1-gallon can	1.30
5-gallon jacketed can	6.00

28c A POUND Seroco Floor Wax.

No. 30F2636 Seroco Floor Wax. A lasting, brilliant polish can be obtained on floors when using our prepared floor wax. It is perfectly transparent and will not change the color of wood. Dirt and dust will not stick to floors waxed with Seroco Floor Wax. One pound will cover about 300 square feet. Directions are simple and plainly printed on every can. Put up in one-pound cans.

Price, per can 28c

30c A POUND Dancing Floor Wax.

No. 30F2637 Dancing Floor Wax (powdered). This is the best preparation for dancing floors, easily applied and can be used on new, old or canvas covered floors. Guaranteed not to soil the most delicate fabric. Sprinkle it on the floors and the dancers will do the rest. Put up in 1-pound cans.

Price, per can 30c

25c A PINT 15-Minute Floor Finish.

No. 30F2640 A most wonderful finish for floors, interior stairs, etc. It is a compound consisting of wax and other ingredients and applied to the floor in liquid form with a cloth. Floors may be finished in fifteen minutes and immediately used after applied. Brings out the grain of the wood and imparts a rich color. Floors finished with this material can be kept thoroughly clean without scrubbing, as all dust and dirt is readily removed with an ordinary broom or floor brush. Highly recommended for schools, colleges, stores, public halls, churches, as well as residences. For hard and soft wood floors. The scrubbing expense of large schools, colleges, etc., is enormous. We guarantee that this expense can be reduced 75 per cent by using our Fifteen-Minute Floor Finish. Do not apply this preparation over a painted surface as it is only intended for new floors, or floors that have previously been oiled or waxed. One quart will finish 150 square feet of surface.

1-pint can	$ 0.25
1-quart can	.40
1-gallon can	1.30
5-gallon can	6.00
10-gallon can	11.00

Success Linoleum and Floor Oilcloth Finish.

No. 30F2642 Why allow your linoleum or floor oilcloth to wear away when it can be preserved for a few cents and give you a better finish than the original finish of the linoleum or floor oilcloth? This material puts a coating on the linoleum and dries hard but remains elastic like the linoleum or oilcloth itself, therefore it will not crack or check. Linoleum today is one of the most popular of all floorcoverings; its most objectionable feature has been the continual unevenness of wear, causing color to become dull and pattern to be lost, leaving a decidedly spotted effect in the linoleum. By using Success Linoleum Finish the linoleum or oilcloth will retain all its original brightness and luster, thus making the life of linoleum much longer. Hot or cold water does not affect it. A quart can costing 55 cents and a few minutes of your time will save you ten times this amount. One coat will do the work, applied in the evening it will be dry, ready to walk on in the morning. One quart will cover a square 12x15 feet. This finish may also be used on parquet flooring.

1-quart can, 55c; 1-pint can 30c

Water Putty (Crevice Filler).

No. 30F2659 This is a hard drying mineral substance in powder form to be mixed with water. It dries in fifteen minutes. For filling imperfections and cracks in furniture, vehicles, plastered or board walls, floors, statuary, picture frames, sinks, etc. When dry, water will not dissolve it and may be sandpapered, carved or sawed without crumbling. Picture frames with composition ornaments may be repaired with our Water Putty. Use No. 30F2660 for filling cracks in floors that are springy or not well nailed. Use our Water Putty for filling cracks in solid floors.

1-pound package	10c
5-lb. pkg. 36c; 2-lb. pkg.	18c

12c A POUND Seroco Crevice Filler.

No. 30F2660 Seroco Filler for cracks in floors. A specially prepared elastic, nonshrinkable compound for filling cracks in floors or furniture before applying paint or varnish; also adapted for smoothing rough surfaces.

$6.00	$1.30	75c	43c	24c

Seroco No. 1 Hard Oil Finish.

No. 30F2711 Splendidly adapted for general interior woodwork. Is pale, free flowing and durable and possesses a full and substantial body. Dries free from dust in two to three hours.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$4.75	$1.05	63c	37c	21c

Seroco Furniture Varnish.

No. 30F2714 This varnish may be used to brighten up worn and lusterless furniture of every description. It dries over night and imparts a fine gloss finish. For general repair work in the household, on articles in daily use that must be finished hurriedly, this material is recommended.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$3.75	85c	53c	32c	19c

Seroco Extra Furniture Varnish.

No. 30F2715 An extra fine varnish which is used by high grade furniture manufacturers; very tough and dries hard with a high gloss which can be rubbed and polished. Recommended for first class furniture finishing.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$6.00	$1.30	75c	43c	24c

Seroco Cabinet Finish.

No. 30F2716 This varnish is designed for highest grade interior woodwork that is to be rubbed and polished; also gives a beautiful finish when left in the gloss. Is exceptionally rich and lustrous and on account of its elasticity is extremely durable. Dries free from dust in three to four hours and sufficiently hard for rubbing in forty-eight hours.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$6.50	$1.40	80c	45c	25c

Seroco Interior Varnish.

No. 30F2718 An excellent varnish for use on all ordinary woodwork, furniture or over graining. Produces a fine gloss and gives a lasting finish. Dries in about twenty-four hours.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$5.50	$1.20	70c	40c	23c

Seroco Interior Spar Finish.

No. 30F2719 Specially adapted for finishing highest class interior woodwork that is to be left in the gloss; may, however, be rubbed if desired. Exceedingly pale, free working and durable. Dries hard in two to three days.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$8.25	$1.75	97c	53c	30c

Seroco Durable Floor Varnish.

No. 30F2720 Unequaled for finishing floors of all kinds, natural wood, painted or oilcloth. Will not turn white under repeated washings or foot friction, and dries to walk on over night. It is easily applied and gives an elegant and durable finish. This is undoubtedly the best floor varnish on the market.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$8.00	$1.70	95c	53c	29c

Seroco Church and School Seat Varnish.

No. 30F2721 An extremely hard drying and durable article prepared especially for use on church and school seats. It will not soften up under heat of the body. Dries dust free in five to six hours and hardens in forty-eight hours.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$8.50	$1.80	$1.00	55c	31c

Seroco Outside Spar Varnish.

No. 30F2722 For finishing all kinds of exposed surfaces, such as outside doors, vestibules and store fronts. It is also especially recommended for finishing inside blinds and the woodwork in bathrooms and on sinks, where a very elastic and durable varnish should be employed.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$9.25	$1.95	$1.08	59c	33c

Seroco White Damar Varnish.

No. 30F2724 Made from imported Batavia gum. For finishing over any enameled surfaces, white or ivory, without producing discoloration. It may also be used with excellent satisfaction on fine wall paper hangings or on delicately tinted painted walls. Is of good body and dries well.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$7.75	$1.65	93c	52c	29c

Seroco Black Asphaltum.

No. 30F2726 For finishing all kinds of castings, smoke stacks, stove pipes, fenders, coal hods, iron work of agricultural implements, etc. It produces a jet black, brilliant finish and absolutely prevents rust or corrosion. It is heavy in body and quick drying.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$2.50	60c	40c	22c	13c

Seroco Turpentine Japan Dryer.

No. 30F2728 A first class house painters' japan, dependable in all kinds of weather. A good binder and a sure and quick dryer. It contains no acids and will not cause the paint with which it is mixed to burn, blister, crack, chalk or peel. It mixes readily with oil and does not detract from the elasticity of the paint.

5 Gallons	1 Gallon	½ Gallon	Quart	Pint
$3.50	80c	50c	30c	18c

Gloss Oil.

No. 30F2732 Gloss Oil is composed of rosin and benzine. It is used for sizing plastered walls before kalsomining and for other similar work.

5 Gallons	1 Gallon	½ Gallon	Quart
$1.50	40c	25c	17c

FINE CARRIAGE VARNISHES.

Seroco Wearing Body Varnish.

No. 30F2740 A brilliant, durable and elastic varnish for finishing carriage and buggy bodies. It works and flows with surprising freedom and may be used on the largest surfaces, such as carriage bodies, with the greatest safety and satisfaction. It is very pale and will not darken or injure the lightest shades of body color. It dries free from dust in twelve to sixteen hours and hardens properly in from two to three days.

1 Gallon	½ Gallon	Quart	Pint
$3.00	$1.60	85c	45c

Seroco Elastic Gear Varnish.

No. 30F2744 Used for finishing gear parts and wheels. Is free working, brilliant and durable. It sets in six to eight hours and dries hard in thirty-six to forty-eight hours. This varnish may also be used for body finishing when drying, dispatch being an important consideration. This is a superior all around varnish for carriage finishing.

1 Gallon	½ Gallon	Quart	Pint
$2.85	$1.55	80c	43c

Seroco One-Coat Coach.

No. 30F2752 A splendid varnish for general repair work. On carriages, when work is simply dull or lusterless, otherwise in good condition, one coat of this varnish on the entire vehicle will produce a finish practically equal to a new job. It is light in color, elastic, brilliant and durable. Dries free from dust in about twelve hours and hardens to admit the use of the vehicle in about three days.

1 Gallon	½ Gallon	Quart	Pint
$2.50	$1.35	72c	38c

Seroco Wagon and Implement Varnish.

No. 30F2754 For agricultural implements, wagons, etc. A good varnish for general outside work, has a good body, a fine luster and is light in color and wears well. Dries in about ten to fourteen hours.

1 Gallon	½ Gallon	Quart	Pint
$1.45	83c	46c	25c

OIL THE BEST GRADES FOR ALL PURPOS

Our Oil Department is one of the largest independent shippers of oil in the world. Our customers realize goods we have to offer are far superior in every respect to the miscellaneous lot of goods thrown on the market by the companies. We have no high salaries to pay salesmen on the road. The pages in this catalog are our salesmen. W the very best oils the world produces and if you have not given our oils a trial you should at least send us a trial or different oils listed in this catalog are most generally used, but if you do not find the kind of oil wanted, write ing a description of the oil and purpose it is intended for, and we will promptly quote you the very lowest price.

WYANDOT INCUBATOR LAMP OIL.

Made in Crawford, Ohio.

Our Wyandot oil is not like the ordinary kerosene oil, but is an oil scientifically prepared which goes through a washing process after being refined. This oil will give you an even temperature because it forms less crust on the wick, leaving the wick soft instead of with a hard crust. Operators of incubators realize that without an even temperature it would be impossible to secure a successful hatch and an even temperature cannot be obtained with the majority of oils offered on the market. Our Wyandot Incubator Oil will give you an even and steady white flame and you do not have to trim the wick as often as when burning ordinary kerosene. Our Wyandot Incubator Oil has by actual test burned steadily for thirty days and nights before there was any noticeable change in the flame. No other oil, even the best brands, will do this. Return the oil at our expense if not as represented. May be used for house lamps as well as incubators. Barrels shipped from Crawford, Ohio; 10-gallon cans shipped from our Chicago plant.

To Insure a Successful Hatch Use Only the Best.

We Guarantee This Oil.

An Even Temperature and Clear Flame Are Essential to Get Good Results.

Why use a poor oil when you can secure Wyandot White Oil, the best, for such a low price as ours?

No. 30F3300 50-gallon barrel.....**$6.75**
No. 30F3301 10-gallon jacketed can. **1.90**

Seroco Safety Kerosene.

No. 30F3306 A high grade burning oil that will give you a bright light without the offensive odor so common when burning cheap oils. We guarantee that this oil will burn better and last longer than the ordinary kerosene on the market.

Price for 10-gallon can **$1.80**
Sold in 10-gallon cans only.

85c **Transfer Pumps.**

No. 30F3298 Transfer Pumps for transferring gasoline or kerosene from barrels into tank. The regular pump furnished with our kerosene tank is rather small for transferring purposes. Oil may be transferred with this pump in one-half the time.

Length, 32 inches; diameter, 1¼ inches.
Price **$0.85**

Length, 54 inches; diameter, 1½ inches. Price..... **1.70**

Cylinder Oils.

The following Cylinder Oils are made from Pennsylvania Premium Crude. This crude is settled before distilling, and refiltered after distilled, doing away with all foreign matter. The tests of these oils, such as fire, flash, viscosity and gravity, are unexcelled.

No. 30F3336 Highest Test Cylinder Oil. Made from the finest stock. Amber in color. Nothing better on the market. May be used in any engine; high or low steam pressure.

Fireproof Cylinder Oil.

No. 30F3341 Fireproof XXX Cylinder Oil. Black in color. The most wonderful and powerful oil ever compounded. Used in any engine, high or low pressure, and lubricates perfectly. You will always find a film of oil inside of cylinders where this oil is used, also on the rings; packing and piston rods are so thoroughly lubricated they show comparatively little wear, no matter how high the steam pressure. One barrel of Fireproof XXX Cylinder Oil will go as far as two barrels of any other oil. We guarantee that after you have once used this oil you will never use any other. We will accept your order for a barrel or can of this oil with the understanding that if not found as represented, we will allow you to return the balance of the oil and return your money, making no charge for the oil used. The following prices include package:

1-gallon can.....**49c**
5-gallon can, per gallon.....**43c**

AUTOMOBILE SPECIALTIES

Seroco Auto Metal Polish.

No. 30F3458 **The brass and other metal parts of automobiles are made from the finest quality of material** and will take on a very high luster if the proper polish is used. Our Seroco Auto Metal Polish will give you a quicker and longer lasting polish than can be obtained from the majority of polishes on the market. One can of our polish will go farther than two cans of any other; will work as easily in cold as in warm weather and polishes hot as well as cold metals. Polishes brass, gold, silver, nickel, zinc and tin; produces the most durable brilliancy possible to obtain.

TRANSMISSION GREASES

A High Quality Grease.

No. 30F3455 **This grease is known the world over as the best grease for automobile use.** We cannot use the manufacturer's name for the reason that we are selling it at a greatly reduced price; the same grease is sold under its regular brand name at 25 cents a pound. Water will not mix with this grease and it remains in the same consistency summer or winter; it never gets hard nor gums. Less power is required to run the gears and there is almost no wear when this grease is used. Furnished in No. 1 consistency, no heavier grease should be used. Guarantee on every can.

Sensational Values in Seasonable Suiting and Waisting Mill Ends

This page contains a wonderful selection of first quality 1911 waistings and suitings. These goods are made by the very best mills and the lengths are very practical. By special arrangement with several Eastern mills we take over the entire production of mill ends or shorts. The unusually low price at which it is possible for you to buy these goods should make this page an uncommon attraction. The price in each case barely represents the cost of the raw cotton and is about one-half the actual retail value of the goods. Where two colors are mentioned on any one mill end you have your choice of either color. Be sure to include a few of these astounding mill end values in your order.

CROCKERY, FANCY CHINA, GLASSWAR

COMPARE OUR PRICES with those asked by your local dealer and you will readily appreciate that every dinner set herein offered represents a saving of from $2.50 to $25.00. We guarantee quality. There is absolutely no sacrifice of quality to secure these low prices. We sell only first quality selected dinnerware.

FOR 5 CENTS each we send, postpaid, an individual butter plate of any dinner set, excepting our Haviland china, for which a charge of 10 cents is made.

EVERY DAY IS BARGAIN DAY WITH US. On account of our tremendous buying power we can sell better and glassware at much lower prices than are found elsewhere. No other dealer can offer you such bargains as you will find on the following pages.

OUR BINDING GUARANTEE

WE SELL ONLY FIRST QUALITY.

WE ABSOLUTELY GUARANTEE EVERY PIECE OF OUR CROCKERY AND GLASSWARE LISTED IN THIS CATALOG.

WE SELL NO SECONDS. We handle only the finest and most carefully selected goods that the market affords. It is impossible in a catalog picture to tell whether merchandise is first or second quality. Often it is hard to tell until the merchandise is in use whether it is first or second quality. We have absolutely refused to buy any but specially selected first quality ware, and our reputation back of this statement makes you know that what we say can be depended upon.

WE GUARANTEE to replace free of all charges any piece that may prove defective in material and workmanship.

WE GUARANTEE safe delivery and will replace free of charge all breakage in transit.

COMPLETE CHINA AND GLASS DINING ROOM ASSORTMENT.

OUR SNOWFLAKE PLAIN WHITE DINNER SET

Made of the finest quality of pure white semi-porcelain (semi-vitreous china) in a new Haviland shape. Richly and daintily embossed. Every piece is covered with a deep glossy glaze and is perfect in selection. We cannot emphasize too strongly the superiority of our Snowflake dinnerware. It is the equal of any famous English semi-porcelain. Every piece is perfectly modeled and the ware is almost as light and delicate as genuine china, while at the same time, on account of its superb quality and extra high firing, it is as strong and durable as ordinary semi-porcelain of twice its thickness. Shipped from pottery in East Liverpool, Ohio.

OUR LEADER DECORATED DINNER SET

$4.89

Our new Semi-Porcelain Dinner Set, decorated with sprays of pink roses and green leaves at a price less than what you have been accustomed to pay for a one-color print. The shape is the famous "Anna" and is handsomely modeled and richly embossed around the edges in lace design. The body is made of the best quality semi-porcelain with a pure white glaze. The decoration consists of sprays of pink roses enriched with green foliage and dainty gold lines. Bear in mind, the decoration is not a one-color, but is a colored decalcomania, exactly like that used on high priced sets. Shipped from pottery in East Liverpool, Ohio.

FLORAL WHITE AND GOLD DINNER SET

For the first time in the history of the china industry we are able to offer you a white and gold dinner set at the price of a one-color print. This is the biggest, showiest value for the money on the market today. This set is made of genuine semi-porcelain, decorated with large gold floral sprays around the edge and a gold floral medallion center. The shape is the same as used on our highest priced sets and each piece is elaborately embossed around the edges. For anyone who wants a showy dinner set for little money we can recommend nothing better. Shipped from pottery in East Liverpool, Ohio.

PRINCESS ROSE SPRAY AND GOLD DINNER SET

Sprays of pink wild roses. Full gold trimmed. The best quality of American semi-porcelain in the attractive Angelus shape, with the edges and handles delicately embossed. The set is decorated with sprays of pink roses and their green stems and leaves. It is **FULL GOLD TRIMMED** with a bright gold floral scroll ornament between each spray of flowers, while all the handles and knobs are hand traced with bright gold. It is an exceedingly dainty and attractive spray pattern and one that is usually retailed for twice what we ask. You cannot fail to realize that never before has dinnerware of the first quality, richly decorated with sprays of flowers and full gold trimmed, been sold for anything like as low a price as we are asking. Do not fail to take advantage of this opportunity to purchase your dinnerware for half of what you have heretofore been compelled to pay.

GOLD INITIAL PINK ROSE DECORATED DINNER SET

...25

For list of pieces included in these sets see page 474.

YOUR OWN INITIAL ON EVERY PIECE IN GENUINE GOLD.

The initial used on our set is an exact copy of the initial used on the finest imported sets of dinnerware and is of Old English design, surrounded by a wreath of genuine coin gold. The initial is carefully inspected and is guaranteed to be perfect.

The decoration is exceedingly beautiful and artistic. It consists of clusters of pink roses with green stems and leaves, all in their natural colors, true to life; the roses and foliage all gracefully entwined with maidenhair ferns, delicately shaded.

All the handles and knobs of all the pieces are hand traced with bright genuine coin gold. Embossed around the edges in a dainty lace design. Bear in mind that every initial is put on to order, so be sure to state plainly the initial you want. Each set is shipped from the pottery in East Liverpool, Ohio.

"QUEEN LOUISE" CORN FLOWER BORDER, SOLID GOLD HANDLES DINNER SET

...98

OUR FINEST AMERICAN CHINA DINNER SET.

Each piece is decorated with a continuous border of small pink blossoms with their green foliage and at intervals of about an inch, a blue corn flower. This is the newest French decoration. The edge is heavily traced with a broad band of burnished coin gold. Inside and following the floral decoration is a hairline of bright gold. There is also a gold hairline around the inside edge of each plate and platter. The handles are solidly covered with Roman yellow gold. The shape of this set is new and attractive, being patterned after the most fashionable style of the day. The body is pure white and light in weight. Shipped from the pottery in East Liverpool, Ohio.

$6.35 WHITE AND GOLD DINNER SET

White and gold dinnerware is always in the very best of taste; it always has a rich appearance on the table. It is always in style. The ware from which this dinner set is made is of the highest grade white American semi-porcelain and of a specially selected quality of stock.

This exquisite gold decoration makes it one of the handsomest white and gold American china dinner sets ever sold. The edge of every piece is decorated with a broad band of burnished coin gold, supplemented with an inside lace border of coin gold, which follows the outline of the rich ornamental embossing. All the handles are elaborately traced with gold. Each piece is the acme of gracefulness and beauty, and is light and thin, yet very strong and durable.

No. 35F280 White and Gold Dinnerware in open stock. This open stock is shipped from Chicago except when ordered with a dinner set.

"COLONIAL" GOLD BAND DINNER SET

White and gold dinnerware possesses the quality of harmonizing with a room decorated in any color. The demand today among people of refinement is for a plain shape with a gold band around the edge. The highest priced Haviland ware is made with a gold band decoration. This set has a fine perfectly modeled pure white semi-porcelain china body in a new plain shape. The edge of each piece is decorated with a broad band of burnished coin gold supplemented with an inside hairline of coin gold. The handles are also hand traced with gold. Each piece has a slight but graceful scalloped edge and is light, strong and durable. These sets are shipped from the pottery in East Liverpool, Ohio.

UNDER GLAZE ENGLISH BLUE WILLOW PATTERN DINNER SET

A splendid reproduction of the famous Blue Willow pattern in a rich blue color executed under the glaze. The design on the ware is supposed to tell the old, yet always popular legend of the "Weeping Willow." Made of the highest grade semi-vitreous porcelain in genuine Old English shapes. The fact that this pattern is put on under the glaze insures permanency. It will never wear off. The Blue Willow pattern is probably the most famous design ever used on dinnerware. The pattern is just as popular today as it was 150 years ago. Shipped from warehouse in Buffalo, N. Y.

No. 35F304 English Blue Willow Dinner Sets.

UNDER GLAZE BLUE DRESDEN PATTERN DINNERWARE

This is genuine imported German semi-porcelain made by the famous Villeroy and Boch pottery. The ware is extra strong and has a pure white rich glossy glaze. The decoration consists of a blue floral spray center and a floral border. Around the edge is a narrow blue band and on the inside of the border is a narrow blue hairline. This decoration is the genuine Dresden pattern and is put on under the glaze. This insures absolute permanency. It is guaranteed not to wear off.

OUR HOTEL AND RESTAURANT DEPARTMENT

Order by Catalog Number and Name of Article.

We carry only first quality; we sell no seconds in our hotel china and glassware.

SEMI-PORCELAIN HOTEL AND RESTAURANT CHINA.

This ware is extra strong and heavy and will stand the most severe and rough usage. It is made of the finest quality white china clays with a clear hard glaze that will not craze. The decorated ware is of exactly the same high grade quality, but is of lighter weight with a glaze on all flat pieces which makes it as strong as the thick ware and at the same time lighter weight makes it more dainty and attractive. The decoration consists of a broad band of French green with two red brown pin lines on each side of the green band. This decoration is under the glaze and will last as long as the china.

The shapes are the same in semi-porcelain and vitrified china.	Weight, Pounds, Per Doz.	Capacity, Pints	35F1090 Plain White Price, Per Doz.	35F1092 Decorated, Price, Per Doz.

VITRIFIED HOTEL AND RESTAURANT CHINA.

We sell Maddock's world famous vitrified hotel china. Made from the best material obtainable. Made for durability, strength and lasting qualities. It is thoroughly vitrified, which means that it is absolutely sanitary and nonabsorbent, and when chipped will not turn black in the chipped places. The body is pure white in color with a glossy, extra hard glaze which will not scratch or craze. The quality of the plain white and the decorated ware is exactly the same, but the decorated is lighter in weight and has the rolled edge, which makes it as strong as the thick ware. The decoration consists of a broad band of French green with two red brown pin lines on each side of the green band. The decoration is put on under the glaze and is guaranteed to last as long as the china.

$1.98 DAISY GARLAND WHITE DAISIES GREEN FOLIAGE CHINA DINNER SET

Made of the finest quality pure white selected imported china decorated with a conventional border design which is coming more and more into favor. This decoration consists of small green leaves interwoven together to form a border relieved by white enameled daisies and faint garlands of lavender wreaths. The coloring has the softest tones of green. The white enameled daisies are very dainty, and the lavender wreaths are at first almost invisible but gradually stand out in great beauty. This enameled work, which is done by hand, is entirely new and has never before been put on sets that sell for less than $50.00. The body is made of the finest quality translucent German china, which is absolutely pure white in color, perfect in finish and brilliant in glaze. Each piece is light and thin and modeled in a handsome, attractive plain edge shape.

...75 "LOUIS XIV" WHITE AND GOLD CHINA DINNER SET

RICH YELLOW ROMAN GOLD EDGE. YELLOW MATTE GOLD HANDLES.

We take pleasure in offering our customers a white and gold dinner set, decorated in what is universally admitted to be the handsomest of all decorations. Each piece is decorated around the edges with an extra wide band of 14-karat yellow Roman gold, which follows carefully the outlines of each piece. In addition the handles are heavily traced with gold. The china itself is made by the famous Victoria Pottery in Austria and we have no hesitancy in saying that there is no better china made, either French or Austrian. It is especially translucent, perfectly modeled, light in weight, pure white in color with rich glaze. A Haviland set of this type would cost $75.00, and we guarantee that this is equal to any Haviland set.

THISTLE BORDER GREEN LEAVES AND RED BLOSSOMS, YELLOW ROMAN GOLD BAND EDGE DINNER SET $42.50

This attractive dinner set is made of the finest quality of genuine Haviland china and is decorated with a beautiful border design, consisting of delicate green thistle leaves and red blossoms. This is Haviland's new 1910 design and is one of the most striking designs that has ever originated. It is impossible to describe this soft, delicate coloring or how it harmonizes with the pure white of the ware. On the edge of each piece is a broad band of Roman gold (guaranteed first quality gold). The handles are heavily covered with solid gold. The plain shape which is used is one of Haviland's newest and is especially attractive at this time. The body is light, thin and pure white with a very even, smooth glaze.

Great Bargains in Guaranteed Quality Linoleum. SHOWN IN ACTUAL CO

SOLID BRASS EXTENSION HANGING LAMPS

ALL OF THE LIBRARY LAMPS ARE FITTED WITH 36-INCH EXTENSIONS which allow the lamp to be raised or lowered a distance of three feet. All the metal parts of our hanging lamps, the frames, ornaments, ceiling plates, collars, smoke bells, etc., are made of solid brass (not bronze metal, a composition made in imitation of brass, costing one-third what brass costs). Weights quoted are on lamps packed for shipment.

Webster's Monarch Dictionary, $4.84

2,500 ILLUSTRATIONS, 2,173 PAGES, NEW COLOR PLATES AND TABLES, PATENT THUMB INDEX CUT IN ON EDGE. 1911 EDITION.

Webster defines Monarch as follows: "Monarch: One superior to all others of the same kind." That definition fully describes Webster's Monarch Dictionary.

SPLENDID EDITION.

THE LATEST AND BEST dictionary at practically half what is asked for dictionaries of a similar character. It contains 2,173 pages. It defines 25,000 more words than are contained in any other Webster's Dictionary. Its system of capitalization, of indicating pronunciation and many minor details in dictionary making is admirable.

SPECIAL FEATURES: A modern gazetteer of the world. A dictionary of authors with the titles of their principal works. A dictionary of noted names in standard fiction, mythology, legend, etc. A dictionary of foreign words, phrases, noteworthy sayings and colloquial expressions. A pronouncing dictionary of Scriptural proper names and foreign words, with their meanings. A dictionary of abbreviations and contractions commonly used in writing and printing. A pronouncing dictionary of biography. Signs and symbols used in writing and printing. Values of standard foreign coins. A list of amended spellings. A department devoted to faulty diction (which no other Webster's ever contained), treating over 1,000 subjects, etc.

THOUSANDS OF ILLUSTRATIONS throughout the text. Full page color plates of the arms and flags of the states, territories, and foreign nations.

HANDSOMELY AND SUBSTANTIALLY BOUND in full law sheep, with flexible back which opens perfectly flat, with leather labels on back, and titles stamped in gold on side and back. It has a patent thumb index cut in on edge. Full marbled edges. Size, 9½x11½ inches, 4¾ inches thick. Shipping weight, 15 pounds. Postage extra, $1.20.

No. 3F6950 Price.....**$4.84**

DICTIONARY AND BOOK HOLDER.

Made from cold rolled steel; consequently is indestructible. Is adjustable to any height or angle. With revolving shelf, finished in bronze, nickel trimmings.

No. 3F4847 Modern Electrical Construction. By Horstman and Tousley. Shows the latest approved methods of installing work of all kinds. 248 pages. Illustrated with working diagrams. Flexible leather. Size, 4½x6¾ inches. Price..(Postage extra, 7c)..98c

No. 3F4275 Operator's Wireless Telegraph and Telephone Hand Book. A complete treatise on wireless apparatus, by Victor H. Laughter. Cloth. 210 pages. Fully illustrated. 5½x8 inches. Price 67c
Postage extra, 16 cents.

No. 3F4770 The Telegraph Instructor. By G. M. Dodge. 275 pages. Illustrated. Cloth. Size, 4¾x7 inches. Price.....(Postage extra, 7c).....63c

No. 3F4775 Modern American Telephone System in All Its Branches. By Frank H. Reed. Size, 4¾x6¾ inches. 400 pages. Full limp leather. Price.(Postage extra, 7c).$1.38

No. 3F4777 Electricians' Operating and Testing Manual. By Horstman and Tousley. Illustrated. 220 pages. Size, 4¼x6¼ inches. Full leather. Price.(Postage extra, 7c).98c

No. 3F4779 Electricity. By George L. Fowler. A condensed and reliable treatise giving full directions for the construction and operation of any kind of electrical apparatus. 205 pages. Size, 4½x5¾ in. Price 38c
Postage extra, 5 cents.

The Electrical Library.

By Prof. T. O'Conor Sloane. Cloth bound. Illustrated. Size, 5⅝x7⅝ inches.

No. 3F4800 Electricity Simplified. 172 pages. Price.....69c

No. 3F4801 Arithmetic of Electricity. On electrical calculations of all kinds. 165 pages. Price 69c

No. 3F4802 Electric Toy Making, Dynamo Building and Electric Motor Construction. 185 pages. Price.....69c

No. 3F4803 How to Become a Successful Electrician. 200 pages. Price.....69c

No. 3F4805 Electrical Library, four volumes. Price for the set.....$2.65
Postage extra, per volume, 8 cents.

ENGINEERING.

No. 3F4414 Engine Tests and Boiler Efficiencies. By J. Buchetti. Fully describes and illustrates the method of testing the power of steam engines, turbines, and explosive motors. Cloth. 255 pages. 179 illustrations. Size, 6x8¾ inches. Price....(Postage extra, 15 cents)...$2.25

No. 3F4416 American Stationary Engineering. By W. E. Crane. A plain talk on every-day work about engines, boilers and their accessories. Cloth. 285 pages. Illustrated. Size, 5¾x7¾ inches. Price.....$1.50
Postage extra, 13 cents.

No. 3F4418 Engineer's Arithmetic. By Colvin-Cheney. Shows how to work the problems of the engine room and shows why. 122 pages. Cloth back. Size, 4x6 inches. Price 38c
Postage extra, 3 cents.

No. 3F4420 Train Rules and Train Dispatching. By H. A. Dalby. Gives the standard rules and shows all the signals, with colors. Over 220 pages. Leather cover. Size, 4x6 inches. Price.....$1.12
Postage extra, 5 cents.

No. 3F4422 Boiler Construction. By Frank A. Kleinhaus. Shows all types of boilers used; gives details of construction; practical facts. 400 pages. Five large folding plates. Cloth. Size, 5¾x8 inches. Price $2.25
Postage extra, 16 cents.

No. 3F4424 Modern Steam Engineering. By Gardner D. Hiscox, M. E. A complete and up to date book for all stationary engineers. 487 pages. 42 tables. 405 illustrations. With nearly 200 questions and their answers on steam and electrical engineering. Cloth. Size, 6½x9½ inches. Price..(Postage extra, 24c)..$2.25

No. 3F4635 Engine Runners' Catechism. By Robert Grimshaw, M. E. For young engineers who are preparing to be examined for certificate of competency. 327 pages. Illustrated. Cloth. Size, 4¼x5¾ in. Price.$1.48
(Postage extra, 9c.)

No. 3F4640 Steam Engine Catechism. By Robert Grimshaw, M. E. A series of direct practical answers to direct practical questions with formulas and worked out answers. 413 pages. Illustrated. Cloth. Size, 4¼x5¾ inches. Price.....(Postage extra, 9c).....$1.48

No. 3F4530 Haswell's Mechanic's and Engineer's Pocket Book. Containing tables, rules and formulas pertaining to mechanics, mathematics and physics. Leather with flap. Size, 4½x6½ inches. Illustrated. 1050 pages. Gold edges. Price (postage extra, 12c)..$2.95

Our large free Special Book Catalog fully describes nearly 1,000 books on farming, fruit growing, stock raising, building, carpentry, architecture, painting, etc.

No. 3F4426 American Compound Locomotives. By Fred H. Colvin. How they are made and their breakdowns. Fully illustrated and ten special plates showing different types. Cloth. 142 pages. Size, 5½x8 in. Price $1.12
Postage extra, 11 cents.

No. 3F4428 Change Gear Devices. By Oscar E. Perrigo, M. E. A book for every designer, draftsman and mechanic interested in the invention and development of the devices for feed changes. Cloth. 88 pages. Size, 5½x8 inches. Price.....(Postage extra, 8 cents).....75c

No. 3F4673 Construction and Maintenance of Railway Roadbed and Track. By T. J. Prior. 570 pages. Illustrated. Flexible leather. Size, 4¾x6¾ inches. Price $1.43
Postage extra, 11 cents.

No. 3F4600 Steam Boilers. By Calvin F. Swingle. Various types and boiler troubles. Leather. Size, 5x6¾ in. 200 pages. Illustrated. Price.....(Postage extra, 12c).....98c

No. 3F4642 Operation of Trains and Station Work. By T. J. Prior. Size, 4¾x7 inches. 387 pages. Price $1.08
Postage extra, 8 cents.

No. 3F4693 Locomotive Engine Breakdowns and How to Run Them. By W. Wallace. Size, 4½x7 inches. 287 pages. Illustrated. Leather. Price $1.18
Postage extra, 9 cents.

No. 3F4257 The Calculation of Horse Power Made Easy. Simple, useful formulas. Size, 5x7½ inches. 80 pages. Illustrated. Cloth. Price.....(Postage extra, 6c).....47c

No. 3F4259 Walschaert Valve Gear Breakdowns and How to Adjust Them. Cloth. 240 pages. Illustrated. Size, 4½x6½ inches. Price.....(Postage extra, 7c).....69c

No. 3F4261 Practical Mechanical Drawing and Machine Design Self Taught. 160 double pages. Illustrated. Size, 7½x9¼ inches. Cloth. Price $1.58
Postage extra, 12c.

No. 3F4263 Locomotive Fireman's Boiler Instructor. 436 pages. Illustrated. Leather. Size, 4½x6¾ inches. Price.....(Postage extra, 8c).....98c

No. 3F4698 Complete Examination Questions and Answers for Marine and Stationary Engineers. By Calvin F. Swingle, M. E. 367 pages. Illustrated. Size, 4¼x7 inches. Bound in leather. Price, (Postage extra, 7c) 97c

No. 3F4630 Farm Engines and How to Run Them. 215 pages. Illustrated. Cloth. Size, 5¼x8 in. Price..(Postage extra, 9c)..59c

No. 3F4636 The Steam Turbine; Its Care, Management and Operation. By Calvin F. Swingle. Size, 4½x6¾ inches. 192 pages. Cloth. Illustrated. Price.....(Postage extra, 8c).....69c

No. 3F4650 Young Engineers' Own Book. By Roper. 363 pages. Bound in leather with flap, gold edges. Size, 4½x6 in. Price $1.50
Postage extra, 6 cents.

No. 3F4620 Engineers' New Handy Book for Steam Engineers and Electricians. By Roper. The running of stationary, locomotive, marine, gas and gasoline engines, also chapters on electricity with questions and answers. 900 pages. Illustrated. 222 tables. Bound in leather, gold edges. Size, 4¾x6¾ inches. Price.....(Postage extra, 11c).....$2.08

No. 3F4655 New Catechism for Steam Engineers and Electricians. By Roper. Adapted for preparation to pass the examinations for licenses. 357 pages. Illustrated. Leather with flap, gold edges. Size, 4½x6 inches. Price.....(Postage extra, 6c).....$1.20

No. 3F4639 Swingle's Catechism of Steam, Gas and Electric Engines. By Calvin A. Swingle. Covering all details relative to their construction, care and operation. 300 pages. Size, 4¾x6¾ inches. Limp leather. Price.....(Postage extra, 15c).....98c

No. 3F4694 Air Brake Catechism. By Robert H. Blackall. 2,000 questions with their answers. 380 pages. Fully illustrated, folding plates. Cloth. Size, 5¼x7¼ in. Price.$1.50
If mail shipment, postage extra, 12 cents.

No. 3F4690 Modern Air Brake Practice. By Frank H. Dukesmith. 301 pages. Cloth. Illustrated. Size, 5¾x8 in. Price $1.05
Postage extra, 12c.

No. 3F4450 The Walschaert Locomotive Valve Gear. By Wm. W. Wood. 200 pages. Illustrated. Cloth. Size, 5¼x7½ in. Price....$1.12
Postage extra, 10 cents.

No. 3F4683 Locomotive Catechism. By Robert Grimshaw. On the construction and management of modern locomotives. 4,000 examination questions with their answers. 437 illustrations and 3 folding plates. 825 pages. Cloth. Size, 5¼x7¼ inches. Price....$1.85
If mail shipment, postage extra, 14 cents.

No. 3F4685 Locomotive Breakdowns and Their Remedies. By Geo. L. Fowler, revised by Wm. W. Wood. Fully illustrated. Folding plates. Over 800 questions and their answers. 270 pages. Cloth. Size, 5¼x7¼ in. Price....(Postage extra, 8 cents).....75c

MOTOR POWER SERIES.

Fully illustrated. Size, 5¾x7¾ inches.

No. 3F4825 Automobile Motors and Mechanism. By Thomas H. Russell, M. E., LL. B. 254 pages.

No. 3F4827 Automobile Troubles and How to Remedy Them. By Charles P. Root, former editor of Motor Age. 219 pages.

No. 3F4829 A B C of the Motorcycle. By J. W. Jackman, M. E. Care and management of the motorcycle. 250 pages. Price, each..(Postage extra, each, 11c)..89c

No. 3F4852 Brook's Automobile Handbook. Tells all about the automobile. 479 pages. Size, 4¾x6¾ inches. Leather. Illustrated. Price...(Postage extra, 8c)...98c

No. 3F4835 Vehicles of the Air. Authentic, complete and up to date. Fully illustrated, including working drawings of machinery and parts. History of 1,000 flights. With this book, anyone of ordinary mechanical ability and with very little money can build and operate a machine of known flying capabilities. 550 pages. Cloth. Size, 5¾x9 inches. Price $2.23
Postage extra, 25c.

No. 3F4570 Gas, Gasoline and Oil Engines. By Gardner D. Hiscox, M. E. Treats fully the construction, installation, operation and maintenance of gas, gasoline, kerosene and crude petroleum engines. Cloth. 450 pages. Illustrated. Size, 6x9 inches. Price.....(Postage extra, 18c).....$1.69

No. 3F4580 Practical Up to Date Plumbing. By George B. Clow. Size, 6x8 inches. 264 pages. Illustrated. Price..95c
If mail shipment, postage extra, 14 cents.

No. 3F4585 Hot Water Heating, Steam and Gas Fitting. By Wm. Donaldson. Cloth. Size, 6x8 inches. 244 pages. Illustrated. Price....(Postage extra, 12 cents)....95c

No. 3F4534 Plumbers' Handy Manual. By John W. Johnson. A manual for plumbers, steamfitters, architects, engineers, and gasfitters. Cloth. Size, 4¼x6¾ inches. 203 pages. Illustrated. Price..(Postage extra, 4c)..68c

MECHANICS.

No. 3F4430 Machine Shop Arithmetic. By Colvin-Cheney. Contains all sorts of machine shop figuring and 1,000 other things. Cloth. 131 pages. Size, 4x5¾ inches. Price.....(Postage extra, 3c).....38c

No. 3F4432 Saw Filing and Management of Saws. By Robert Grimshaw. 93 pages. Cloth. Illustrated. Size, 4x6¼ inches. Price.....75c
Postage extra, 5 cents.

No. 3F4553 Modern Milling Machines. By Joseph G. Horner, A. M. I., M. E. 300 illustrations. 304 pages. Cloth. Size, 6x9 in. Price....$3.00
If mail shipment, postage extra, 20 cents.

No. 3F4434 Inventor's Manual. Tells how to make a patent pay. A guide to inventors in perfecting their inventions, taking out their patents, and disposing of them. 115 pages. Cloth. Size, 5x6¾ in. Price....75c
Postage extra, 5 cents.

No. 3F4436 Henley's Twentieth Century Book of Recipes, Formulas and processes. Edited by Gardner D. Hiscox, M. E. Contains over 10,000 selected scientific, chemical, technological and practical recipes and processes, including hundreds of so called trade secrets for every business. 800 pages. Cloth. Size, 6x9½ inches. Price (postage extra, 28c)..$2.25

No. 3F4508 Mechanical Movements, Powers and Devices. By Gardner D. Hiscox, M. E. 1,800 illustrations. 400 pages. Cloth. Size, 6¼x9¼ inches. Price..(Postage extra, 23 cents)....$1.85

No. 3F4510 Mechanical Appliances and Novelties of Construction. By Gardner D. Hiscox, M. E. 400 pages. 1,000 illustrations. Cloth. Size, 6¼x9¼ inches. Price...$1.85
If mail shipment, postage extra, 23 cents.

No. 3F4540 Modern Machine Shop Construction Equipment and Management. By Oscar E. Perrigo, M. E. 400 pages. Over 200 illustrations. Cloth. Size, 7¾x10½ in. Price.....(Postage extra, 25c)....$3.75

No. 3F4442 The Modern Machinist. By John T. Usher. All that is best and most advanced in modern machine shop practice. 320 pages. 250 illustrations. Cloth. Size, 5½x8 inches. Price...(Postage extra, 13c)...$1.85

No. 3F4514 Practical Pattern Making. By F. W. Barrows. In wood and metal, with necessary materials. 326 pages. 150 illustrations. Cloth. Size, 5¼x7½ inches. Price.....(Postage extra, 11c).....$1.50

No. 3F4444 Chemistry of Gas Manufacture. By Harold M. Royle, F. C. S. 328 pages. Cloth. Size, 6x8¾ inches. Price.....(Postage extra, 19c).....$3.35

No. 3F4560 Steam Pipes; Their Design and Construction. By Wm. H. Booth, M. E. 187 pages. Illustrated. Cloth. Size, 6x8¾ inches. Price...(Postage extra, 14c)...$1.50

No. 3F4505 Machine Design. By J. G. A. Meyer. Cloth. 100 pages. Illustrated. Size, 5x7½ inches. Price.....38c
If mail shipment, postage extra, 6 cents.

No. 3F4637 Practical Hand Book for Millwrights. By Calvin F. Swingle, M. E. 300 pages. Cloth. Size, 5½x7½ inches. Price.....(Postage extra, 14c).....$1.23

No. 3F4537 Sheet Metal Workers' Guide. With tables, etc. Cloth. 300 pages. Illustrated. Size, 6x8 inches. Price.....$1.48
If mail shipment, postage extra, 14 cents.

THE PRACTICAL FAMILY DOCTOR $1.45

A 20TH CENTURY HOUSEHOLD MEDICAL GUIDE.

The largest and most complete Medical Adviser ever published. Strictly up to date, 1,157 pages. 20 color plates.

A DOCTOR ALWAYS IN THE HOUSE, ready to be consulted at any time when sudden sickness or accidents render immediate relief necessary. While we recommend that in every case of sickness you send at once for your family doctor, yet there are times when he cannot be reached quickly and at such times our Family Doctor Book will furnish you with the medical knowledge that may save much suffering, or even a life. The result of the lifetime labor and study of the most noted medical writers.

NO HOME SHOULD BE WITHOUT ITS PRICELESS ADVICE. It explains everything in plain home talk fashion, yet in the most delicate terms, inoffensive to the most sensitive person. The wonderful science of medicine and surgery is bared to the reader of this grand volume. In its medical department this work treats in a sensible way the **Household Management of Disease.** This work gives the history, cause, means of prevention and symptoms of every known disease and the most approved methods of treatment with plain instructions for the care of the sick. Full directions for treating wounds, injuries, poisoning, etc.

COMPLETE LIST OF MEDICINES, telling what each is good for and how much of each to take for a dose. The prescriptions are all written in plain English, so they can be copied and filled without the aid of a doctor.

SPECIAL INFORMATION and consideration is given to constitutional diseases, which include scarlet fever, typhoid fever, smallpox, chicken pox, diphtheria, measles, tonsilitis, tuberculosis, appendicitis, rheumatism, etc.

DISEASES OF WOMEN. More than 200 pages are devoted to this important subject alone. Both the cause and the treatment of diseases are taken up, together with their symptoms. The birth of children and its allied subjects, including the care of the mother before and after birth, are fully and accurately treated.

DISEASES OF CHILDREN have been gone into very thoroughly. The subjects covered include indigestion, disorders of the bowels, diarrhea, summer complaints, constipation, croup, influenza, convulsions. A careful study of this chapter will enable the mother to ward off many of the diseases common to children.

BEAUTIFULLY ILLUSTRATED WITH COLOR PLATES containing two lithograph manikins, one of the body and one of the head, in layers to dissect, showing all the organs in their proper positions and colors, worth $1.00 each. Also a chart of the blood vessels and a skeleton chart. Colored plates of 64 medicinal plants, together with descriptions and directions for use. Bound in either full sheep with blind side stamp and gold back title or in buckram with photographic inlay. 1,157 pages. Size, 7x9½ inches, 2½ inches thick. Weight, 5 pounds.

No. 3F7550 Bound in buckram. Regular subscription price, $4.50. Our price.**$1.45**
No. 3F7555 Bound in full sheep. Regular subscription price, $6.00. Our price. **2.18**

THE ORIGIN OF LIFE AND PROCESS OF REPRODUCTION.

THIS $1.50 EDITION MRS. RORER'S COOK BOOK FOR 79c

This is the world famous cook book written by Mrs. Sarah T. Rorer. Thousands of these cook books have been sold at $1.50. This is the regular genuine $1.50 edition that we are offering you for 79 cents. In this book the recipes, although complete, are written so plainly that the beginner may successfully make, with few exceptions, any dish which it contains. All of the recipes have been tested over and over again by Mrs. Rorer and other noted authorities on the subject of cooking. This book has been adopted by many cooking schools throughout the country. Do not think that because this is a high grade cook book the recipes given in it are expensive. There are recipes for all times and all tastes and the majority of them are capable of being carried out at very low cost. They are chiefly medium priced, inexpensive recipes of good wholesome dishes, such as the majority of the people want. In addition to the cooking recipes there are chapters on ice creams, jellies, candies, fruits, canning and preserving, giving lists of the necessities for the kitchen and pantry, tables of weights and measures with a complete index to the book so that any desired recipe may be easily located. 581 pages. Bound in waterproof cloth, so that when soiled it will bear repeated cleansing. Size, 5¾x7½ inches. Retail price, $1.50.

COMPARE THE QUALITY — **FURNITURE** — COMPARE THE PRICE

ONE HUNDRED FURNITURE FACTORIES. The immense quantity of furniture we sell and the steadily increasing volume of business has enabled us to take almost the entire output of more than one hundred furniture factories, the largest and most favorably known and best makers of reliable, dependable furniture. In most cases we have a factory located near your town, which means a very small freight charge and hence a saving to you which should be considered in making your selection and comparing our furniture with that offered by any other dealer.

QUALITY. The dependable quality of our furniture is so firmly established that we ask you to order any article you may select, place it beside any other article of same design at anywhere near our price and if you do not find the article you purchase from us better made, better finished and worth from 25 to 40 per cent more than the other, you may return it to us and we will return the purchase price, together with the transportation charges.

IF YOU PAY MORE than our price for furniture similar in design and equal in quality, the additional amount represents the profits you are giving to the jobber, commission salesman and retail merchant through whose hands it has passed.

STRICTLY RELIABLE IN QUALITY

No. 1F21 Price, each, 98c

If every customer knew the quality of these wood seat chairs as we know it there would not be the slightest chance for any dealer to sell him an inferior quality at a much higher price. They are built to stand the constant daily use. You will be immensely pleased with the quality long after you have forgotten the very low price you pay us for this excellent chair. We made the illustration large so that you can get a better idea of the big value we offer and how nearly the cost of material and labor in this chair must represent the price we ask.

SPECIAL FEATURES. The wood is thoroughly seasoned Northern elm in the popular golden oak high gloss finish. THE BACK has broad beautifully designed top and lower panel with seven smooth turned spindles. Height of back from seat, 24 inches; entire height of chair, 41 inches. SEAT wide and comfortable, size 16x16 inches, made of three-ply built-up veneer stock with layers placed transversely, the best improved method of wood seat construction. Back posts attached to seat and reinforced with braces. Securely packed and shipped from Chicago. Shipping weight, each, about 10 pounds.

LET US SAVE YOU MONEY

OUR PRICE, ONLY **$1.28**

A REGULAR **$2.00** CHAIR ELSEWHERE

STRONG RIGID CONSTRUCTION.

No. 1F30 Price, each, $1.28

Never before have we offered a better value than this wood seat Dining Chair. The quality is unquestioned, the style speaks for itself. Our price saves you at least $4.00. We would like to show you the thoroughly seasoned wood and the workmanlike manner in which every part is made. We want you to notice carefully every detail of the design, the shape of the back panels, the posts, the size of the seat; a fine standard size chair. Every necessary item of cost embodied in its construction. The posts, legs, seats and cross stretchers cut from stock of ample size to insure positive strength and the most durable wearing qualities.

SPECIAL FEATURES. Made of seasoned Northern elm, high gloss golden oak finish. CURVED SHAPED BACK with beautifully handsomely decorated panels. Wide center panel and fancy shaped lower panel. SEAT made of three-ply built-up veneer stock, laid transversely, insures the greatest strength and can't break or split. Size seat, 17½x17½ inches. BACK POSTS fancy turned, securely braced to seat. Height of back, 22 inches; entire height, 40 inches. BACK constructed of heavy stock, turned front posts and cross stretchers. Securely packed and shipped from Chicago. Shipping weight, each, about 11 pounds.

FOR THIS SOLID OAK UPHOLSTERED BOX GENUINE LEATHER SEAT DINING CHAIR

Quality for Quality, These Splendid Solid Oak Leather Covered Box Seat Dining Chairs Are the Equal of Those Generally Sold by Others at $3.00 Each.

No. 1F100

ORDER BY NUMBER

THIS SPLENDID BOX SEAT DINING CHAIR is made of selected oak with quarter sawed oak back, finished in a rich golden gloss finish, upholstered with genuine No. 1 leather for $1.75 each, a price never before attempted and only made possible by our having contracted with one of the largest box seat chair factories in the country for 10,000 chairs at the actual cost of material and labor, and we are giving you the benefit of this purchase, enabling you to buy a strictly up to date first class box seat diner at a lower price than it costs most factories to manufacture. Remember, this is not a cheaply constructed chair, but honestly made of best selected oak and has full size seat and back.

THE SEATS are full size and upholstered with genuine leather, fitted perfec seat frame and trimmed with black enameled tacks. Most box s sold by others at higher prices are under size and have very small leather seats. **THE LEGS.** The handsomely shaped legs are cut out of selected stock, mor doweled to seat frame and are firmly braced by the square stret **YOU CANNOT AFFORD** to place your order elsewhere if you are consi purchase of a set of box seat dining chairs. from Chicago. WE WANT YOU TO READ WHAT WE SAY ABOUT THESE CHAIRS and fully appreciate the **wonderful value we offer in this genuine leather box seat quartered oak dining chair.** In no retail store or other channel of trade will you find a chair the equal in beauty of design, high quality of material and workmanship for less than $3.50 each. Made of the best thoroughly seasoned material by one of the best known makers of high grade dining chairs, it will stand the closest inspection and the test of time. In every detail of workmanship you will find it **strictly dependable.** It is one of the most popular designs ever made. High back with broad fancy shaped center and top panels; deep wide seat, strong back posts and full French shaped legs with carved claw feet. The extra large full box seat is upholstered in **genuine No. 1 leather** in black color. It is finished in the popular golden color, which shows the wood grain to the best advantage. This chair will last a lifetime and always be comfortable and durable, and during years of service will ever be an ornamental addition to the best well furnished dining room. **We can only prove the wonderful value we offer in this high grade dining chair in one way:** Send us your order for a set of them. When you receive them, examine them closely, and compare them with any similar chair offered by others. If you do not find them all we claim, if they do not come fully up to your expectations in every way, we insist that you return them to us and your money will be returned together with all cost of transportation and handling.

SPECIAL FEATURES. THE WOOD is carefully selected thoroughly seasoned oak. **THE FINISH** is the popular high gloss golden color. **THE HIGH BACKS** have broad symmetrically shaped tops and center panels, ho quarter sawed oak. **THE SEATS** are deep and wide, size 16x17 inches, have ro black leather. **BA** and full box rims. $2.10 EACH

A BETTER LEATHER COVERED BOX SEAT DINING CHAIR THAN IS GENERALLY OFFERED BY OTHERS AT $3.35 EACH.

IF WE COULD SHOW YOU THESE LEATHER BOX SEAT DINING CHAIRS

on our sample floor you would quickly recognize the wonderful values we offer at $2.10 each. They are made of better material, and better constructed and better finished than any leather box seat dining room chairs you can buy in any retail store or from any other dealer for less than $3.35. In design they are exceptionally attractive and one of the most popular box seat dining chairs ever made. **The wood** is selected thoroughly seasoned oak, high gloss golden finish. The **backs** are extra high and broad with shaped top panel and fancy shaped center panel, both made of handsomely figured quarter sawed oak. The seats are deep and wide and the backs have strong continuous posts. The shaped front legs have carved claw feet and full box seat is upholstered in genuine No. 1 black leather. Built on every other dining chair in our line. **We contract** direct with the manufacturer for the quantity of these chairs at a price far below the regular price to the average dealer. There is a reason for our low price for this leather box seat dining chair, as we cut out middlemen's profits. The price we pay is the actual factory cost, to which we add a very small margin of profit.

HIGHEST QUALITY LOWEST IN PRICE

REED CHAIRS AND ROCKERS

FOR DAILY YEAR AFTER

HOW THEY ARE MADE. The best quality imported reed is used. The frames are seasoned Northern hardwood. The stock of ample size to insure perfect strength. The posts and cross stretchers carefully fitted, securely fastened, solid, strong and rigid. The imported reeds are tough, flexible fibers and will not break or split. They are closely woven by hand by the best skilled workmen. They are finished in natural light color or in light brown color with a heavy coat of shellac over two coats of filler, as mentioned in the description of each piece.

ABOUT THE PRICE. First of all, we absolutely guarantee quality. By method of merchandising we make you a large price. One dollar does the work of one dollar and a half, because the price is based on the actual manufacturing cost with all the profits and expenses of dlemen cut out. If every customer knew the quality of our reed furniture it, there would not be the slightest chance for any other dealer to sell him quality at a much higher price. All reed chairs and rockers shipped from Chicago

No. 1F6401 Price, $3.85

MISSION FURNITURE

We would like to show every customer interested in Mission furniture [illegible] splendid values on our sample floor. We would like to show you [illegible] thoroughly seasoned, carefully selected wood, the smoothly sanded [illegible]ces and the reliable and workmanlike manner in which every piece is [illegible] throughout. This style of furniture has become immensely popu[illegible] and you will find it highly recommended by all prominent architects [illegible] well as by the Arts and Crafts Societies.

We would like to call your special attention to the **weathered finish** used on these pieces which is obtained by special treatment and the use of preservative stains, producing a rich dark brown effect which will not scratch or mar readily, and does not become blurred or dull by change of temperature. **You will be proud of the quality** long after the **exceedingly low price** is forgotten, for every piece shown on this page will make a splendid addition to the modern well furnished home.

THIS THREE-PIECE SUITE, ONLY $8.95

A BIG VALUE.

[illegible] of seasoned solid [illegible] weathered finish. The [illegible] carefully selected and [illegible] made in a strictly [illegible] and dependable [illegible]. Each piece has a [illegible] frame with seats [illegible] and joined to [illegible] posts, making the [illegible], most durable con[illegible]. THE ARM [illegible] AND ROCKER have [illegible] comfortable arms, [illegible] high paneled backs, [illegible] inches, and roomy [illegible] 18x20 inches, up[illegible] in good quality [illegible] leather, brown col[illegible]. THE TABLE has a [illegible] top with full box [illegible] ends, and a [illegible] shelf. Conven[illegible] drawer in center.

A special feature of each of these pieces is the knock-down construction. The chair seats and table legs are securely fastened at the corners by thumb bolts and can be easily put together by anyone without the use of tools. This method of construction is exceptionally strong and durable and permits the shipping in a small package and reduces the freight charges almost one-half; at the same time the liability to damage in handling is practically removed.

We challenge the most critical comparison of this splendid three-piece suite with any other suite offered by other dealers. Shipped from Chicago. Shipping weight, about 120 pounds.

No. 1F363 Price, Three Pieces **$8.95**

LOOK AT THIS FOUR-PIECE SUITE

A VERY POPULAR STYLE.

[illegible] is the first consideration in Mission furniture. Each piece of this Mission Library [illegible] will find strictly dependable in quality. In fact, you will find every detail of con[illegible] fully up to the standard of the best makers of Mission furniture. Frames made [illegible] oak with the popular hand rubbed weathered finish which is a rich deep brown color, [illegible] with all surroundings.

[illegible] is 45 inches long, has full box frame removable spring seat, size 38x17 inches. It [illegible] inches high from the floor. Front posts are cut from 1x2-inch stock and the arms [illegible] and comfortable, measuring 3½ inches across the front. Is upholstered in a good [illegible] of imitation leather, brown color, or in Spanish leather, brown color. THE ROCKER [illegible] CHAIR are generous in size and exceptionally comfortable. Height from floor to [illegible] 35 inches. The full box frame removable spring seats are 20 inches wide between [illegible] and 17½ inches deep. Covered with good quality of imitation leather, brown color, [illegible] Spanish leather in brown color. Extra wide arms, 3½ inches across the front. [illegible] LIBRARY TABLE is 36 inches long and 24 inches wide. It has a wide box rim 3½ inches [illegible] legs are 1¾ inches square, cut from the same size stock as the chairs and are fast[illegible] top with metal thumbscrews on the inner side. Broad lower shelf and roomy drawer.

We call your special attention to the best modern knockdown construction used in these four pieces, each piece made in four sections, consisting of back, seat and two sides. Fastened together at the corners with heavy thumb bolts from the inner side and can be quickly put together by anyone. The table consists of a top section, two end sections and a lower shelf. The legs are fastened to the top by thumb bolts from the inner side. This style of construction is without exception the strongest and most durable made and permits shipment in a small package and insures safe delivery by the transportation company.

You will find it the best value ever offered by any firm. Securely packed and shipped from Chicago.

Morris Chairs and Rocke

SOLID COMFORT — BIG MONEY SAVING VALU

No Home Is Complete

Without a Morris chair or a Morris rocker. The roomy seat, broad high reclining back and wide arms make the ideal chair for genuine comfort. There is a big difference in the upholstery and frame construction of Morris chairs and Morris rockers, and it is this difference in the design, material and construction of our Morris chairs and Morris rockers that counts in the years of satisfactory service.

Our Morris Chairs and Rockers

Are adapted for use in the parlor, living room or library. They embody the latest and best ideas in style and construction.

How They Are Made.

The frames are made of heavy stock, the wood thoroughly seasoned. They are mortised, glued and fastened in the best dependable and workmanlike manner, which insures a substantial and lasting wearing quality. Surfaces are sanded smooth, the carvings carefully cut, and the wood filler and varnish are of the high standard of quality that insures a clear color and finish that does not become dull with age. **The springs** are one of the most essential parts. The seat of each piece is made with the best guaranteed indestructible high carbon steel springs, securely fastened at the top and attached to steel cross supports at the bottom.

The Reclining Adjustable Back

Has the best ratchet attachment for rai lowering the back to every comfortable p The cushions are made with a full wid accurately cut and firmly stitched, which in uniformity of thickness, softness and el and improves the appearance and preser shape. The covering materials you will much better quality than is used by the dealer, selected for splendid wearing q and attractive appearance. Fully descr page 600.

What We Save You.

You will make a clear saving of at least one-third style for style and quality for quality, with any Morris Morris rockers offered by other dealers. We save m middlemen's profits.

Look at This Big Bargain

This Peerless Reclining Rocker

ONLY $6.35

is the most popular, comfortable and most reclining chairs. Its frame is made of seasoned hardwood, imitation quartered oak, golden finish. Shape of this reclining chair is carved in the attractive manner as chairs and rockers are. A strong, substantial frame construction that will give years of service. It has a spring back upholstered in quality velour, or in perfect imitation genuine leather); with a fine quality fiber and clean cotton. The seat is on the platform heavy steel rods in such that it gives a smooth swinging motion. The back is adjusted to several different angles by a strong rod and ratchet attachment. The arms are shown extended in illustration; when not in use can be folded or pushed back out of sight and does not in any way interfere with the use of the chair. This combination makes the most comfortable reclining chair and is indispensable in a lounging chair. This reclining chair should be compared with those offered at $9.00 to $10.00. Shipped securely crated from our factory in Western Michigan. Shipping weight, 70 pounds.

Look! This Davis Automatic Morris Chair

FOR $11.95

Instantly adjusted automatically to any position without moving from the chair. In simplicity of operation and genuine comfort it cannot be excelled. The spring device beneath the seat allows it to slide backward and forward easily without the slightest jar or noise, no rods or ratchets being used in its construction. The frame is made of thoroughly seasoned quarter sawed oak, golden finish, highly polished. Every post and bar, joint and tenon perfectly framed and fitted; the best that skilled workmanship can produce. The deep, broad, roomy seat is 21½ inches wide by 23 inches deep, supported by high carbon Bessemer steel coil springs. The shapely curved, deep hand tufted back is 29 inches high by 21½ inches wide and can be adjusted to any reclining position with the automatic attachment, by a slight pressure on the back and without moving from the chair. A special feature is the upholstered foot rest which slides beneath and behind the upholstered hinged box front of the seat. Spanish fiber and cotton filling, covered in velour, dark green or dark red color, fabricord in black color or genuine No. 1 black leather, as desired. Shipped from Chicago. Shipping weight, about 80 pounds.

STRICTLY DEPENDABLE IN QUALITY

KITCHEN CUPBOARDS

A BIG SAVING IN PRICE

COMPARE THE QUALITY—COMPARE THE PRICE

OUR KITCHEN CUPBOARDS

Whether you want the plain kitchen safe or the large roomy cupboard, you can be suited by a selection from this page. We have been able to constantly improve the quality and reduce the price. We are able to furnish our customers greater values than were ever offered before, much better goods than can be secured from other dealers and all at prices from one-third to one-half less than goods of equal quality sold in regular furniture stores. You will find every kitchen cupboard we furnish to be made of better material, better constructed and fitted, better finished, more lasting and in every way more satisfactory than those made by the average factory and sold by the average dealer.

THE WOOD in every cupboard is thoroughly seasoned, and will not warp nor shrink. The doors, drawers, panels and other parts are carefully framed and fitted by skilled workmen and the best modern machinery.

1112 Dusal Street, W. Jacksonville, Fla.

Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—The kitchen cupboard ordered from you cost me $11.35 ($9.75 for the cupboard, $1.60 freight), and I could not purchase same in Jacksonville for less than $20.00. Just think what my saving was to order from Sears, Roebuck and Co. on one article! Sincerely,

MRS. D. D. McINTOSH.

No. 1F501 **This Kitchen Safe is made of thoroughly seasoned Northern hardwood, high gloss golden finish.** Height, 60 inches; width, 32 inches; depth, 16 inches, outside measurements. The double doors have perforated tin panels, below which is a convenient drawer. Inside has removable shelf. Made with the best knockdown construction, allowing it to be packed securely in a small flat package to insure safe delivery and the lowest possible freight charges. You will find every kitchen cupboard on this page better in material, workmanship and finish than similar cupboards generally offered by others at one-third to one-half more than the price we ask. Shipped from factory in Indiana. Shipping weight, 100 pounds.

THE HIGHEST QUALITY

KITCHEN CABINETS

WORK IN THE KITCHEN MADE EASY

BEST DESIGNS, STRICTLY HIGH GRADE IN MATERIAL, CONSTRUCTION AND FINISH. BETTER IN QUALITY AND LOWER IN PRICE THAN CAN BE BOUGHT ELSEWHERE. WE CHALLENGE ANY FIRM ON EARTH TO FURNISH KITCHEN CABINETS EQUAL TO OURS IN QUALITY AT THE PRICES WE ASK.

One of Our Kitchen Cabinets is for the woman and the kitchen what modern machinery and labor saving devices do for the bread winners of the family.

THE KITCHEN CABINET! The kitchen is the workshop of the home. The work of the kitchen rightly understood and properly done is the most important of the entire household. System in the kitchen and the factory is a very valuable thing. Why is it not valuable in the kitchen? The housewife, without the help of a cabinet with the cooking utensils and supplies within easy reach, takes ten steps where one should suffice. The hours of drudgery turned into minutes of pleasure with the help of one of our kitchen cabinets. Our cabinet does for the woman and her kitchen what modern machinery and labor saving devices do for the bread winners of the family. Our kitchen cabinet holds, in a convenient practical way, all the materials and utensils for cooking. Any one of these cabinets is in fact a whole kitchen, occupying the space of a kitchen table, making the cookery sanitary and economical, **insuring the** best results. **Every workman does better work with tools than with poor ones.**

MATERIAL used in the construction of our kitchen cabinets is **thoroughly seasoned and kiln dried** hardwood, except the platform of the bins is made of white wood for ease in cleaning. We absolutely guarantee every cabinet against cracking, checking or shrinking. We use only the best quality of lumber. Every piece of lumber is carefully selected and thoroughly kiln dried, and is entirely free from all defects.

CONSTRUCTION. The doors are **perfectly fitted** and slide run smoothly without any sticking. The same high grade workmanship is used in the lowest priced as in the highest priced cabinets. The bins and drawers are so constructed that they can be easily taken out and replaced. This is not the case with most cabinets made by other manufacturers. Each bin is fitted with one or two sliding removable kneading and chopping boards, both sides of which can be taken out and used, which is invaluable for convenience in using.

$9.95 FOR THIS KITCHEN CABINET

A Regular $14.00 Value.

THE ARTICLES DISPLAYED ARE NOT INCLUDED WITH THE CABINET.

No. 1F520 Price, $9.95

THE MORE YOU COMPARE THE STYLE, THE QUALITY and the PRICE of this Kitchen Cabinet the better we shall be pleased. Made of seasoned hardwood, grained and finished in a perfect imitation of plain oak, high gloss golden color. Entire height of cabinet, 60 inches. **THE BASE** has a white wood top with molded edges, **size 25x48** inches. It has a large dustproof flour bin holding 50 pounds of flour, above which are two drawers for cutlery, and a convenient sugar bin. Note the roomy cupboard for pots and pans and the two linen drawers above. Fitted with one kneading and one chopping board, finished on both sides, and can be removed and placed on the top for convenience in using. **THE TOP SECTION** combines excellence and beauty of design with a convenient and practical arrangement which cannot be excelled. Cupboards and drawers affording ample space for dishes, spice cans, coffee and tea canisters and a variety of packages and commodities within easy reach of the busy housewife. **Shipped from factory in Michigan or Wisconsin.** Shipping weight, 205 pounds.

If every customer knew the high quality of our Kitchen Cabinets as we know it, and thousands of customers who have bought them, there would not be the slightest chance for any other dealer to sell him a cabinet of inferior quality at a much higher price.

THE BASE OF OUR KITCHEN CABINETS without the top section makes a **highly satisfactory, convenient and useful cabinet by itself.** The flour, sugar and meal bins, the linen and cutlery drawers, pot and pan cupboards, and the removable kneading and chopping board, together with the roomy basswood top, will be fully appreciated by every housekeeper.

THE FINISH. All wood is full of small pores and, though thoroughly seasoned and kiln dried, will absorb moisture if not properly finished. In each of our Kitchen Cabinets special care is used to fill these pores with the best quality of mineral wood filler, which closes the pores of the wood and prevents absorption of moisture. Over this wood filler several coatings of the best high grade varnish are used. It is a beautiful color and will resist the change in temperature and steam in the kitchen.

THE TRIMMINGS. The handles and knobs used on our Kitchen Cabinets are French lacquered to prevent tarnishing. The hinges, fasteners, locks and knobs are strong, reliable and durable.

THE PACKING. Every Kitchen Cabinet is firmly and securely crated for shipment. A special feature of our Kitchen Cabinets which have legs is that they are so constructed that the lower part of the legs can be removed and placed inside the cabinet for convenience in packing and can be easily put on by anyone. This feature is not found in any cabinets of other manufacturers. This method of construction insures safe handling and a much lower freight rate by the transportation company. We absolutely guarantee every cabinet to arrive at your home in the same perfect condition in which it leaves the factory.

Well Made, High Grade.

No. 1F513 Price, $2.95

Compact, Capacious and Convenient

THE WILSON KITCHEN CABINETS

Sanitary Cleanable Durable

The Finest Kitchen Cabinets Made, Regardless of Name, Make or Price.

We Can Prove the superiority of our Wilson Kitchen Cabinets by inviting a comparison of these cabinets with any other cabinets, regardless of name, make or price. We have made a close and careful study of the manufacture of kitchen cabinets for many years; we are familiar with the product of every well known manufacturer of kitchen cabinets in the United States and do not hesitate to make the statement, which is backed up by our guarantee, that the Wilson Kitchen Cabinets haven't their equal in selection of material, detail of construction and finish, and if sold through the regular channels of trade, would retail at double the prices we ask.

Seeing is Believing. Illustrations and technical descriptions would make any other cabinets appear equal to the Wilson Cabinets, but most anyone without the slightest question of what should constitute the highest grade cabinet, would immediately recognize the superiority of the Wilson cabinets when placed side by side with any other cabinets, regardless of name, make or price. Our sales aggregate eighteen thousand cabinets per year and this great volume of business has been built up through the exceptional value that we give, from our cheapest maple cabinet selling at $2.95 to our best Wilson cabinet quoted on next page at $22.85. We guarantee to have it reach you in perfect condition, as no expense is spared in the packing to insure safe delivery. Every cabinet is most carefully crated in a substantial crate, which will protect the construction and finish, even if the cabinets are transferred thousands of miles.

The Satin Walnut used in the construction of these splendid kitchen cabinets is a thoroughly air seasoned and kiln dried Northern hardwood, specially adapted to kitchen cabinet construction, possessing perfect strength, solidity and a beautiful grain. The so called "satin walnut finish," offered by many other dealers, is but a poor imitation of the genuine satin walnut used in our Wilson Kitchen Cabinets. It is a coarser, softer wood and does not possess the perfect wearing qualities and handsome close grain of genuine satin walnut. The genuine satin walnut used in our Wilson Kitchen Cabinets is specially selected from the choicest lumber, thoroughly tested; will not warp, check or split and will hold its color.

Special Features

This Picture is to call your attention to a special feature in the construction of our Wilson Kitchen Cabinets. This is a cross section of the top showing the back held together with screws instead of nails. A brass washer is placed beneath the head of the screw to prevent the screw from sinking into the wood.

The Cabinet Work. Grand Rapids, Mich., has long been recognized as the home of the best product of the best cabinet makers in this country. Cabinet makers and finishers of the highest skill and long experience in the craft are employed in the factory devoted to the making of our kitchen cabinets. Attached to the front of every Wilson Kitchen Cabinet.

WILSON KITCHEN CABINET THE BEST

The Tops of our kitchen cabinets are built to all and unobstructed use of the table top base. The doors, drawers and bins can all be opened the removal of dishes and utensils from the table top. Each is so constructed that the top section can be detached base section for convenience and safety in handling and

The Bases are the most commodious, compact and plete in design and arrangement it is to devise. In addition to the large unobstructed sible table top you will find removable chopping and boards, and one or more roomy drawers for cutlery In the various bases you will find many other special such as roomy cupboard, large bins, package racks cereal cans, bread and cake boxes, all carefully constru easily operated, each of which will prove a boon to the

The Flour Bins are placed in a positively enclosure. They are made of wood, the bottoms of two-ply stock and laid transv big improvement over metal bottoms, as they will no corrode and flour will not mold in them. They can removed for airing and cleaning. The sliding and tilt move easily without binding or friction. The Wilson Bin is the most convenient, accessible and perfect bin Flour is placed in at the top and is sifted pure and through the patent detachable flour sifter into bowl or sifter is made of noncorrosive metal and is self clean perfectly sanitary. Glass view holes are placed in side of the bin to gauge the quantity of flour on hand.

The Finish. All wood is full of small pores perfectly seasoned and kiln dried moisture if not properly filled and finished. The Wil absolutely prevents the absorption of moisture by pores of the wood with a special mineral wood filler. wood filler several coatings of the best high grade used that withstand the steam and moisture of the from which a scratch or mar can be easily removed polish. It is a beautiful color with a rich high brown effect. It has a velvety sheen which harmonizes surroundings and to produce which requires special best skilled and experienced workmen.

Metal Top.

Articles mentioned in description only are furnished with cabinet.

This splendid Kitchen Cabinet is designed for the kitchen when it is not convenient for lack of space to use the kitchen cabinet with the tall top. The special features embodied in its construction are to be found in the top section of many other cabinets. Every one of these special features will save time and labor for the busy housewife. This kitchen cabinet is made of Satin Walnut and is 48 inches long, 27 inches wide, and 33 inches high, which is 3 inches higher than the average cabinet, bringing the table surface on a more convenient working level. Top is covered with a metal known as nickeloid, with polished surface, and is drawn over the edges and fastened beneath and will not wrinkle. The top is thus rendered perfectly smooth, sanitary, easily cleaned and very durable and is without question the best metal top ever devised. The flour bin is the most perfect, convenient and sanitary device ever placed in a kitchen cabinet. Slides forward on adjusted guides and holds 50 pounds of flour. Bottom of the bin has metal flour sifter, made of heavily coated tin plate and can be easily detached. Cupboard doors fitted with racks, holding cereal and spice cans on the left door and coffee and tea canisters on the right hand door. Kneading boards cans be removed and placed on top of cabinet. A more convenient and higher grade cabinet than is generally offered in the regular channels of trade at $18.00 to $20.00. Shipped from our factory in Grand Rapids, Mich. Shipping weight, 200 pounds.

No. 1F532 Price..... **$14.35**

The convenient and practical arrangement of this splendid Kitchen Cabinet will be readily recognized. Built to save labor and time for the housekeeper who wants to do the kitchen work in the most orderly manner. It is made of satin walnut and stands 77 inches high. The base has a 27x44-inch top and is fitted with two large bins, one to hold 85 pounds of flour, the other partitioned for meal and sugar. Each bin can be readily taken out for cleaning and airing. Above bins are two roomy drawers for linen and cutlery. The two kneading and chopping boards can be easily removed and placed on top for covenience in using. Top section has a roomy china cabinet with glass paneled doors and spring fasteners. Below china compartment are two cupboards and two roomy shelves for packages, utensils and various commodities used in every kitchen. Bins, drawers and doors fitted with quality brass lacquered handles. ODORLESS, CLEANABLE, DURABLE

REFRIGERATORS

COLDES REFRIGERAT MADE

SEVEN OF MANY REASONS:

1—Our Refrigerators save the ice. Ice costs money. Therefore you save money.

2—Our Refrigerators are easily cleaned. Time is money.

3—Our Refrigerators preserve everything entrusted to their care in the hottest weather. They save food. Food costs money.

4—Our Refrigerators produce a clean, germproof dry cold atmosphere.

5—Our Refrigerators are handsomely designed and built on scientific principles. No experiment.

6—Our Refrigerators with a minimum amount of ice produce a cold temperature and every degree of this coldness is utilized in preserving the food.

7—They are made by one of the largest and best known manufacturers of high grade refrigerators in the country. We offer them to our customers at a big saving in price, and the middlemen's profits are left out of our prices.

THE MATERIALS used in the construction of our refrigerators have been selected after years of valuable experience on account of their perfect adaptation to perfect refrigerator construction. Durability and strength, cleanliness and perfect insulation are the qualities needed in the refrigerator materials. Refrigerators generally sold by other dealers frequently have serious defects in the materials used, invariably cracking and breaking, failing to retain the cold, and offering shelter for dirt and impurities.

The outside case of our refrigerator is made of the very best quality of oak, Northern ash or elm, as mentioned in the description of each refrigerator, the three best woods for outer case refrigerator construction, specially selected and thoroughly air seasoned and kiln dried and absolutely guaranteed not to warp, crack, check nor shrink. The inner wood section of the case is made of thoroughly seasoned hardwood selected for its special adaptation to a cold temperature.

HOW THEY ARE BUILT. This illustration shows the construction of one of the walls of our refrigerators, a part of the floor of the ice chamber and the sanitary drain pipe, and the arrangement of the materials which enter into its construction. Each section of the wall is a perfect nonconductor of heat or cold, making it absolutely impossible for heat to penetrate or cold to escape. Each wall is made with an outside wood section, a thick sheet of mineral felt, a dry air space, another sheet of mineral felt, a section of wood and the metal lining. Note especially that two sections of mineral felt are used in the walls of our refrigerators and read what we say about mineral felt. Each wood section is framed and fitted in the most perfect manner. The tongue and groove joining is used, instead of miter joints, making it absolutely impossible for the joint to break loose. The zinc lining and galvanized steel lining are fastened securely to the inner wood casing, covering it entirely and rendering it impossible for the water to come in contact with the wood in any part of the chambers. There are no cracks or crevices for the accumulation of dirt or impurities. The **mineral felt is held in place** against the wood section by strong cleats. Solidity, cleanliness and durability are combined with perfect sanitary and germproof inner chambers. A perfect dry cold air circulation and every degree of this coldness utilized in the perfect preservation of the food.

THE DRIP CUP, as shown in the illustration, is made of cast steel and is to the bottom of the refrigerator and held in place by drain pipe. The water fills the cup and overflows into the pan below. The lower end of the drain pipe is immersed in the water in the cup and prevents air from the outside entering the refrigerator through the drain pipe.

MINERAL FELT is absolutely the most perfect insulator for refrigerators. It cannot settle in the walls, leaving the ice chamber unprotected, nor can it sift through the inner walls soiling the provision chamber, as does mineral wool or It is a combination of mineral wool, asbestos and hair felt, compressed or into thick sheets, making a perfect insulator not only for the walls of the refrigerator the doors and lid as well, which cannot be done with a filling in the lump or form, such as mineral wool or charcoal. This is a very important feature, as the front of the refrigerator, being always exposed, requires the same insulation as walls of the case.

THE FOOD CHAMBER. The top, sides and bottom of the provision compartment lined with the best quality galvanized steel. The are made of steel bars, steel wire tinned finish with a small open space between them which the cold air currents pass freely downward and upward. Shelves made by manufacturers have small perforated holes in the solid shelf, thereby impeding the circulation the air and often stopping the circulation entirely when the food or food plates cover

THE ICE CHAMBER. The ice rests on a removable rack. The water from the melting ice drops into the bottom of the chamber and into the waste pipe and fills the automatic drip cup. The end of the pipe being immersed in the water in the cup. The water overflows the sides of the cup into beneath. No foul air can enter the ice chamber through the waste pipe. The cold air down through the center opening in the bottom of the ice chamber through every food chamber below. Nothing should be placed around or near the ice except water, etc., in corked bottles. Do not wrap the ice in paper or cloths of any kind.

THE SAVING OF ICE. A refrigerator that wastes ice is dear at any price, ter how cheap the first cost may be. We have question of insulation and ice saving careful study. In a comparative test made with refrigerators made by other manufacturers, our refrigerator produced a lower temperature an equal amount of ice, under the same conditions, proving in a practical way that our erator is without question the best and most scientific in its insulation and ice saving erties. In other words, you will find that a 50-pound cake of ice in our refrigerator as long as a 75-pound cake in the ordinary refrigerator.

THE COLD DRY AIR. The air inside of our refrigerators is not damp less, but intensely cold, absolutely dry and moving in duplex currents from the ice downward, passing and repassing in and food, carrying all the impurities upward, depositing them on the ice, which, in melting them out of the refrigerator through the sanitary drain pipe from which there backward flow of moisture nor odor. All within is clean, sweet and pure.

THE ICE CAPACITY. A cake of ice cut the exact dimensions of the ice will weigh the full number of pounds given in the tion of each of our refrigerators. We recommend the selection of a refrigerator capacity large enough to hold not only the amount of ice you may wish to use accommodate the unmelted portion of the previous cake, as well as milk bottle, and other products generally placed beside the ice. For example, a refrigerator modate a 50-pound cake of ice and the small unmelted part of the previous have a capacity of at least 65 pounds.

THIS ICE CHEST, $3.98

Made in four different sizes, all built with a thick outer case of seasoned Northern elm, golden finish. The inner walls are built in the same perfect manner as the refrigerators and are economical in the use of ice. They are lined with a good quality galvanized steel and have galvanized steel shelves and wood rack. Equipped with drain pipe and drip cup. While ice chests do not have the cold dry air circulation like our refrigerators, yet they are excellent preservers of food and will give satisfaction. We recommend the purchase of one of our high grade refrigerators because of the greater convenience in handling the food and ice, the cold dry air circulation which keeps the provision chambers perfectly dry, always cold and will preserve the food better with less consumption of ice. Securely crated and shipped from factory in Southern Michigan.

COMPARE OUR GOODS COMPARE OUR PRICES

EXTENSION TABLES

WE WANT TO BE JUDGE OF QUALITY THE PR

OUR EXTENSION TABLES. There is no furniture in the modern home that is more satisfactory than a good dining room extension table. Whether you want a table designed and constructed on plain lines or one that is markedly distinctive in design you will find it on these pages. The large assortment represents the newest and most popular designs of today.

WE OFFER YOU THE SAME ADVANTAGE of selection th can find in any largest furniture stores in the cities, with the added convenience of n your selection in your own home. It is impossible by illustration to out every detail of design, construction and finish, yet by a careful r of the description and a close examination of the illustrations, whi made from photographs, you will form a correct idea of each extension

WE SELL twenty-five thousand extension tables yearly. THERE IS A REASON. We have given the manufacture of extension tables close attention and study with the one purpose of giving our customers in every table that we offer a thoroughly reliable and dependable article, handsomer in design, made of better material and constructed in a more workmanlike manner than extension tables of similar design generally offered by the average dealer, and at a price that means a big saving to our customers.

LOOK AT OUR PRICES.

If you pay more than the price we ask to any other dealer for any extension table similar in design and of equal quality, the additional amount, which in every case is at least one-third more, represents the profit you are giving to the jobber, the commission man, the wholesale and the retail merchant through whose hands it has passed and each of whom has made a good profit. We contract direct with the manufacturer for thousands of each table at a price far below the regular prices to the average dealer, who can buy only in small quantities. Our price is based on the actual factory cost of the material and labor entering into the construction of the table, to which we add the smallest kind of a margin of profit.

WHY NOT SAVE THE MIDDLEMEN'S PROFITS?

Every customer will quickly recognize the big money saving values we offer in all our Dining Room Tables.

SOLID OAK $7.95

No. 1F640 Price, 6-foot length, only $7.95.

This Claw Foot Center Pillar Extension Table is made of seasoned oak, high gloss golden finish. The perfectly round top is 42 inches in diameter and has wide boxed rim and extends to 6 feet in length. The large nondividing center pedestal is 8 inches thick at the widest point. Note the large shapely curved legs with deep and smooth carved claw feet. This extension table is well made throughout. The material thoroughly seasoned and the finish a clear golden color which brings out the grain of the wood perfectly. The leaves are carefully fitted into each other with dowel pins. Each table is furnished with a set of good quality casters. This table is a splended value at our price, $7.95. We do not offer it as a $15.00 extension table for $7.95, but you will find it made of better material, stronger and more durable in construction and more dependable in finish than any table of similar design generally offered by others at $11.00 to $12.00. Each table is securely crated, the top and legs in a separate crate, to insure safe delivery by the transportation company and shipped direct from factory in East or Chicago, the point nearest to your railroad station, thereby insuring the lowest possible freight charges. Shipping weight, 110 pounds.

THE OAK used in the top and leaves of tension tables is thoroughly ed and kiln dried. The alle made of seasoned Northern wood. The workmanship extension tables is reliable pendable. Revolving Bookcase for $2.95.

No. 1F1156 This Revolving Bookcase is made of birch, thoroughly seasoned and kiln dried, in a beautiful golden finish. The top section is attached to the base by steel ball bearings; 3 feet high; top is 19x19 inches; shelves 16x16 inches. This case will accommodate fifty average size books. Thoroughly substantial in construction. A splendid bookcase for the home or office. So constructed that it can be shipped knocked down, packed securely. A big saving at our price. Shipping 16 pounds.
golden birch..... **$2.95**

This illustration shows one top section, one book section and one base section arranged one above the other. The door can be raised and pushed half way into position on steel guides. Each part is perfectly mortised, framed and joined; the wood is thoroughly air seasoned and kiln dried, finished inside and outside. Absolutely guaranteed not to warp, shrink or check. Shipping weight, 25 pounds. Shipped from factory in Michigan.

Sectional Bookcase.

This illustration shows one top section, one base section, and four book sections in the different sizes as noted in the price list below. Each section is 34 inches long outside measurement. The wood is thoroughly seasoned quarter sawed oak, polished golden finish. In simplicity and durability of construction it is unequaled. It is made with our patent knocked down construction and is easily set up. It can be taken apart and put together in less time than any other sectional bookcase without the use of any tool. When set up it is the strongest and most rigid case ever built. The nonbinding door of each section is easily raised and slides back over the top of the books on steel guides. The combination of four sections will hold 100 average size books and can be enlarged a section at a time, as you need more book space. In our special Furniture Catalog which we will send you on request is shown our complete line of sectional bookcases at prices which mean a saving of fully 35 to 40 per cent to our customers.

OUR COMBINATION BOOKCASES

The Most Popular Styles

Do you want to preserve your books and have a convenient place for writing material? Very few articles of furniture are of more importance in the home than a combination bookcase and writing desk, because of the great convenience which they afford on account of the space they occupy being much less than can be had in two separate pieces of furniture affording the same convenience for books and writing material. The great popularity of this piece of furniture is fully established and great care should be used in its selection as to style, convenience of arrangement and quality of material, workmanship and finish.

Figure C—This illustration shows the pigeonhole case with drawer used on the inside of desk of all our combination bookcases shown on this page, except No. 1F1114.

Look! Only $10.95

No. 1F1114 Price, $10.95

This Combination Bookcase and Writing Desk is made of oak, high gloss golden finish. The entire front and top section is made of quarter sawed oak. Bookcase is 72 inches high by 38 inches wide and has a pattern shaped mirror, French bevel plate, size 12x12 inches. Writing desk fitted with pigeonhole case, as shown in illustration, Figure D, at top of page, for writing paper and other stationery. Below the writing desk is an imitation drawer and a roomy cupboard for papers and periodicals. Left hand side of the case is arranged for books. Bent glass door made of clear double thick stock, firmly set into the rigid and well fitting frame. Door and desk lid are fitted with locks and keys. Shipped from factory in Rockford, Ill. Shipping weight, 135 pounds.

PRACTICAL IN DESIGN.

OFFICE DESKS

GUARANTEED QUALITY.

OUR OFFICE DESKS. Every business man will readily recognize the splendid values we offer on this and the following page in office desks. They represent the most popular designs in office desk construction. The convenient and practical arrangement of drawers, pigeonhole space, bookstalls, card index drawers and letter files will be fully appreciated by the experienced and methodical office man. In fact the detail of arrangement found in our office desks is the result of years of experience and a thorough acquaintance with the needs of the modern business office. Whether you are in need of a flat top desk with its broad top surface and spacious drawers, or the nature of your business demands the large roll top curtain desk with its splendid arrangement of top and base section for books, letters, papers, and working materials of every kind, you suited from these pages.

THE WOOD in the outside as well as inside of each desk is thoroughly seasoned kiln dried. Each desk is made of fine grain oak, the most serviceable durable wood for office desk construction.

HOW THEY ARE MADE. You will find the drawers work smoothly, the and posts framed in a skillful and workmanlike manner. All surfaces are carefully sanded and smoothed. The finish is the popular color which brings out the grain of the wood to the best advantage.

BEDROOM SUITES

BUILT TO STAND THE CONSTANT WEAR OF DAILY USE YEAR AFTER YEAR.

TEST OF VALUE.

All pride of possession is lost unless the article has real worth. When you buy a bedroom suite of the style and quality shown on these nine pages you make a lifetime investment. It represents the very best taste in modern, up to date bedroom furnishings. It is the fundamental principle in our business that quality must never be sacrificed to quote low prices. No matter which suite you select, it is backed by our binding guarantee of quality.

HOW THEY ARE MADE.

Our bedroom suites are the work of the most experienced craftsmen and are not mere combinations of wood, mirrors and varnish. Every piece of wood in them is thoroughly seasoned; the cabinet work throughout, from the lowest to the highest priced suite, is built in a strictly workmanlike manner; surfaces are smoothed, filled, coated and finished with the best of finishing materials; mirrors in all dressers are French bevel plate. Our suites are made in the best modern, up to date factories; in addition we maintain the most rigid inspection, absolutely insuring quality.

THE BIG SAVING IN PRICE.

Naturally we make you a large saving, because we base our prices on the actual facturing cost, adding but one profit, out all the profits and expenses of midd This saving amounts to at least one-third of all we absolutely insure quality, then lows from our direct method of merchan that we save you money. The more you pare our quality and price with others, th ter we shall be pleased.

No. 1F1720 Price, complete suite, $18.65.

Solid Oak Bedroom Suite only $18.65. It is our example of big values, **our** challenge of superiority. The Most Popular and Up to Date Designs

STOP RIGHT HERE!

Our Price Saves Middlemen's Pr

OUR FINEST QUALITY. EXCLUSIVE STYLES. CHOICE OF THREE WOODS.

Designed and constructed for the most critical and discriminating taste. Made from woods of the finest, closest grain; built to stand the severest tests throughout years of constant use. You will never regret the purchase of one of these high grade bedroom suites, dressers, chiffoniers or washstands.

The selected quarter sawed oak used in these pieces has a highly figured flaky grain finished in the popular golden color. Birdseye maple, one of the handsomest woods, is finished in natural white color with a slight amber tinge. **The mahogany and Circassian walnut** are the two finest, closest grain and rarest woods of which furniture is made. Each of these suites is perfectly matched and you will find a uniform grain of wood in the outer surfaces, no matter whether you select the **quartered oak, birdseye maple, mahogany or Circassian walnut.**

HOW THEY ARE MADE. **The drawer fronts and end panels of the chiffoniers and washstands are made of three-up stock.** The outside facing in each wood is carefully selected, matched and beau ished. The drawer guides are mortised into the front and back posts and fastened panels on the inside with glue blocks. This makes the strongest and most solid construction. The drawer sides are fastened to the drawer fronts with the best impro tail construction. The bottom of the drawers is grooved into the sides. **All drawers on the inside.** The panels in the back of the base are made of three-ply built-up the mahogany dressers the drawer fronts, end panels and top of the base are **genuine mahogany.** The posts, standards, mirror frame and cross rails are made of birch which closely resembles mahogany when finished. This method of construction by the best makers of high grade furniture. The mirrors are French bevel plate fastened to the standards with brass toilet hangers.

This Four-Piece Suite, Only $45.50

This regular $60.00 Four-Piece Bedroom Suite for $45.50. No matter which wood you select, the quartered golden oak, the birdseye maple, or the natural mahogany (all high gloss finish), you will be proud of your purchase. The natural mahogany is light in color and is popularly known as Toona mahogany. **We want you to read what we say at the top of this page about this suite.** No. 1F181 Rocker and Chair, shown on page 517, in oak or maple will match this suite.

DRESSER. French bevel plate mirror, size 22x28 inches. Mirror frame and standards have rounded edges. Base, 20x42 inches. Two swell top drawers and two large drawers. **All drawers finished on inside.** Lacquered brass finished handles.

CHIFFONIER. French bevel plate mirror, size 12x18 inches. Rounded mirror frame and standards. Base, 18x32 inches. Two swell top drawers and four large drawers. **All drawers finished on inside. Lacquered** brass finished handles.

BED. Broad veneered panels and curved roll on head and foot end. Length, 76 inches; width, 54 inches; head end stands 54 inches high.

WASHSTAND.

LOOK AT THESE FOUR BIG VALUE

QUARTERED OAK ALL OVER

To see this splendid dresser, chiffonier, Princess dresser and washstand being made at the factory, to see the selected material coming from the dry kiln, passing through the machine operations, inspection rooms, cabinet rooms and finishing rooms; to see it carefully sanded, smooth surfaced, filled, coated, rubbed and polished, would make you enthusiastic over the value.

The drawer bottoms and panels in backs three-ply built-up stock, can't break or split.

Every piece made with thoroughly seasoned quartersawed golden oak fronts, ends and tops. Serpentine curved drawer fronts and large single panel ends, made of built-up stock with layers placed transversely and outer surface veneered with quarter sawed oak, a method used by the best makers of high grade furniture. Makes a uniform matched grain of wood; prevents warping, shrinking or splitting.

DRESSERS

DON'T BUY ELSEWHERE

Every customer will quickly recognize the big money saving prices we offer in these dressers.

The Style and Quality.
A dresser in our line has distinctive style, harmony of outline and perfect proportion. The wood used in construction is thoroughly seasoned. The cabinet work throughout is finished in a workmanlike and dependable manner, and the finish is of good quality. They are made in a plant equipped with the best modern machinery, operated by skilled workmen. The mirrors are made of genuine French plate, the trimmings and locks of good quality. They are carefully packed and shipped from the factory in good condition.

BIG MONEY SAVING VALUES

The excellent material, careful workmanship and finish of these dressers will stand the severest test and comparison.

Look at Our Prices!
First of all we absolutely insure quality, and it follows from our direct method of merchandising that we make our customers a big saving in price, simply because we base our prices on the actual manufacturing cost and add but one profit, cutting out all the profits and expenses of middlemen. This saving amounts to at least one-third. The more you compare our quality and prices with others the better we shall be pleased.

OUR SIX FINEST DRESSER

BIG MONEY SAVING VALUES. MADE IN THREE DIFFERENT WO

THESE SIX DRESSERS are in a class by themselves. You would quickly recognize the super-extra quality of the material, the cabinet construction and the finish if you could see them on our sample floor or in the factory. If you want a dresser that you will be proud to show your friends and neighbors, made in Grand Rapids, Mich., the home of the best made bedroom furniture in the country, made in one of the largest, most favorably and best known factories by cabinet makers and finishers of the highest skill and long experience, you will get it if you send us your order for either of these six dressers.

YOU HAVE A CHOICE of three different woods, and no matter which one you select you will be more than pleased. The quartered oak dressers have a specially selected highly figured flaky grain, finished in the popular golden color. **Birdseye maple** is one of the handsomest grained woods of which furniture is made. It has a hard flinty surface with the birdseye grain of the wood brought out, finished in a natural color which is almost pure white with a slight amber tinge. **The mahogany and Circassian walnut** are the two finest close grained woods used in the making of high grade furniture.

SUPERIOR CABINET WORK. The dresser fronts and end panels are three-ply built-up stock. The outside face wood is specially selected, highly figured, carefully matched and beautifully finished drawer guides are mortised into the heavy front and back posts and fastened to the on the inside with glued blocks, making the strongest and most rigid base it is possible struct. The sides of the drawers are fastened to the drawer fronts with the latest dovetail construction. The drawer bottoms are grooved into the sides. The back part base are made of built-up three-ply stock. **All drawers finished on the inside.** The French bevel plate. They are fastened to the standard with brass toilet hangers. In the dressers the drawer fronts, end panels and top of the base are veneered with genuine The posts, standards, mirror frame and cross rails are made of fine grained birch, which resembles mahogany when finished that it is almost impossible to detect a differe method of construction is used by best makers of high grade furniture, as it would extravagance to use mahogany in these parts. Securely packed and shipped from Grand Rapids, Mich. Average shipping weight, 150 pounds.

MIRRORS

Every mirror on this page except No. 1F2262 in the regular quality as mentioned below, is made of the best quality extra thick genuine French plate, guaranteed free from all defects and made with a plain or bevel edge and a perfect reflection. Every mirror, except No. 1F2262, which we ship to our customers is carefully and critically examined by our expert inspector with years of experience, and is shipped under our binding guarantee.

As an illustration of our quality, note carefully in the list of No. 1F2262 the comparative prices in the regular quality generally offered by other dealers and the best quality imported French plate mirrors. Such a difference in price means a larger reduction in quality and we offer our customers the regular quality of No. 1F2262 in competition with mirrors sold by dealers, but we do not recommend them.

French Plate Mirrors.

No. 1F2262

We furnish this mirror with a golden oak frame in the regular quality of plain French plate, which we offer as the equal of those generally sold by other dealers, or in the very best quality genuine thick imported French plate with plain or beveled edge, with handsome cast brass gold lacquered ornamentations on the corners as noted in the list below. The imported French plate mirror in plain or beveled edge we guarantee to be absolutely the highest quality obtainable, free from all defects and with a perfect reflection.

Highest Grade Material, Construction and Finish

IRON BEDS

A Big Saving in Pr

OUR IRON BEDS.

Clean, sanitary, vermin proof and indestructible. Whether you want an iron bed at the lowest price ($1.98) ever quoted by any firm for a strictly reliable article, or a massive and handsome porcelain polish finish chill-less iron bed, you will find it on this and the following pages. The latest up to date styles speak for themselves. The quality is backed by our guarantee. The rails are made of Bessemer steel in angle shape and will not bend or break. Great care is taken in the fitting of the tongue and groove by which the rail is fastened to the head and foot end. They stand firmly and will support any weight of persons. Best quality brass tubing, highly polished and burnished, coated with best quality French lacquer, which absolutely preserves the polish and prevents tarnishing.

THE FINISH.

We guarantee the finish of our Iron Beds to be the best that can be made. The enamel is baked in a large oven heated to a very high degree of temperature. This produces a finish that is impervious to water, and all our iron beds can be cleaned of finger marks or other soiling by washing with soap and water.

THE COLOR.

We furnish all our Iron Beds in white enamel unless otherwise ordered. Under the description of each bed it specifically states whether furnished in single solid color or in combination colors. Many designs of beds are much more attractive in single solid color, and for that reason we furnish certain patterns in single solid color only. When beds are ordered in combination colors or in a solid color except white, shipment will be made direct from factory near Chicago, and from three days' to one week's time is required before shipment can be made. **Special colors,** solid or in combination, **not mentioned** in the description of each bed, will be furnished at an additional cost of $1.00.

VERNIS MARTIN ALL GOLD FINISH. This **high grade finish was introduced in this country** re**has become deservedly popular.** It derives its name inventor, a Frenchman, Vernis Martin. It is a finish, consisting of a priming foundation coat baked and hardened, a second coat of **gold bronze,** and a third coat of the best quality varnish. The transparent, rich golden tint, closely resembling grade all brass beds.

HOW TO ORDER.

When ordering a metal bed be careful to state wanted, also the color, otherwise white will be ship illustrate our beds made up with bolster, mattress ering, but the price quoted is for the bed only mattresses and pillows are illustrated and described 593 to 599.

THE BED.

Consists of head end, foot end and metal spring. It is so constructed that the spring forms the side rails of the bed, which reduces the cost much lower than the regular iron bed with regular spring. Height of head end, 54 inches; foot end, 41 inches. Continuous corner posts and top rails, ⅞-inch steel tubing. Five vertical filling rods and two cross rods of solid steel 5-16 inch thick. Finished in white enamel with gilt chills. Full size, 54-inch and 42-inch widths only.

THE SPRING.

Has a heavy steel wire fabric fastened to the angle steel frame at each end by steel spiral helical springs, guaranteed not to sag, and very strong and durable. The side rails of the spring fit into the grooves on the heavy castings on the corner posts.

THE MATTRES

Filled with new basswood excelsior, oughly screened, forms the inner only. One side is ered with a thick of the best quality itary sea moss, as described on page 20 which cannot be ex for its sanitary and fort giving qualities other side of the tress is covered thick layers of felt of good quality, layers are laid one the other in u thickness, extra heavy twill tic closely stitched a bound. The matt especially suitabl summer, or winte felt side for the co son and the sea mo for warm weather. ity for quality, it be compared with tresses sold thro the country at $7.00.

CHEAP IRON BEDS.

An Iron Bed, as well as any other kind of merchandise, is only satisfactory when it will give good service, and as an iron bed is an article that in most cases is purchased but once in a lifetime, we do not consider it economy for anyone to buy an iron bed that is not made of dependable material and constructed in such a manner as to be always reliable, strong and serviceable, will not bend or break, or become rickety. We have come to the conclusion, after a number of years' experience in the sale of a very cheap iron bed, that it is not entirely satisfactory to our customers, and we, therefore, advise the purchase of one of our better iron beds. We will sell you a full size iron bed, made of better material, better finished and better constructed than you can buy of any other firm, at $1.49. **If you want it, just send us your order for No. 1F2405, and enclose $1.49, and it will be shipped to you at once. If you want to see an illustration and description of it, we will mail one to you on request.** We will be glad to get your order, but for the slight additional cost we advise you to select any one of the other iron beds illustrated on this and the following page. Shipped from Chicago. Shipping weight, 55 pounds.

ALL-LESS IRON BEDS WITH PORCELAIN FINISH. HAND RUBBED AND POLISHED.

The iron beds shown below are made of the finest quality Bessemer steel. The special construction is the manner in which the cross rods and filling rods are joined. It is not a butt construction, no cast or molded chills being used. Instead, the rods are inserted in the frame joint, making the entire frame as solid and rigid as if the frame were made of one piece of metal. They are the strongest beds made. This method of construction gives a perfectly smooth surface for the hand rubbed and polished porcelain finish in the different colors as mentioned in the descriptions below. They are the finest iron beds made; the style and quality which harmonizes with any bedroom furnishings. Our prices mean a big saving to our customers.

THE HIGHEST QUALITY

BRASS BEDS

ONE-THIRD SAVED IN PR

THE FINISH ON A BRASS BED is the most important feature next to the material and construction. In our beds, each post, rod, knob and husk is burnished and polished until the surface is as smooth as a mirror. To preserve this perfectly polished surface the entire bed is given several coatings of the best Amber Hot Process English Lacquer. This prevents the finish from tarnishing. We use only th grade. The satin lacquered finish is produced in the same manner and the same high grade material with an extra coating, and the finished s has a velvety sheen which enhances the beauty and requires special Applied by hand with a camel's hair brush.

SANITARY STEEL COUCHES DAVENPORTS AND FOLDING BEDS

A BIG SAVING IN PRICE

CONVENIENT, COMFORTABLE, VERMIN PROOF AND INDESTRUCTIBLE.

FRAMEWORK is made of the best quality high carbon Bessemer steel, not to bend or break. The rods, bars, posts and ... securely welded or riveted in such manner as to ... of strength. Finished in gold bronze, or ... gold bronze as mentioned in each description.

SPRING WORK consists of our new special hairpin double fabric, made ... heavy wire, interwoven and interlaced in ... to be absolutely nonsagging and noiseless. ... each end to the steel frame by a large ... carbon steel coil helical springs, combining ... and durability.

This illustration shows the construction of our PATENT SPECIAL HAIRPIN FABRIC used on our Sanitary Steel Couches and Davenports. It is fastened at each end to the steel frame with spiral springs and the closely woven links run lengthwise. The strongest, most ... comfortable spring fabric ever devised.

ELASTIC COTTON FELT MATTRESS PADS FOR OUR SANITARY STEEL COUCHES AND DAVENPORTS.

THE ELASTIC COTTON FELT MATTRESS PADS used on our Sanitary Steel Couches and Davenports are made of excellent quality white cotton, strictly clean, sanitary and very comfortable, a soft yet compact and durable mattress pad which easily conforms to the couch, whether open or closed, fitted with strong tapes on all sides by which the mattress pad is securely tied to the outer edges of the couch or davenport. These elastic cotton mattress pads are covered with a strong, firm and serviceable denim twill ticking and securely tufted. All our mattress pads used on our Sanitary Steel Davenports, except No. 1F2541, which has a pillow stitched edge, are made with square box edges like a mattress, only thinner, so that they will conform to the shape of the davenport in any position. Sanitary Steel Couches and Davenports cannot be used without a mattress pad. A regular mattress is too thick and stiff and will not fold nor conform to the shape of the couch or davenport in the folding or unfolding. We list below five Elastic Cotton Mattress Pads especially made and adapted for use on the Sanitary Steel Couches and Davenports illustrated and described on this and the next page. **Be sure to order the Elastic Cotton Felt Mattress Pad which is adapted for use on the Sanitary Steel Couch or Davenport which you select.**

No. 1F2541 **Elastic Cotton Mattress Pad** for use on our No. 1F2529 Sanitary Steel Couch. Made of elastic felted cotton. Covered with denim twill ticking, dark olive green color. Has pillow stitched edge and tufted top and bottom, with tapes for fastening mattress pads to side rods. Our No. 1F2543 Elastic Cotton Mattress Pad with full boxed edge, weight 18 pounds, at the slight difference in price is a much better value. Weight, 16 pounds. Price.....$2.85

No. 1F2543 **Elastic Cotton Mattress Pad** for use on our No. 1F2529 or No. 1F2531 Sanitary Steel Couches. Made of elastic felted cotton with good quality denim twill ticking in dark olive green color. Full box edges, securely tufted top and bottom. Strong tapes attached to sides to fasten it securely to couch frame. Exceptionally comfortable and durable. We especially recommend this mattress pad in preference to No. 1F2541. Weight, 18 pounds. Price.....$3.25

No. 1F2547 **Elastic Cotton Mattress Pad** for use on our No. 1F2529½ Sanitary Steel Davenport. Filled with elastic felted cotton. Covered with good quality denim twill ticking, dark olive green color. Has firmly bound full box edges, full tufted top and bottom with large cotton tufting stays. Sides have strong tapes for fastening mattress pad to side rails of Sanitary Steel Davenport frame. Weight, 20 pounds. Price.....$3.65

THE SPRING used on this splendid Combination Sanitary Steel Couch is made with our new special hairpin double fabric of the best quality steel interwoven and interlaced in such manner as to be absolutely noiseless. The fabric is attached to the angle steel bars at each end by 21 oil tempered high carbon steel coil springs absolutely nonsagging, strong, durable and comfortable. Supported in the center by three rows of steel spiral springs. In this spring the annoying squeak so common to all other makes of steel couch springs is entirely eliminated. Good quality casters.

THIS ILLUSTRATION shows our No. 1F2531 Sanitary Steel Couch with mattress, bolster and couch cover made up as a couch. The price, $3.75, does not include the mattress, bolster or couch cover. Refer to page 403 for prices of couch covers.

OUR PRICE, $3.75, means a saving of $1.50 at least to our customers, as compared with what you will have to pay for a sanitary steel couch similar in design and construction offered by other dealers.

...1F2529

No. 1F2529 **This Sanitary Steel Folding Couch Bed is a wonderful value at our price.** It is made of steel, rendering it practically vermin proof and at the same time strong and durable. It is so constructed that the sides can be lowered and covered with a mattress pad and couch cover, making an attractive and comfortable couch as shown in the large illustration of No. 1F2531 at the center of this page. The sides can be raised easily and the folded couch becomes a very comfortable large size bed. The size of the couch when the sides are dropped is 72 inches long and 23 inches wide. The size of the double bed when opened to full width is 72 inches long and 48 inches wide. **The spring** is made of our patent hairpin fabric, as shown in the illustration at the top of this page. The ends of the hairpin fabric are attached to the frame at each end with high carbon steel coil springs. The hairpin fabric is supported in the center by two rows of steel spiral springs, making an absolutely noiseless and comfortable bed that will not sag nor stretch out of shape. In the small illustration at the right we show the end construction of this Sanitary Steel Couch. **Each leg is braced on the under side with steel plates. The side rails, end rails and legs** are made of extra heavy 1½-inch angle Bessemer steel, insuring perfect strength and durability. Many other dealers offer sanitary couches made of smaller light weight angle steel that will easily bend or break. **The All Steel Frame** is securely riveted, firmly braced, and finished in a combination of **black** and **gold bronze.** The wonderful utility and convenience will be quickly recognized, as it requires small space in the room and is easily changed into a comfortable couch or a splendid double bed, as desired. Good quality casters. Shipped knocked down from Chicago. Shipping weight, 70 pounds.

OUR IDEAL SANITARY STEEL DAVENPORT BED

No. 1F2537

No. 1F2537 **This Ideal Sanitary Steel Davenport Bed is an exceptionally att design.** It is made throughout of high carbon Bessemer steel, w exception of the broad wood arms, which give it a very attractive and finished appe The ends are made with angle steel posts and bottom cross rails, with three heavy steel slats. When in use as a davenport sofa, as shown in the illustration to the left, the 21½ inches high from the seat, and the seat is 23½ inches deep. It is easily changed full size bed by dropping the back on a level with the seat by means of a simple attachment. The back when lowered is supported by an extra pair of steel shown in the small illustration below. As a bed, it is 74 inches long by 46 inches The steel frame is fitted with our patent hairpin fabric, with steel spiral helical sp each end. The center of the seat and back supported by three rows of all steel coil springs firmly fastened to steel slats. The framework between the arms is finished in black and the ends in a perfect imitation of golden oak, to match the golden oak arms. In this splendid sanitary steel davenport bed, as well as any other which we describe and illustrate, there are no cracks or crevices for dirt or vermin. An absolutely clean, vermin proof, comfortable sofa for use in the daytime, and a and comfortable bed when needed. We ask you to compare this steel davenport sofa bed with any davenport sofa beds which may be offered in any retail store or by other catalog houses, and you will find ours made of heavier and better material, stronger and more carefully constr handsomer in finish than any similar bed offered by others at $10.00 to $12.00. Shipped knocked down from Chicago. Shipping weight, 100 pounds.

OUR IMPERIAL SANITARY STEEL DAVENPORT BED

No. 1F2544 **This is the best Sanitary Steel Davenport Bed ever made.** When we say the best we mean it is the most attractive in design, made of the best material, constructed in the most perfect workmanlike manner, and is absolutely the most comfortable sofa and the most comfortable bed. The ends are made of heavy drawn steel tubing, with solid steel scrolls and cross rods. The spring is fitted to a strong angle steel frame which is attached to the ends with a heavy steel shank. When used as a davenport sofa it is 78 inches long; height of back from seat, 21 inches; width, seat, 22 inches; height, seat from floor, 17 inches. When used as a bed it is 78 inches long and 46 inches wide. The back can be easily dropped down on a level with the seat and is supported by strong steel legs. The ratchet attachment which holds the back in an upright position is a simple and positive lock which is easily operated by anyone. **The special feature** in the construction of this steel davenport is the spiral hinged spring which is made of the best high carbon standard steel spring wire and has 80 reverse steel coil springs securely fastened at the top and bottom by our patent interlocking construction, as shown and described on page 589. This method of construction makes a perfectly even resilient surface that will support a heavy weight person on one side and a light weight person on the other side, without sagging or rolling. The spring is as comfortable on the edge as in the center **(a style of construction not found in sanitary steel davenport beds generally offered by others).** The steel clothes holder beneath the seat forms a convenient receptacle for surplus bed clothing during the day. There are no ragged sharp corners or projections to tear the bed clothing. The frame is finished in the best quality gold bronze and the spring in black japan. This sanitary steel davenport bed if sold by others would bring $18.00 to $20.00. Shipped knocked down from Chicago. Shipping weight, 150 pounds.

Sanitary and Indestructible. SANITARY STEEL FOLDING BEDS Easily Operated, Noncolla

THE WONDERFUL CONVENIENCE AND UTILITY, **combined with perfect cleanliness and solid comfort, of our sanitary steel folding beds have been quickly recognized.** They supply the need of an extra bed when it is impossible to have a regular standing bed, and the amount of room they require when closed is the same as an ordinary dresser. When closed it stands out about 18 inches from the wall. The inside is constructed to afford ample room for mattress, bedding and pillows. Each bed is compact in form, economizes space and is the ideal bed for a medium or small size bedroom. **They will not fold while in use by occupant. Absolutely safe; will last a lifetime.**

THE STEEL FRAMEWORK. **The framework is made of high carbon carefully tempered Bessemer steel,** of sufficient weight, size and strength to insure absolute durability. Many makers of steel folding beds use a light gauge metal and reduce the size, number and quality of the steel supports, fit them with cast iron casters instead of nonbreakable casters, and utilize cheap wire fabric instead of guaranteed tin nonrusting ones, by which means they reduce the quality in order to compete with our price.

IN OUR SANITARY STEEL FOLDING BEDS **each post, crossbar is carefully tested and ly guaranteed not to bend or break.** They are constructed on the best mechanical pr joined together with bolts and rivets. The top section is constructed and finished i with the frame and when the bed is folded up can be used as a mantel shelf for bric

THE FINISH. **All our sanitary steel folding beds are finished in a perfect imitatio quartered oak,** which harmonizes with dressers, chiffoniers an furniture, and is the most lasting durable finish. It is thoroughly dried and ha can be cleaned with soap and water.

THE SPRING. **Each bed is fitted with the celebrated National spring,** which heavy tin coated steel wires, each about 5 inches long, joine metal plates. The fabric is attached to the end bars of the bed by Bessemer steel spiral springs. This fabric gives the greatest possible comfort and durability and is absolutely guaranteed not to sag or stretch.

A BIG VALUE.

No. 1F2546 **The frame of this Sanitary Steel Folding Bed is made of angle Bessemer steel, substantially built, thoroughly braced and well made throughout.** The metal top shelf is finished in a perfect imitation of quarter sawed golden oak, and can be decorated with bric-a-brac, etc. Height, 44 inches; depth, 20 inches and in the full width, 48 inches wide. When open as a bed, it is 74 inches long, 48 inches wide in full size, and in ¾ size it is 74 inches long and 42 inches wide. The crossbars and corner braces are made of solid steel, securely riveted, to insure a rigid, strong frame. (A feature of construction not generally used in sanitary steel folding beds.) The spring used on this bed, as well as on all our sanitary folding beds shown on this page, is equipped with the celebrated National fabric. This popular steel bed is exceptionally attractive when draped with curtains. Price quoted is without curtains. Shipped direct from Chicago. Shipping weight, 80 pounds.

ELASTIC FELT MATTRESSES FOR SANITARY STEEL FOLDING BEDS.

We especially recommend our Elastic Felt Mattress for our Sanitary Steel Folding Beds. Made of clean pure felted cotton sheets evenly laid one upon the other and compressed within the ticking to the desired thickness. Strictly sanitary, always comfortable, a soft, compact and durable mattress. Many dealers use a so called "wool matt shoddy, which is nothing more than ground rags. Such mattresses are unclean a We do not sell them. Read what we say about our Felt Mattresses on page 601.

DEPENDABLE, DURABLE, COMFORTABLE

BED SPRINGS

A BIG SAVING IN PRICE

OUR STEEL FRAME SPRINGS

are made of the best quality high carbon Bessemer steel. The end bars are made of heavy angle steel 1¼ inches wide on each flange. The side rails are made of angle steel or drawn steel tubing as mentioned in the description of each spring. Each of the four corners is securely joined by heavy bolts and steel castings or steel corner braces, a method of construction not found in steel frame springs generally sold by others and makes the frame absolutely firm and strong and will not become loose and rickety.

This illustration shows the construction of our patent special hairpin fabric used on our Sanitary Steel Couches and Davenports. It is fastened with spiral springs at the ends and the closely woven links running lengthwise. The strongest, most durable and comfortable spring fabric ever devised.

THE WOVEN WIRE FABRIC

used on our springs is made of the best high tension steel wire. It has an extra closely woven fine mesh with heavy corded edges and reinforced with extra heavy cords throughout the entire surface of the fabric. The fabric is securely and firmly fastened at each end to the cross bars and is guaranteed not to become loosened or pull out.

LOOK AT THIS FOR $3.98

The best Steel Frame Spring made. The side rails of the frame are made of heavy 1½-inch drawn steel tubing. The end bars are made of heavy angle steel 1½ inches wide. A special feature in the construction of this spring is the heavy steel corner castings, which fasten the steel tube side rails to the angle steel end bars and raise the spring fabric 4 inches above the side rails as shown in the small illustration, making the bed as comfortable on the edge as in the center. The patent special hairpin fabric used on this spring is fastened to the angle steel end bar with twenty-five steel helical springs at each end. Each side of the fabric is further strengthened by a wide steel band, making the strongest, most durable and most comfortable spring fabric ever devised. The frame is finished in the best quality of gold bronze. The hairpin fabric is finished with heavy anti-rust tin coating. This splendid spring is adapted for light, medium or heavy weight persons, and will give years of service and perfect satisfaction. Furnished for either wood or metal beds, all sizes. No slats are needed when used on metal beds, and the ordinary wood slats are needed when used on wood beds. **Be sure to state the kind and size of bed for which the spring is desired.** Shipping weight, about 60 pounds.

Our Faultless Special Angle Steel Spring, $2

Patent Double Hairpin Fabric.

The frame of this Spring is made of heavy angle shaped high carbon Bessemer steel, 1½ inches wide. The corners are firmly bolted and braced, a feature of construction not generally found in angle steel frame springs. Equipped with our patent **hairpin fabric,** as illustrated at top of the page. Particular attention is called to the manner in which the links are constructed and joined, running lengthwise, closely woven and will not stretch nor sag. Steel coil springs at each end attached to the hairpin fabric and the steel end bars. A special this method of construction is the equal distribution of the weight of the body. sag or roll to the center. No slats are needed for use on metal beds. **Be sure to and kind of bed for which spring is desired.** Shipping weight, about 60 pounds.

Our Monarch All Steel Spring, $3.97.

Heavy Raised Corner Castings. Heavy Rope Wire Edge.

This is the strongest, most substantial steel frame woven fabric bed spring made. It has heavy tubular steel side rails, 1½ inches in diameter, and heavy angle steel end bars 1¼ inches wide. Frame is finished in best quality gold bronze. A special feature in the construction of this spring, not found in other makes of springs, is the heavy corner castings which raise the fabric four inches above the side rails, making the entire surface of the spring from edge to edge exceptionally soft and comfortable. The fabric is the closest woven pencil weave, heavily corded th surface, and has heavy rope wire edges. The steel coil spring support has tw pered Bessemer steel spiral springs securely interlaced and fastened to the end steel coil helical springs. Furnished in full size and 4-foot widths only, for or metal beds. **Be sure to state kind and size of bed when ordering.** Shipping w 70 pounds.

SOLID COMFORT STEEL COIL SPRING

EVEN REASONS WHY you could buy one of our Steel Springs. Mechanically they are as good as possible to build them. They are sanitary, vermin proof indestructible. They will not roll to the center. Built for any weight of person. Improve the appearance of the building it up. They will give years of service be comfortable all the time. Do for save the big profit of regulation.

Interlocking Top and Bottom.

Interlocking Top, used exclusive on our All Wire Coil Bed. They are fastened together not by continuous interlocking which divides the strain so that every set of spirals is forced to support the weight. As a result springs are more comfortable durable than any other all wire spring made, and the squeak of other makes of springs have is eliminated. We guarantee springs to neither bend nor break and never become loosened. In softness they have no equal.

No. 1F2815 Price, all sizes **$2.85**

This, our Solid Comfort Steel Coil Spring, has, full size, 120 reverse steel springs (smaller sizes in proportion). Made of the best quality high carbon Bessemer steel wire, oil tempered. The coils are securely fastened at the top and bottom by our patent interlocking construction. We absolutely guarantee these springs to neither bend nor break and never to become loosened. This method of construction permits this spring to be used either side up, and will support persons of uneven weight without sagging or rolling. Heavy steel border wire is used around the edge on the top and bottom. We especially recommend this spring in the interests of our customers in preference to any wood frame spring. Made for either metal or wood beds and specially adapted for wood beds. To fit this spring to a metal bed it is necessary to purchase a set of iron slats. To fit it to a wood bed use the ordinary wood slats. We especially recommend our No. 1F2822 All Steel Coil Spring with angle steel bottom at $3.48 for metal beds, as no slats are needed. **Be sure to state kind and size of bed for which spring is wanted.** Furnished in all sizes. Shipping weight, about 30 pounds.

OUR PATENT STEEL BED SLAT.

For Iron or Brass Beds.

Best quality high carbon Bessemer steel. Each slat is made of four side bars, divided in the center, with hooks at the ends which rest on the side rail of the bed. Adjustable to any width of metal bed. All our springs can be furnished to fit brass or iron beds without using slats, except Nos. 1F2814 and 1F2815. A set (four slats) is needed to fit either of these two all steel coil springs to a metal bed

No. 1F2730 Price, per set of four slats **$1.35**

No. 1F2731 Same slat as above, except it is not adjustable. Price, per set of four slats **$1.19**

When ordering No. 1F2731 slat you must give the exact width of the metal bed, measuring from outside to outside of the side rails when the bed is set up.

Our Waverly Steel Coil Spring, $1.45.

No. 1F2814 Price, all sizes **$1.45**

This size has 120 steel coil cone shaped springs (smaller in proportion). Made of medium weight steel wires, fastened to top and bottom with lengthwise and crosswise wires. Can be used either side up. Finished in black japan. For medium weight persons and will prove very satisfactory. If you want the best spring made of this style, be sure that you buy our Solid Comfort Steel Coil. There is a slight difference in price, for either metal or wood, but when ordered for metal bed it is necessary to have a set of slats, and we therefore recommend for metal beds No. 1F2822 or No. 1F2824 spring, made of the same kind as our Solid Comfort. **Be sure to state the kind and size of bed for which spring is wanted.** Shipping weight, about 30 pounds.

Our Garland Steel Coil Spring, $3.44.

No. 1F2822 Price for iron bed **$3.48**
Price for wood bed **3.44**

Strong and rigid steel base frame. Twelve steel bars securely joined together by three rows of steel braces. Suitable for any weight person. Top in the full size is composed of 120 highly tempered steel spiral springs (smaller sizes in proportion), securely bound together with our patent interlocking top, and fastened at the base to the steel bars. No slats are required with this spring when used on metal beds, and only three wood slats necessary when used on wood beds. Finished in black japan. **Be sure to state kind and size of the bed for which you wish to use this spring.** Shipping weight, about 50 pounds.

Double Deck Steel Coil Spring, $4.75.

No. 1F2824 Price for metal bed **$6.15**
Price for wood bed, without steel frame. **4.75**

This is called a Double Deck Spring because the Bessemer steel spiral springs are about one-third longer than the spiral springs used in single deck steel coil springs. In the full size springs (smaller sizes in proportion) there are 117 of these long highly tempered steel coil springs firmly fastened with heavy steel wires running lengthwise and crosswise. When made for metal beds the springs are fastened on the bottom side to a rigid angle steel frame with heavy steel cross slats. Finished in black japan. No slats required for this spring when used on metal beds. Furnished in all sizes. **Be sure to state kind and size of bed for which spring is wanted.** Shipping weight, about 70 pounds.

WOOD FRAME SPRINGS

Side rails and end bars of our Wood Frame Springs are made of seasoned hardwood, with a coating of good quality varnish. They will not warp nor split. The corner construction is exceptionally strong, being fastened with heavy iron bolts. They can be used on wood or metal beds as desired. **When made for wood beds** the side rails are set at the extreme outer edge of fabric on each side. **When made for metal beds** the side rails are set inward 2 inches from the edge of the fabric, which allows the end bars at each of the four corners to rest on the iron side rail of the bed, and the side rail of the spring to fit inside the side rail of the metal bed.

No. 1F2759 Price for iron bed, all sizes **$1.49**
Price for wood bed, all sizes **1.47**

Side rails of hard maple, with double end bars, to the inner side to which the fabric is attached, and held in place by the tacks. By this method of construction the fabric is not damaged when it becomes necessary. Fabric is a heavy single pencil weave. This spring is good value for the money, but we especially recommend our No. 1F2814 wood beds and our No. 1F2805 or No. 1F2808 spring made of steel and perfectly sanitary and more durable and comfortable. **Be sure to state size and kind of bed for which spring is wanted.** Shipping weight, about 40 lbs. No. 1F2759 Same spring as No. 1F2759, as shown and described without extension bars. Price, all sizes.. **98c**

No. 1F2768 Price for iron bed, all sizes **$1.65**
Price for wood bed, all sizes **1.64**

Frame is hard maple, coated with a good quality of varnish. Four corners are securely fastened with heavy bolts. Wire fabric closely woven with corded edges, and thirteen additional cords in body. Center is supported by fourteen steel spiral springs, resting on wood slats, and fastened to the end bars of the frame with heavy steel bands. Excellent value, but for **wood beds** we especially recommend our No. 1F2814 spring and for **metal beds** our No. 1F2805 or No. 1F2808 spring, made entirely of steel and more durable, comfortable, sanitary, vermin proof and indestructible. **Be sure to state size and kind of bed for which the spring is wanted.** Shipping weight, 42 pounds.

No. 1F2781 Price for iron bed, all sizes **$2.10**
Price for wood bed, all sizes **2.09**

Hard maple frame, firmly fastened at each of the four corners with strong bolts. Fabric has a close mesh, single weave, with corded edges and thirteen inner cords distributed uniformly across the surface. Fabric is supported by three rows of steel coil springs made of the best quality of high carbon steel wire and intercoiled with heavy steel cross wires and border wires, attached to the frame with steel rods and spiral steel springs. All sizes except for the 36-inch bed. **Be sure to state size and kind of bed for which spring is wanted.** Shipping weight, 45 pounds.

BOX SPRING MATTRESSES

OUR BOX SPRING MATTRESSES are made for us by **the largest, best known and most reliable manufacturer of this kind of goods in the world.** Only the very best skilled workmen are employed and the highest grade of materials used. We absolutely guarantee that we will give you a box spring that cannot be excelled in strength, durability and comfort.

THE FRAME is made of **thoroughly air seasoned and kiln dried Northern hardwood,** perfectly joined and firmly bound crosswise with heavy slats. The joints are all glued and nailed, making them absolutely **The illustration shows the frame made with a rabbet edge for use on metal bedsteads, the edges rest upon the side and end rails, thus doing away with bed slats. The edges are made straight.**

SPRINGS are extra long, double cone shaped and made from the best high carbon spring steel, oil tempered. They are securely fastened to the cross slats with heavy staples and tied, cross tied eight ways and knotted at the top with the best quality Italian hemp twine, and then covered with a clean burlap. A heavy rattan extends entirely around the spring, to which the outer row of springs is firmly attached, giving a strength and durability much greater than all other makes of box springs. In our full size box mattresses, except in No. 1F2832, we use eighty springs and a proportionate number in the smaller sizes.

The width of upholstered springs for metal bedsteads is always the **same as the outside measure of the rails,** 54 inches, 48 inches, 42 inches, 36 inches, and the regular length is 76 inches. Springs for a wood bed are regular 1-inch space all around. If the bed spring measures 54 inches by 76 inches, the regular size of spring for wood bed should be 4 feet 4 inches by 6 feet 2 inches. **Be sure to state whether the spring is for a wood or metal bed.** Shipping weight, about 100 pounds.

No. 1F2832 Box Spring With Flax Fiber and Cotton Top. The flax fiber used on the top of this mattress is made from the best quality flax, absolutely clean and wholesome. It is covered with a layer of cotton, and makes a very comfortable and satisfactory filling. Covered with a good grade of sateen ticking. Price **$9.95**

No. 1F2833 Elastic Felt Top Box Spring. Elastic felt, as shown in the illustration, used on our box mattresses is made of pure, long staple white cotton, thoroughly cleaned, carded and woven into sheets or layers the full size of the mattress. These sheets are placed on a foundation of flax fiber and have great tensile strength, softness and resiliency and will not pack, spread or lump, which makes an exceptionally good bed. Covered with a good grade of heavy sateen ticking. Price **$11.45**

No. 1F2836 Long Curled Hair Top. The best box mattress in the market. Read what we say on page 594 about the hair used on the top of a fine flax fiber foundation in our mattresses. This box mattress is made up with the very best quality satin finished ticking obtainable. Price **$13.95**

SANITARY, CLEAN AND HYGIENIC

MATTRESSES

DEPENDABL DURABLE, COMFORTAB

Our CLIMAX BRAND Mattresses are MADE, not "Stuffed." The filling material is placed within the ticking in layers of uniform thickness. The tufting and stitching accurately done. The best mattresses that modern machinery and skilled workmanship can produce.

GUARANTEED QUALITY CLIMAX BRAND MATTRESSES

OUR CLIMAX BRAND TRADE MARK illustrated at the left is printed on a l label and stitched on the end of mattress described on this and the next p Look for the label.

ONE OF THE MOST IMPORTANT ARTICLES OF FURNITURE

and a necessity in the home. In constant use a mattress should have good wearing qualities and should be clean, sanitary and comfortable. Our CLIMAX MATTRESSES are made of new, clean and absolutely pure materials throughout. They are carefully made (not stuffed) by the best modern up to date methods. We manufacture each day more than any six mattress factories combined in this country, which gives us the advantage of an enormous purchasing power in the buying of raw materials, and enables us to use the latest, best improved machinery and the best methods of mattress construction, and employ the best skilled workmen, producing the finished product at the lowest possible cost of material and labor, and our customers get the full benefit. In fact, we have given the manufacture of mattresses the closest, most conscientious and painstaking study, with the idea in view of giving our customers a better made, more rest inviting, absolutely clean, sanitary and more comfortable mattress than is offered by other dealers, and at a considerable saving in price. The immense volume of our mattress business is equaled by no other firm in this country. Every customer who purchases one of our mattresses recommends it to his friends and neighbors, and, as a result, in almost every city, town and neighborhood in this country one or more of our mattresses is to be found.

THE BEST MATERIALS that can be obtained are used in our CLIMAX MATTRESSES, from the lowest priced to the highest priced. We handle nothing we cannot recommend. Hence, so called wool mattresses, which are really made of shoddy and ground rags, are omitted from our list. They are unclean and unfit for use as a bed and we will not make nor sell them.

THE TICKING. However good the quality of the filling, a mattress will prove unsatisfactory IF COVERED with an INFERIOR GRADE of TICKING. The ticking must not stretch nor tear and must be firm and strong enough to prevent a spreading of the mattress. We do not use a ticking that will not stand the test. The grades we use are very closely woven textile fabrics, guaranteed in every mattress to give absolute satisfaction.

THE EXCELSIOR which we use in the construction of our combination mattresses is made from choice, selected white basswood, thoroughly seasoned and dried. By a patented process it is cut and curled into a long spiral shape fiber, after which it is thoroughly screened and cleaned, every particle of dust being removed. The fiber thus prepared is very elastic and absolutely clean and sanitary and is placed within the t alternating layers. The excelsior used by many other dealers is made from "brash" stock, which breaks easily, has no elastic qualities, mats and packs into a shapeless m is worthless. We invite the closest comparison.

THE HUSKS which we use in our mattresses are especially selected corn hu outer rough portion of the husk as it comes from the ear is throw the inner soft layers only being used. By a special process these are cured and cu spiral shape strands and placed in the mattress in even layers, over which pure clea is spread, making a very comfortable, clean and lasting bed. Many other dealers us and inferior grade of husks containing the coarse, rusty outer blades and the whole u the cob. We challenge careful inspection and comparison.

SEA MOSS. A pure vegetable fiber which grows on the bottom of the sea. put through a special drying process the fiber curls into spirals. product of the salt water it has many wholesome and hygienic properties and is excelled for its sanitary and comfort giving qualities. The mere name, sanitary s does not mean much, as there are several qualities of sea moss. Only the very best, imported, has the wearing and medicinal qualities for which it is renowned. We al guarantee our sea moss to be the very best quality, known as A1 brand, which ha dark brown color, is very elastic and not the soggy gray, short stuff, mixed with slo and straw, generally offered by other dealers under the name of sea moss. We a careful inspection and comparison.

THE FELTED COTTON used in the construction of our mattresses is gua to be absolutely clean new cotton. Many dealers poorest quality of cotton linters mixed with a fiber made from old gunny sacks into pulp, and many others use a so called wool which is nothing more than gro Such mattresses are unclean, insanitary, get lumpy and are worthless. We do not under any circumstances. The cotton used in our mattresses is pure and clean been thoroughly ginned and all impurities removed. It is put through a felting which forms it into layers of uniform thickness. It makes an absolutely clean and comfortable bed.

REVERSIBLE EXCELSIOR MATTRESS.

Felted Cotton Top and Bottom. Good Quality Ticking.

Illustration Copyrighted.

No. 1F3108 This Mattress has a filling in the center of the best grade of white basswood ribbon band excelsior of uniform thickness from end to end and from side to side. The top and bottom are overlaid with thick sheets of clean new cotton. It is covered with a good quality of ticking and has full bound edges, closely stitched ends and sides, and diamond tufted. The top and bottom have deep tufts, evenly and accurately placed the same distance apart and held in place with strong tufting stays. This mattress is made, not stuffed. The usual method of filling a mattress ticking, no matter how carefully done, leaves the filling uneven and after being used a short time it is full of bumps. The filling in our mattresses is spread in uniform layers from end to end and side to side, and compressed to the proper thickness. A mattress that can be used either side up and will prove perfectly satisfactory.

HUSK COTTON TOP MATTRESS

Spiral Curled Soft Inner Blades. Felted Cotton Top. Good Ticking.

No. 1F3111 This Mattress is made in three layers. The lower section of the inner soft blades of corn husks, carefully selected, hand stripped and They are thoroughly dried and cured, and by our special process curled into spi strands. The top section is made of clean new felted cotton, below which is a of choice selected white basswood excelsior, to securely hold the cotton felt in pla layer is uniform in thickness throughout the mattress and compressed to t thickness. It is covered with an excellent quality of twill ticking and has dia shape tufts, securely held in place with strong tufting stays. The edges are f and the sides and ends closely stitched.

We specially recommend this mattress as it makes a sanitary, comfortable an able bed and will prove exceptionally satisfactory in every way. A husk cotton tress is generally sold in stores and other channels of trade at $4.50 to $5.00

Size Bed, feet	4½x6	4x6	3½x6	2½x6 3x6	Folding Bed	Crib, 3x5	Crib 2½x4½
Actual Weight, pounds	45	40	35	30	30	20	15

REVERSIBLE HUSK MATTRESS.

Felted Cotton Top and Bottom. Five Uniform Layers. Excellent Ticking.

No. 1F3118 This Mattress is filled with selected Tennessee corn husks, hand cleaned, stripped and curled into spiral shape strands and laid in the center of the mattress in uniform layers. The top and bottom overlaid with thick sheets of clean new felted cotton with a thin layer of fine excelsior between the cotton and the husks to more firmly hold the cotton layers in place. It is covered with a superior quality of strong serviceable ticking with full bound edges, closely stitched ends and sides and with deep diamond shape tufting with strong tufting stays. Each tuft is evenly and accurately placed the same distance apart. Some mattress makers in order to quote a low price use an inferior grade of husks containing the coarse rusty rough outer blade and butts. We use nothing but the choice selected soft inner blades. The wearing qualities and comfort of a mattress are almost double when it is reversible (can be used either side up). WE CHALLENGE THE MOST CAREFUL INSPECTION AND COMPARISON. You will find our husk mattress like the old fashioned kind in material, and constructed by the best modern improved method which insures a perfect evenness of the filling layers and will always be comfortable and durable. We highly recommend this mattress to those who want a serviceable and comfortable bed at a moderate price.

HOW OUR MATTRESSES ARE MADE

IT IS NOT GENERALLY KNOWN that in modern mattress making, labor saving machinery plays an important part. The factory where our mattresses are made (the largest mattress factory in the world) the most improved modern electrical machines are used. The **ordinary mattress makers** smaller factories are not equipped with these wonderful labor saving machines, and as the mattresses made in the ordinary factory cost more to produce and the materials used into their construction are not properly cleaned and prepared.

THE SEA MOSS, corn husks and Florida moss all run through a large electrical machine called "The Picker" and "Blower" which removes every speck of dust, grit and other impurities generally found in even the best grades of these cheaper mattress products sold elsewhere.

THE FILLING MACHINE is the most wonderful invention ever devised for the perfect inner construction or building of a mattress. The usual method of stuffing a mattress ticking, no matter how carefully done, leaves the filling in lumps and after being in use a short time the mattress is full of bumps and hollows. The ideal way has been solved by the filling machine which spreads each layer of filling in a perfectly uniform length, width and thickness, one layer upon another, and compresses them to the desired thickness, after which the ticking is drawn over them, one end of the sewed up ticking having been left open for the filling process.

THE TUFTING. The filling having been properly prepared and placed in the ticking, the mattress is put into the tufting machine, which makes the diamond or biscuit shaped tufts, depending upon the kind of filling used in the mattress. All tufts are exactly alike and accurately and evenly placed the same distance apart.

Puritan Combination Mattress

$3.43

Alternating Layers. Felted Cotton Top and Bottom.

No. 1F3126 Our Puritan Combination Mattress is made of alternating layers of white selected basswood excelsior, thoroughly screened, cleaned and curled into spiral shaped fibers, which makes it soft and springy. The middle layer consists of long hard fibers, above and below which is a layer of fine fibered excelsior. The top, bottom and sides are overlaid with thick sheets of clean new felted cotton. The cover—a very quality firm, strong twill ticking that will not stretch nor tear. The edges are bound with good quality tape, made with diamond shaped full rounded deep tufts, accurately and evenly placed the same distance apart, with strong tufting stays top and bottom. The sides and ends are closely stitched and tufted. The filling in the mattress are uniform in thickness throughout and evenly laid over the other, making each part of the mattress of the same resiliency and rendering it impossible to shift or bunch up. **This is an exceptionally satisfactory mattress.**

$3.92 Home Favorite Combination Mattress

Each Layer of Uniform Thickness. Accurately Tufted, Closely Stitched.

No. 1F3128 This splendid Mattress has seven alternating layers. The center layer is made of the best quality ribbon band excelsior, above and below which is a layer of fine excelsior, curled into spiral shape. Above and below is a layer of the finest quality A 1 brand hygienic sea moss, and lastly on the top and bottom a layer of clean new felted cotton. Each of the above layers is of uniform thickness from end to end and side to side, carefully fitted into the ticking, not stuffed, but laid one upon the other and compressed to the required thickness. We use a good quality twill ticking on this mattress, the edges firmly bound, close deep diamond tufts top and bottom with closely stitched ends and sides with strong tufting stays, insuring a perfectly even surface that will not bunch up nor shift. A feature not found in mattresses made by other makers and offered by other dealers. Clean, sanitary, comfortable and durable. We especially recommend this mattress.

$4.85 Reversible Sea Moss Mattress

Best Quality A 1 Brand Hygienic Sea Moss, Felted Cotton Top and Bottom.

No. 1F3135 This Mattress has a center filling of the highest grade A 1 brand hygienic sea moss, a purely vegetable fiber which grows at the bottom of the sea, thoroughly dried, cured and curled, as fully described at the top of page 594. The top and bottom are covered with thick layers of clean new felted cotton so that the mattress can be used either side up; both sides equally comfortable. Covered with the best quality extra heavy twill ticking with firmly bound edges. The top and bottom have deep full rounded biscuit tufts, all exactly alike, accurately and evenly placed the same distance apart, and the sides closely stitched. Genuine vici kid tufting stays are used on top, bottom, sides and ends of this mattress. We highly recommend this mattress to those who desire a soft, sanitary, serviceable and comfortable bed. Price, full size only **$4.85**

Ideal Combination Mattress

Superfine Quality—Fancy Art Ticking.

No. 1F3139 This splendid Combination Mattress has a center filling of the best quality white ribbon band spiral curled excelsior, thoroughly screened and cleaned. The top side is evenly covered with thick layers of a good quality elastic felt. The bottom side made of a thick layer of hygienic sea moss, as fully described at top of page 594. The layers are perfectly placed and not stuffed, but laid one upon the other in uniform thickness, making an ideal bed, especially suitable for summer or winter; the felt side for the cold season and the sea moss for the weather. A mattress that cannot be excelled for its sanitary and comfort giving qualities. The fancy art ticking used on this mattress is an extra heavy fine quality. Deep diamond shaped tufts evenly and evenly placed the same distance apart. Strong tufting stays used on top and bottom, also the closely stitched sides and ends. Edges firmly bound with best quality of tape. Better than is generally offered in the usual channels of trade at $6.50 to $7.50.

Price	$4.95	$4.85	$4.75	$4.55	$4.65	$3.55	$3.10

HAIR MATTRESSES are made from the hair of various kinds of animals, but mainly from hogs, goats and tails of cows and horses. The hair varies in length from 2 inches to 2 feet, and, consequently, in quality and value according to its length. The long hair is twisted and plaited into ropes and when used is untwisted, forming into a spiral, springy and elastic filling. The shorter hair is generally mixed with fiber, which has the appearance of long hair. Mattresses made from the lower grades become lumpy and uncomfortable.

We consider it economy to buy a hair mattress made from this low grade, inferior material. We presented our Whitmore Elastic Felt Mattress in preference to a low grade hair mattress. If you want to buy a hair mattress and do not care to spend more than $7.50 to $10.00 we gladly accept your order and guarantee to furnish you a far better hair mattress than you can easily procure elsewhere for $10.00 to $15.00.

We would visit our **sample room** it would take but a moment to convince you that we can furnish you a better mattress purchase, no matter what grade or priced mattress you select. We do not sell the lower grades of hair mattresses, because we do not recommend them; but if you place your order elsewhere for one, write to us and let us tell you what we can furnish for the same money we can save you.

No. 1F3161 Hair Mattress. Made of an excellent quality of black or gray curled hair. We guarantee to give entire satisfaction. Covered with a heavy grade of Amoskeag blue ticking. Has standard 4-inch border, full bound edges, closely stitched on sides and ends. Full rounded biscuit tufts. Quality for quality it should be compared with hair generally sold by others at $18.00 to $20.00. Weight 40 pounds, for full size bed **$13.45**

No. 1F3162 Hair Mattress. In this mattress we use a choice quality of black or gray curled hair fiber is longer and of greater softness and tensile strength than will be found in hair mattresses sold by others at $22.00 to $24.00. Covered with a good quality satin finish fancy art ticking, 4-inch border, full bound edges and deep biscuit tufts, accurately and evenly placed. Weight 40 pounds, for full size bed **$16.95**

In our hair mattresses mentioned in the list below we use only the better grade of hair, which is thoroughly cleaned, sterilized, purified and which will make a perfectly elastic, comfortable, sanitary bed. Each of these mattresses has 108 deep, full rounded biscuit tufts, fifty-four on each side, while others have only seventy-eight tufts, thirty-nine on each side. Our tufting is even and accurately done, each tuft held in place with white worsted tufting stays instead of leather tufting stays, which stain the ticking and become loosened and fall out. The money you invest in one of our hair mattresses will prove a **good investment.** They are backed by our binding guarantee of quality and will give years of service, always comfortable and rest inviting.

Full size hair mattresses are usually sold by the pound. 40 pounds being required for a full size bed. In the four mattresses we quote below we have made four selections of hair from many samples submitted to us by various importers and purifiers of hair, selecting from the entire assortment the four qualities which we, with our vast experience, felt that we could safely offer to our customers as exceptional value at the price at which we offer the mattress. There are higher priced hair mattresses sold than ours, but we do not believe they will give you any better satisfaction, and there is no occasion to invest any more in a hair mattress if you simply want a comfortable bed and one that will give you lasting service.

No. 1F3164 Hair Mattress. This mattress is made of an excellent quality of black or gray curled hair. The fiber is of medium length and of firm tensile strength. Best quality satin finish fancy art ticking, firmly bound edges, closely stitched full box sides and deep full rounded biscuit tufts, held in place by heavy cotton tufting stays. Better in quality than any hair mattress sold by others at $24.00 to $26.00. Price, weight 40 pounds, for full size bed .. **$18.35**

No. 1F3168 This Hair Mattress is filled with a super-extra quality of black or gray curled hair. The fiber is of extra length. It is perfectly and evenly distributed throughout the heavy, firm satin finish fancy art ticking. The full rounded biscuit tufts are accurately placed, the edges firmly bound with a full box closely stitched border. A perfectly ideal bed that insures absolute comfort from head to foot. The kind and quality you are asked to pay $30.00 to $35.00 for in other channels of trade. Price, weight 40 pounds, for full size bed **$21.75**

ELASTIC FELT MATTRESSES

GENUINE WHITMORE RED CROSS BRAND

ONE-THIRD OF OUR LIVES IS SPENT IN BED. A good mattress makes a good bed. Why not have the best mattress money can buy? Our Superba Elastic Felt Mattress is the best elastic felt mattress in the world, regardless of name, make or price. We invite comparison of the goods.

$10.45 BUYS OUR LUXURY Genuine Whitmore Elastic Felt Mattress for the largest size bed, full 45 pounds weight, which we guarantee better in material and better in construction than any felt mattress offered by any other dealer, regardless of name, make or price. Smaller sizes and different qualities at still lower prices according to price list below.

HOW DO WE MAKE THE LOW PRICES? Because our margin of profit is very small; because we sell only enough money to cover the actual cost of material and only our one narrow profit; because we sell this splendid article on the same small profit basis as we ask for all our merchandise; because you are not paying us in each mattress about $5.00 to cover rent and magazine advertising expense; because our cost of sales is very low; expenses of doing business very small and we can afford a smaller profit than other dealer could afford.

$6.35 STERLING $7.35 RELIANCE $8.95 DREAMLAND $10.45 LUXURY

OUR CHALLENGE OFFER. If you are thinking of buying a mattress let us induce you to place your order for one of the Genuine Whitmore Sanitary Elastic Felt Mattresses; we want you to select the Superba, Reliance, Dreamland or Luxury in your interest.

DESCRIPTION OF THE GENUINE WHITMORE SANITARY ELASTIC FELT MATTRESS. The latest, most modern development of mattress making today. Made entirely from cotton, but it is the original and wonderful method of treating this cotton that results in its superior qualities. The cotton used is absolutely pure, and throughout the manipulation and treatment of this cotton extreme care is observed to preserve this original purity and keep the material free from every contaminating influence. The cotton is treated by special process of air, dry heat and steam to properly cure, clean and prepare the fibers for successive handling. The carefully prepared material is then thoroughly worked and beaten into loose, flaky sheets, and these sheets are slowly and evenly drawn and spun so that the fibers are stretched to their utmost tension and are then run over felting machines similar to the rotary printing presses, by which twin sheets are formed, one over the other, the fibers of which unite and interlace and join into a perfect single sheet. Before the sheets go over these machines they go through a certain action which naturally curls and curves the fibers, and in the end we have the wonderfully elastic, beautiful, light, airy, interlacing fibrous sheets which eventually form the filling of our genuine felt mattresses.

SANITARY, VERMIN PROOF, NONABSORBENT, WILL NOT MAT, NEVER GET LUMPY, NEVER REQUIRE REMAKING. READ OUR CHALLENGE OFFER.

This illustration is copyrighted.

THESE SHEETS ARE BUILT UP IN LAYERS, carefully fitted into one another, and, unlike the hair mattress, the elastic felt mattress is not stuffed, but is made just as you would make and pack a box. The felt sheets are laid one upon another carefully until the required thickness is obtained and then compressed to a fraction of the original thickness, and in this way the whole mass is interlaced into one sheet of uniform thickness throughout, which is then enclosed in a tick entirely by hand. The pattern of the ticking is carefully matched, the softness is evenly distributed, every square inch possesses the same resiliency and it is impossible for the elastic felt mattress to bunch up, to mat down, to shift or fill in any way. The tufting also is very accurate. The tufts are the same distance apart and of the same tension. The stitching and boxing of border is carefully done. There is no mattress that will compare in thorough workmanship and in the splendid results obtained by this care and skill with the Genuine Whitmore Sanitary Elastic Felt Mattress.

IT IS THE IDEAL BED. Absolutely clean and sanitary, germ proof, vermin proof, nonabsorbent, as far in advance of the ordinary mattress as the electric light surpasses the tallow candle. You will never know what comfort is until you try an elastic felt mattress. You will never realize what a real night's rest means until you sleep on an elastic felt mattress.

REMEMBER the freight to any railroad station in the United States on these mattresses is but a very small item compared with the save in price. We do not quote these mattresses freight prepaid. If we did we have to make higher prices so as to cover freight charges to the most distant point. The customer living 100 miles away will be helping to pay the freight to the customer 500 to 1,000 miles away. The Genuine Whitmore Elastic Felt Mattress full size bed weighs, packed for shipment, about 50 pounds. The freight for 100 miles from Chicago will be about 25 cents, for 200 miles 35 cents, for 300 miles 45 cents, for 500 miles 45 cents and 1,000 miles $1.05, and greater or less distances in proportion, so you see the freight charge amount to practically nothing as compared with what you save in price by buying from us.

None genuine without this trade mark.

THE BINDING on every Genuine Whitmore Elastic Felt Mattress is a special quality high grade tape, with the name "Whitmore" woven in the center, as in illustration.

WHITMORE WHITMORE

SIX MONTHS' TRIAL.

As there are many inferior grades of so called elastic felt mattresses on the market we will, upon request, send postpaid and free of all charges, samples of the ticking and tape used in the Whitmore Sanitary Elastic Felt Mattress, and by comparison you will find it better and cheaper, quality for quality, than any other make.

WE MAKE FIVE GRADES of elastic felt mattresses, the difference in price being due to the relative cost of the felt and ticking. The five grades possess all of the essential qualities of the best elastic mattress made, softness, resiliency, etc.

45 POUNDS

Mattresses Made In Two Parts, 35 Cents Extra.

A FULL WEIGHT MATTRESS SHOULD WEIGH 45 POUNDS. We call special attention to the weight of our mattresses. Our full size mattresses weigh 45 pounds unpacked and the smaller sizes in proportion as shown in the list below. **All weights guaranteed.** Many other dealers offer mattresses as full weight which weigh only 40 pounds. We could sell our mattresses at still lower prices by reducing the weight, but a full weight mattress which weighs only 40 pounds as offered by other dealers is too thin and will prove unsatisfactory.

	For Full Size Bed, 4½x6 ft. 2 in.	For Bed, 4x6 ft. 2 in.	For Bed, 3½x6 ft. 2 in.	For Beds, 3x6 ft. and 2½x6 ft. 2 in.	For Folding Bed.	For Cribs 3x5 ft.

No. 1F3150 Our Sterling Elastic Felt Mattress. This mattress is made of what is known as unbleached felt. The stock is new, clean and sanitary. We guarantee this mattress to be the same grade sold by other dealers at $7.00 to $9.00 and possesses the same qualities found in elastic felt mattresses of this grade. It is covered with a good grade of ticking, full bound and tufted. Our Reliance Elastic Felt Mattresses at the slight difference in price are much better value and our Dreamland Felt Mattress at $8.95 is guaranteed to be a better elastic felt mattress than is offered by any other dealer, regardless of name, make or price.....	$6.35	$6.25	$5.65	$5.25	$4.95	$3.85
No. 1F3151 Our Reliance Elastic Felt Mattress. This mattress is made of an excellent quality of felt which we guarantee will give entire satisfaction. It should be compared with mattresses generally sold at from $8.00 to $15.00. It is covered with a good grade of ticking, full bound and tufted. Has standard 4-inch border and the one-piece 4-foot and 4-foot 6-inch sizes are fitted with two handles on each side for convenience in handling. For the difference in price, we highly recommend this mattress in preference to the Sterling grade.	7.35	7.10	6.75	6.25	5.85	4.45
No. 1F3152 Our Dreamland Elastic Felt Mattress. In this mattress we use a choice quality of elastic felt. It is heavier in weight, of longer fiber stock and tensile strength than you will find in any mattresses offered by any other dealer at $14.00 to $18.00. It is covered with a good quality satin finish ticking, with large cotton tufts, full bound edges, and standard 4-inch border. Many other dealers offer a full size mattress weighing only 40 pounds as full weight. A full weight, full size mattress should weigh 45 pounds to prove satisfactory.....	8.95	8.75	8.15	7.80	7.15	5.40
No. 1F3153 Our Luxury Elastic Felt Mattress. A mattress so far superior to the best felt mattresses offered by any other dealer regardless of name, make or price that it cannot be considered in the same class. Made of extra long fiber white felt of the greatest resiliency and buoyancy. An interwoven and interlaced texture absolutely pure in stock and uniform in thickness. Covered with an extra fine quality satin finish ticking. Top and bottom closely tufted; sides and ends closely stitched, full bound edges and standard 4-inch border. A perfectly ideal bed; every square inch of a springy softness that insures absolute comfort from head to foot. Will not pack, mat nor lump, and will last a lifetime. Full 45 pounds weight.	10.45	10.20	9.60	8.65	8.15	6.45

WE FURNISH THE GENUINE WHITMORE ELASTIC FELT MATTRESS $12.95

THE SAME STYLE AND BETTER QUALITY THAN THE FELT MATTRESS WIDELY ADVERTISED BY OTHERS AT $20.00 AND UPWARD

A GOOD BED **is a physical necessity. An absolutely even elastic surface, soft and springy yet firm, is the necessary quality of a good mattress.** In this Genuine Whitmore Superba Elastic Felt Mattress is attained the absolute perfection of mattress building. The elastic felt used in this mattress is of a special super-extra grade, a snowy white fabric made of the choicest and longest fibers of pure white cotton of the greatest tensile strength and purity. These fibers are rigidly tested and carefully inspected as to their strength and elastic strength, and by a special scientific chemical process every trace of impurity is removed and rendered absolutely germproof, mothproof, vermin-proof and waterproof. The carefully prepared material is lightly blown apart and by mechanical rotary air pressure is made into loose, flaky sheets. The sheets are then fed into a mammoth felting machine, the fibers are drawn, curled and formed into double sheets, each joining and interlacing one within the other into a perfect sheet wonderfully elastic, beautiful, light, airy and absolutely sanitary and perfectly nonabsorbent. These thick, elastic, snowy white sheets are then laid one on the other, compressed to about one-fifth their original thickness and enclosed in the best quality satin finish ticking, cut to match, top and bottom, sides and accurately stitched and tufted. In purity of stock, perfection of construction, comfort giving and wearing qualities this mattress cannot be excelled at any price. With an extra wide 5-inch border, and the one-piece mattresses, 4-foot and 4-foot 6-inch sizes, are fitted on both sides with handles, as shown in the illustration.

SIX MONTHS' FREE TRIAL OFFER. **Send us your order for this Genuine Whitmore Superba Elastic Felt Mattress, enclose the price, $12.95, and when you have received it, compared, examined and tested it,** by sleeping on it for six months, we give you the privilege of returning it to us and we will immediately return your money together with the freight charges.

Illustration Copyrighted.

BETTER STILL, at the same time you send us your order for this splendid mattress send your order to any other dealer for any other mattress, regardless of **name, make or price,** and when you receive them place them side by side, examine the filling, the ticking, the sewing, the tufting, and if, after comparison, test and trial, you do not find our mattress far superior in every way you may return it to us and we will at once return your money together with the freight charges.

THE ILLUSTRATIONS OF ELASTIC FELT MATTRESSES generally shown are made from pen drawings or sketches. The artist and engraver exaggerates certain features of material and construction, picturing them as he thinks they should look and not as they really are, and the mattress you receive does not correspond with the picture. This illustration at the left is an exact photographic picture of a completed mattress opened at one end and shows the precise relative thickness and elasticity of the beautiful snowy white, light, airy, sanitary, nonabsorbent fibrous sheets, the uniform tufting, binding, stitching and ticking as it actually will be found in the Genuine Whitmore Superba Elastic Felt Mattress when you receive it.

SANITARY ELASTIC WHITMORE FELT MATTRESS · SANITARY · WILL NOT MAT · VERMIN PROOF · NON-ABSORBENT · NEVER GETS LUMPY · HAND MADE FILLING · NEVER REQUIRE REMAKING

NONE GENUINE WITHOUT THIS TRADE MARK.

Every mattress bears a genuine Whitmore trade mark label, of which the above is an exact copy. Shipped direct from Chicago to our customers.

LOOK INSIDE. **You will find a sample of the special super-extra grade of snow white elastic felt used in this mattress attached to the outside of the ticking when packed for shipping.**

TUFTING **of the Genuine Whitmore Superba Elastic Felt Mattress is perfectly done.** Each tuft is of the same size, space and tightness of tension, of the quality of hemp twine and cotton stays absolutely guaranteed not to pull or fall out. This insures an absolute uniformity of thickness, softness and elasticity when every square inch exactly duplicates the other, making a perfect and comfort from head to foot.

WHITMORE WHITMORE

THE BINDING **on every Genuine Whitmore Elastic Felt Mattress is a special quality high grade tape,** with the name "Whitmore" woven in the center, as shown in this illustration.

THE TICKING. **The best quality heavy satin finish ticking is used on this Genuine Whitmore Superba Elastic Felt Mattress.** A very closely woven textile fabric in beautiful ecru linen colors, exceptionally neat and attractive in appearance, will not soil easily, and wearing qualities cannot be excelled. Should the ticking become soiled through any cause, soap, brush and water will cleanse it thoroughly and will not hurt the filling, because it is nonabsorbent.

THE WORKMANSHIP. **Perfect accuracy in the cutting and matching of the ticking, careful stitching and boxing of the border all combine to make the best mattress that human brain can devise and skilled workmanship produce.**

50 POUNDS

We call special attention to the weight of this Superba Elastic Felt Mattress. It weighs **fifty pounds,** unpacked, in the full size, other sizes in proportion, as noted in the price list below. **All weights** are guaranteed. Many other dealers offer mattresses as full size which weigh only 40 pounds. We could sell our mattresses at still lower prices by reducing the weight, but a full size mattress which weighs only 40 pounds as offered by other dealers is too thin and will prove unsatisfactory.

No. 1F3154
ORDER BY NUMBER. BE SURE TO STATE SIZE WANTED.

This illustration is an exact photographic reproduction of our Superba No. 1F3154 Mattress ready for use.

REMEMBER, THE FREIGHT TO ANY RAILROAD STATION IN THE UNITED STATES on this mattress is but a very small item compared with what you save in price. We do not prepay mattress freight prepaid. If we did we would have to make higher prices to cover freight charges to the most distant points, and the customer would be helping to pay the freight to the customer 500 miles away would be helping to pay the freight to the customer 500 miles. This mattress weighs, packed for shipment, about 55 pounds. The freight for 100 miles from Chicago will be 25 cents, for 200 miles 35 cents, for 300 miles 45 cents, and for 1,000 miles $1.05, and greater or less distances in proportion, so you see the freight charges amount to practically nothing when compared with what you save in price by buying from us.

SAMPLES FREE

If there is any doubt in your mind of the superior quality of the Whitmore Superba Elastic Felt Mattress as compared with any other felt mattress, regardless of name, make or price, do not order any felt mattress until you have sent to us for a sample of the ticking and the super-extra grade of snowy white elastic felt, which we will be pleased to send to you upon request, postpaid and free of charge. Compare the felt and ticking furnished by any other dealer and you will find the elastic felt used in the Genuine Whitmore Superba Elastic Felt Mattress so far superior in length and textile strength of the fiber, in springy softness and elasticity, and in the snowy white purity of color that it is in a class by itself, an unequaled and unrivaled mattress filling.

FEATHERS AND PILLOWS

THE ESSENTIAL QUALITIES OF A GOOD PILLOW. A perfectly satisfactory pillow must be absolutely clean, sanitary and odorless. It should be resilient and buoyant, with a springy softness to insure perfect comfort and the best sleep inducing qualities. Feathers when taken from the fowl contain oil and animal matter on the stem or quills. This must be entirely removed, for, if left on the quill, it will decompose and a foul smelling and unsanitary pillow is the result. Every feather we sell in the bulk or in the pillow is cleaned and purified by our special process. The feathers are placed in large metal drums and subjected to alternating currents of hot and cold blasts of air, which removes all the animal and foreign matter and renders them clean and wholesome. The life, resiliency and buoyancy of the feathers are increased fully 50 per cent by this special process.

OUR FEATHERS AND PILLOWS, from the lowest price to the highest price, are pure, clean, sanitary and wholesome, the equal in quality of those offered in the best and most exclusive large city stores at a price one-third to one-half more than we ask.

OUR LOWER GRADES OF FEATHERS AND PILLOWS, consisting of chicken, duck and mixed feathers, you will find clean, sanitary and wholesome. They are backed by our binding guarantee of quality. But we wish to call your special attention to our Purity Brand Feathers and Pillows. They are a specially selected extra superfine choice quality (the coarse feathers all being taken out) with the greatest possible filling capacity, buoyancy, resiliency and softness. In the perfect purity of stock they cannot be excelled.

PRIME WHITE LIVE GOOSE FEATHERS. These feathers are a special super extra grade of pure snowy white color. Small in size with a slender stem and more curl in shape than any other feathers. The top of the plume is the finest fiber and the lower part the natural down. The animal oil is entirely removed and they have the greatest buoyancy, softness and resiliency. Light, airy, absolutely sanitary and non-absorbent, they make the best pillow it is possible to obtain.

TURKEY. DUCK. WHITE GOOSE. GRAY GOOSE. CHICKEN.

THE ILLUSTRATION above is an exact photographic reproduction of the five different kinds of feathers used in our pillows.

OUR PURITY BRAND TRADE MARK as illustrated above is stitched on the ticking of each pillow and stenciled on the outside of the muslin bag of feathers of the several grades, as mentioned in the list below, as follows: No. 1F2966, No. 1F2969, No. 1F2971, No. 1F2976, No. 1F2983, No. 1F2987, No. 1F3003, No. 1F3005, No. 1F3008 and No. 1F3012.

OUR PURITY BRAND FEATHERS AND PILLOWS. Each one of the grades of our Purity Brand Feathers and Pillows, as mentioned in the list below, is extra choice in quality. They are specially selected, have the largest filling capacity and buoyancy per pound, and without doubt or question are the most cleanly, sanitary, sweet, pure and wholesome product that can be obtained.

PRIME GRAY LIVE GOOSE FE These feathers are plucked from the fowl; are a little larger in size with a coarser stem and less curl than the pri live goose feathers. The wing, tail body feathers are all taken out of th In softness, elasticity and buoyan feathers are excelled only by our Pri Live Goose grade. The animal oil is removed and they are absolutely pure and odorless.

PRIME LIVE DUCK FEATHER feathers have a filling capacity, a buoy softness almost equal to live goose In their original state when plucked live fowl they contain more oily anima In this grade the coarse wing, tail feathers are all eliminated. Every of oily animal matter is removed by curing process of subjecting them to al currents of steam, hot and cold a renders them absolutely odorless, and hygienic.

TURKEY FEATHERS. In this grade the feathers only are used. The quill or stem is removed from the plume of the feather machinery which also eliminates the oily anima as this oil is lodged on the stem. The fiber of part of the plume is coarser in texture than feather, but the lower part has a soft down **This feather, by our special process of curing, buoyant, soft, odorless, wholesome and re makes a very satisfactory pillow.**

CHICKEN FEATHERS. In the preparati feathers for pillows the same special care is the better grade feathers. The large coarse removed, the smaller dry plucked ones only They are subjected to our special process, cured by steam, hot and cold blasts of air to increase their buoyancy and filling ca feather is guaranteed odorless, sanitary and will make a satisfactory pillow at a very

Steam Cured Feathers.

COTS, CRIBS AND CRADLES

We call special attention to the construction of our Cots, Cradles, Cribs and Folding Beds, as they are all made with screw construction so that when shipped they are packed in a condensed and small package, thereby greatly reducing the freight charges. Anyone can set up our cradles, cots or folding beds without any difficulty, as the parts do not require special fitting. K. D. means knocked down, or in other words, in parts. By shipping goods knocked down the freight charges are greatly reduced.

NEWEST UP TO DATE DESIGNS

UPHOLSTERED FURNITURE

BEST QUALITY

NO ARTICLES of furniture in the modern home are more important than a parlor suite, divan, fancy chairs and couch. No class of furniture offers so great an opportunity for deception as upholstered furniture. It is not enough to say that a piece of parlor furniture is attractive in appearance. The essential qualities of a perfectly satisfactory piece of upholstered furniture are strength and durability of construction in the frame and spring work, lasting and serviceable wearing qualities in the coverings, combined with beauty and harmony of design. In our upholstered furniture the frames are made of thoroughly seasoned wood. They are mortised, glued and fastened in a dependable, workmanlike manner, insuring substantial and lasting wearing qualities. The surfaces are sanded smooth, the carvings carefully cut and cleaned, the wood filler and varnish used are of the high standard of quality that insures a clear, transparent color and sheen that does not readily become dull with age. The springs are made of the best quality high carbon steel and are fastened at the top and bottom in the strongest possible manner. On page 602 we fully describe the construction of the spring work used on all our couches, and on page 611 the springwork used on our parlor suites, divans and fancy chairs.

THE FRAMES OF OUR COUCHES are made of carefully selected thoroughly air Northern hardwood. The broad side rails are faced with handsomely figured quarter veneer, a method of frame construction adopted by all makers of strictly first class furn this method of construction shrinkage, warping or checking is prevented and the l grain of the wood is brought out.

THERE IS A REASON for the immense volume of sales in our upholstered Quality for quality, style for style, in every couch, divan and fancy chair we save our customers fully one-third in price as against what have to pay other dealers. We contract direct with the manufacturers and ship direc factory. Our price is the factory cost with but one small profit added. Remember th from three to four additional profits when you buy in the regular channels of trade. or traveling man's commission, the jobber's profit and the wholesaler's profit are all from the price we ask.

THE COVERING MATERIALS

To give our customers a better understanding of the materials which we use in upholstering our furniture, we give below a description of t ture of the different materials. When parlor suites are upholstered in Velour or Figured Silk Damask, each piece comprising the suite is upholst different shade, but all shades are selected with great care so they will harmonize. We will furnish the entire suite in the same color throughout if desired recommend a combination of colors except in materials which can be procured in only two colors, such as Brocaded Velour, Verona Plush, Crushed Plush Plush. When these materials are used it is advisable to have the suite upholstered in the same color throughout.

FIGURED VELOUR.

Our high colored figured velour is a cloth universally known and is the kind of covering most generally used. It is woven like velvet, but with a higher and heavier pile, is soft and has the velvet effect. The high colorings are put into the ground of the cloth by an extract process. The body colors are red, green or brown, and the pattern combinations of artistic colors, which make the total effect very striking. There are many grades of velour on the market, but WE USE NONE BUT THE BEST.

PLAIN BROCADED VELOUR.

Plain brocaded velour is an entirely new covering for upholstering purposes, and has thus far proven to possess most excellent wearing qualities. The body of the cloth is woven in a block pattern of one solid color with a raised effect. It has a raised nap the same as in plush. An exceptionally desirable and attractive covering. We can furnish plain brocaded velour in solid colors of myrtle green, deep red or tobacco brown.

FIGURED SILK DAMASK.

This material has been used for many years and has proven very desirable covering for parlor suites, fancy chairs and rockers. The cloth is made up of handsome flowered designs woven into the cloth and not printed. Yarns are well selected and dyed before being woven into the tapestry, thereby producing fast colors. Flowers are all silk on a mercerized background, giving it a rich and lustrous appearance that will outwear the all silk damask. The cloth is made up of colors to harmonize, and when made into suites, a different ground color is generally used on each piece. Our customers can select a color for each piece if desired, as all furniture is upholstered after the order is received, but we advise leaving selection of color to the manufacturer, who employs the most skilled mechanics with many years' experience.

BROCADED VERONA PLUSH.

This luxurious fabric is one of the handsomest coverings for high grade furniture which it is possible to procure. It is made with a raised figure of handsome floral design in two colors, combinations of green and black or red and black with background to match the body of the cloth. The large floral figure is made with a long nap, the same as the finest plush cloth and is extra heavy. Only the strongest colors are used, giving the furniture when finished a most luxurious appearance.

EXTRA FINE QUALITY CRUSHED PLUSH.

This covering is universally known and is made in several different grades. We use an extra fine quality of this covering. It is made of a specially selected high grade fur with extra long nap, very closely woven into the cloth and the entire piece put through the crushing process, which brings out the rich shaded effects of this splendid covering. The color is absolutely fast and guaranteed not to fade. The splendid wearing qualities of the extra fine quality of this covering which we use cannot be excelled. We want you to compare this splendid high grade EXTRA FINE QUALITY of crushed plush with the ordinary grades of crushed plush generally used by other manufacturers, and you will readily note the better texture, longer nap, closer weave and better colors in the cloth used on our furniture. Furnished in dark red, dark olive green and dark golden brown colors only.

FANCY BROCADED PLUSH.

This is one of the very latest and most desirable weaves in coverings for upho furniture. The nap of the cloth, which is very long, is woven in fancy block pat combinations of green and black, red and black, tobacco brown and black with a background in a terry effect to correspond with the nap. This cloth is very heavy of selected materials and coloring, and is used only on high grade furniture. It teed to have exceptionally good wearing qualities and is a handsome, strikingly material that is sure to please.

BROCADED SILK PLUSH.

No upholstery material which we furnish can compare in richness and style caded silk plush. The nap of the cloth is made of silk woven into handsome figu a backing slightly mixed with cotton, which makes it more durable than the all fur and the yarns used are dyed before being woven, which makes the colors abso It has proven exceptionally satisfactory and is used only in the manufacture of the class parlor suites. Furnished in myrtle green and dark red colors only.

PLAIN SILK PLUSH.

Plain silk plush is one of the most popular upholstery materials used for par fancy chairs and rockers. It is especially attractive when used as coverings The nap of the cloth is made of the finest silk yarns, woven very close, and has urious velvet sheen. It is all silk and the yarns are dyed before weaving, this colors absolutely fast. We furnish this handsome covering in olive green or solid colors, either of which will harmonize with almost all surroundings.

PANNE PLUSH.

This is one of the most attractive and best wearing coverings used in the up furniture. It has a heavy linen warp with a silk nap, very closely woven. It lustrous appearance. It is used only on high grade furniture and is specially ada covering of loose cushions used on three-piece parlor suites. This cloth is very he please the most exacting taste. We furnish this covering in dark olive green, solid which will harmonize with almost all surroundings.

CAR PLUSH.

Car plush is one of the best staple coverings that has ever been produced. It name, car plush, from the fact that it is so extensively used in covering car especially selected for this purpose on account of its durability. Fabrics that l do not wear well soon go out of style, but a couch covered with car plush is alway and will look well and wear like leather.

There are many grades of car plush, some being made with the pile of the clo and mohair mixed, others with cashmere and mohair mixed, or in other combinat cheapen the cost of production. We use only the very best grade of genuine a plush, which is the only fabric that will hold its color absolutely, and there is no even including wool, silk or linen, that will hold its color as well as mohair. We it not to fade. We can furnish it either in deep red, myrtle green or tobacco brown

THE LEATHER WE USE. Owing to the many inferior grades of leather offered by some dealers and called No. 1 leather, we are illustrating and describing the different grades of leather obtained from a hide, in order that our customers will not be deceived by any of the inferior couches, davenports or other parlor pieces offered at a much less price.

IN THE ILLUSTRATION, the part marked No. 1 shows the outside of the hide, which has a natural grain and a soft, pliable surface, and is known as the A grade best quality genuine No. 1 leather. It is the best and most desirable, and it is the kind (or grade) which we use. The part marked No. 2 leather is not so soft and pliable, has an artificial grain, is very susceptible to heat and cold, and is likely to crack and lose its finish. This is the grade commonly used by other dealers and called genuine leather. The part marked No. 3 is called split leather. It is soft and spongy, also artificially grained and cracks or peels very easily with use. This part of the hide is worthless as an upholstery covering.

THE A GRADE GENUINE No. 1 LEATHER used on our couches, davenports and other furniture is especially selected stock of the choicest quality. The B grade leather used by us is a much better quality than is generally sold by others and called genuine leather.

IMITATION SPANISH LEATHER. This upholstery covering is one substitutes for leather that has produced. The body of the material is made of heavy sateen fabric, on the upp which is a coating of leatheroid beautifully grained in a perfect imitation of Spani It is soft and pliable and is guaranteed by the manufacturer not to crack or peel. it in two colors, dark olive green and dark red. A couch covered in Imitation Spani is exceptionally attractive in appearance and will give excellent service. Be sure to desired, otherwise we ship dark olive green.

FABRICORD LEATHER is one of the greatest inventions brought out years. It serves as a substitute for leather in up furniture, and can be produced at a very much lower cost. The body of this mater of heavy sateen fabric, coated, finished and grained in exact imitation of the finest hand buffed black leather and is guaranteed by the manufacturer not to crack nor pe much has been said about the lasting qualities of Fabricord Leather; in fact, the m ers of the material are so outspoken in the matter that they declare it will wear ful as genuine leather, and we do not hesitate to state that it will certainly wear far be any of the inferior grades of leather, and in appearance it takes an expert to detect ence between it and leather. We have used Fabricord Leather in the manufac couches ever since it was first put on the market and have found it to give abso faction.

Compare the EXTRA FINE QUALITY, the Harmony, Beauty and Fastness of Color, Closeness of Weave and Firmer Textile S of the High Grade Coverings We Use on Our Upholstered Furniture with the Ordinary Grade Generally Used By Other D

BE SURE TO READ THIS

We give above a description of the textures of some of the different materials used on our upholstered furniture, and while the descrip no doubt give an excellent idea of the nature of the materials, yet it is impossible to fully describe the handsome designs and harmonious colors of our fai couches, divans, davenports, rockers and chairs, or the beautiful new textures which are produced from season to season by the manufacturers who make of work a specialty. In order to make it possible for our customers to see exactly what materials are used, we have made special arrangements with the turers of the upholstering goods to supply **extra large samples** from which to make a selection. **Be sure to return the sample of covering** you the order. It will prevent any mistake with pattern or color. All our upholstered furniture is made up after your order is received. About ten da required before shipment is made.

SAMPLES FREE. If there is any doubt in your mind of the superior quality of the covering materials used on our upholstered furniture, as compared with those offered by any other dealer, regardless of name, make or price, DO NOT ORDER any upholstered piece of furniture until you have sent to us for a sample of the covering materials used on our upholstered furniture, which we will be plea you upon request, postpaid, as explained below. Compare them with those fur other dealer and you will find the covering materials used on our furniture so fa figured pattern, harmony, beauty and fastness of color, closeness of weave and te that they are in a class by themselves.

By special arrangement with the manufacturers of the different materials used in our Upholstered Furniture Department we are able to furnish complete sets of the different kinds of materials in the different shades used on our upholstered furniture. These sets are made up of extra large pieces and will enable you to make a selection of the material and color which you desire far better than you could without the samples or from a description only.

SET No. 1 consists of the extra large sample coverings for Parlor Suites, odd Rockers and Chairs. This set contains samples of Figured Velour, Plain Brocaded Velour, Floral Brocaded Velour, Fancy Brocaded Velour, Brocaded Verona Plush, Crushed Plush, Brocaded Silk Plush, Silk Brocatelle, Silk Damask and many other new and novel coverings suitable for this class of furniture. The samples show the full pattern or figure of the goods and all the different colorings in each particular pattern. This complete set will be sent to you by mail, or express, prepaid, on receipt of $1.00 and when they are returned to us at our expense we will return your $1.00, or if you send us an order at the same time you return the set of samples we will allow you $1.00 on your order.

SET No. 2 contains extra large sample coverings for Couches, Davenports, Roman Davenports and Bed Couches. This set consists of large pieces of Figured Velour, Corduroy, Plain Brocaded Velour, Fancy Brocaded Plush, Crushed Plush, Brocaded Verona Plush, Car Plush, and other new and handsome materials suitable for this class of furniture. These samples show the full pattern or figure of the goods and show all the different colors of each particular pattern. This complete set will be sent by mail or express, prepaid, on receipt of $1.00, and when they are returned to us at our expense we will return your $1.00, or if you send us an order at the same time you return the set of samples we will allow you $1.00 on your order.

BE SURE TO STATE whether you want Set No. 1, showing sample covering for Parlor Suites, Rockers and Chairs, or Set No. 2 for Couches, Davenports and Bed Couches, as the materials in these sets are not alike and we send but one set upon receipt of $1.00. If you want to order a Parlor Suite, Rocker or Chair and a port or Bed Couch, we recommend that you send $2.00 and get both sets on the sa as we offer one set.

REMEMBER THAT IT COSTS YOU NOTHING to see the goods on your money is refu on your order and the samples are sent prepaid and are returned at our expense. gladly furnish either of these complete sets of large samples without asking the but you can understand that there are a great many of these large samples large amount of material is used to make one of these complete sets of samples, th of each set being more than $2.00, and only as an evidence of good faith we deposit of $1.00 for each set.

SPECIAL SETS OF SMALL SAMPLES. We also furnish free, without deposit, small sets of samples of covering used on all of our upholstered furniture. The small samples show the color of the material, but only a part of the figured pattern of the goods. If desire any of these small samples, be sure to state the catalog number of the furniture and the kind of covering desired. They will be mailed to you at once

DO NOT DELAY YOUR ORDER by writing for samples, since you from the descriptions given ab different covering materials which we use in upholstering our furniture. We that you should order direct from this catalog and these descriptions wit or writing for samples and we will send the goods to you with the distinct understa agreement that they must reach you in perfect condition and that they must pro satisfactory to you and that you will find that you have made a big saving in price the goods can be returned to us and we will promptly return your money.

THERE IS A BIG DIFFERENCE IN THE METHODS OF COUCH CONSTRUCTION

COUCHES

IT IS THIS DIFFERENCE THAT COUNTS IN THE YEARS OF SERVICE

THE LATEST, BEST AND MOST POPULAR STYLES—FRAMEWORK, SPRINGS, COVERINGS UNQUESTIONED IN QUALITY

Our Couches are built to wear, to give perfect comfort and satisfaction with constant daily use. The frames are strong and right. Made of seasoned wood in the popular golden finish. In the coverings, springs, canvas and stuffing we use a much better grade of material than is generally used by the average manufacturer. The materials are purchased in carload lots. We want you to read every word we say about the style and quality of our upholstery coverings on page 600. The price to you is the actual manufacturing cost with only one profit and we save you at least one-half in price. We take almost the entire output of one of the largest and best known couch factories in the world. One is located in a suburb of Chicago, the other in Central New York, and we ship your couch from the factory nearest your railroad station. Every couch is shipped under our binding guarantee of quality.

THIS PICTURE SHOWS OUR GUARANTEED INDESTRUCTIBLE ALL STEEL SPRING CONSTRUCTION.

Our Guaranteed All Steel Spring Construction.

The high grade of wire used is a guarantee of the lasting qualities of the spring construction which we use in all of our better grade couches, as mentioned in the description of each number. When no mention is made of the all steel construction we use the old method of tying the springs with twine. The number of springs used is mentioned in the description of each couch and varies according to the style. Every spring is cone shape and drawn from the best high carbon spring steel wire. The springs on the bottom sides are coiled and set into steel band irons which run crosswise on the bottom and are fastened to the top of the side rail and can never get loose. They are reinforced with a steel wire running lengthwise on the bottom into which the springs are intercoiled. The top of the spring is tied and cross tied with steel wire. Clean, sanitary, can't break loose. Always comfortable.

Look! Only $7.95

A Regular $12.00 Couch Elsewhere.

No. 1F3438

Just look at this big value before you buy a couch elsewhere! Our style speaks for itself and if every customer knew the reliable quality of the framework, springs and coverings as we know them there would not be the slightest chance for any dealer to sell you a higher quality at a much higher price. The frame is made of carefully selected hardwood, veneered with quarter sawed oak, in a golden color, high gloss finish. Deep carvings made of oak, heavy claw feet. It is 74 inches long and 27 inches wide, roll edges with seven rows of deep tufts securely fastened with celebrated steel tufting buttons, guaranteed not to pull. It has our indestructible all steel construction, as described on the top of this page, with twenty-four springs in the body and 4 springs in the head, twenty-eight springs in all. Springs are tied with heavy duck canvas. Filling is the best quality flax fiber and clean new cotton. The upholstering materials are carefully selected from the latest patterns, as fully described on page 600. We ask you to compare this splendid couch with any couch offered by others at $12.00 to $14.00. Casters furnished with each couch. Shipped with legs detached from factory near Chicago or Central New York. Shipping weight, 90 pounds.

THE HIGHEST QUALITY BED COUCHES

A BIG SAVING IN PRICE

OUR BED COUCHES embody all the new ideas in bed construction. They supply the want of an extra bed where it is impossible to have a regular sleeping bed, and when not in use as a bed are equally well as a high grade couch.

THE WOOD seasoned and kiln dried, guaranteed against warping or shrinking.

The high grade woven wire spring supported by steel coil springs on both sides and center, used on our bed couches, is a marked improvement from bed couches made by other makers. **A comfortable, durable spring is** not in a **satisfactory bed.** Each couch can be easily converted into a bed by unfolding the back, which is securely hinged to the lower section.

THE LEGS on all our bed couches are detachable, being fastened to the frame by heavy bolts, and are easily put on. Shipped with the legs detached, thereby saving the freight charges 25 to 40 cents each.

Illustration shows No. 1F3604 open with removable mattress.

Our Patent Removable Mattress

The picture at the left shows our Patent Removable Mattress. Comfort, cleanliness and durability are combined in this bed couch mattress. The wonderful superiority of this mattress over the regular bed couch mattress cannot be fully appreciated until seen, examined and compared with the bed couch mattresses used by other dealers. Made with full bound heavy ticking, guaranteed not to stretch or tear. Filled with flax fiber with cotton, securely tufted and stitched. Attached to the sides of the frame by a very simple device and can be detached for airing with little effort. No bed is absolutely perfect, from a cleanly and hygienic point, unless it can be taken out frequently and given a good airing.

If you do not find our Patent Removable Mattress, together with the high grade woven wire spring with steel coil spring supports, cleaner, more durable and more comfortable, in fact, worth many times the slight additional cost, you may return this bed couch to us and we will immediately return your money together with transportation charges. **We furnish any bed couch or bed lounge on this page with our Patent Removable Mattress at $1.00 more than prices quoted.**

No. 1F3604

No. 1F3604 Frame is made of seasoned hardwood, veneered with quarter sawed golden high gloss finish. Smooth cut carvings, full spring seat. The bed has extra quality woven wire mattress, supported by steel coil springs on both sides and center of bed, covered with cotton top mattress attached to the frame, or if desired, with our patent removable mattress. Bed open is 72 inches long and 30 inches wide. Couch closed, 24x72 inches. On page 600 we describe the coverings for this couch. Shipping weight, 140 pounds.

ROMAN DIVANS

THIS COMBINATION PIECE is a modern invention, but its general utility has been quickly recognized. It is exceptionally useful on account of the numerous ways in which it may be utilized. Either end can be lowered to any angle desired by an automatic attachment; in so doing there are no straps or strings to pull. When ends are lowered for use as a couch, as shown in illustration, it is as comfortable as any couch, being as long and wide as any regular couch. When in use as a divan or sofa it cannot be excelled for comfort.

HOW TO OPERATE. In order to lower the arms raise them to their upright position and by pushing them still a little higher the automatic ratchet will disconnect and the arm will lower to a level, and it can then be raised to any position desired.

THE FRAMES are made of thoroughly seasoned wood, specially selected to secure a fine grain and we guarantee them not to warp or shrink.

Each Roman Divan can be opened like this.

This picture shows No. 1F3641 with arms lowered as a couch.

No. 1F3641

THE SPRINGS are the best carbon steel coil springs securely fastened top and bottom and covered with duck canvas and filled with a fine of tow and thick layer of elastic The deep tufts are made with our metal tufting buttons guaranteed pull out.

THE COVERINGS are selected their wearing qualities and the and harmonious effects are fully de on page 600. You will find our are more lasting, more satisfactory least one-third lower in price than thing offered by other concerns proaches our goods in quality and

THE LEGS on all our Divans are det being fastened to the frame by and are easily put on. Shipped and back detached, thereby much lower freight rate.

All the pieces on this page shipp factory in Central New York Chicago, according to location of thereby insuring the lowest freight

LEATHER TURKISH ROCKERS

The Best Quality

Every home should have at least one Turkish overstuffed rocker. It is made for hours of ease and solid comfort. The resiliency and springiness will bring complete relaxation and luxurious repose. Such rockers in the past have always been sold in the furniture stores at fancy high prices.

The Seng Spring which we use on our rockers, except Nos. 1F3812 and 1F3821, is the strongest, most durable and most comfortable spring ever devised. It is, in fact, a spring and rocker combined, for it not only rocks with an easy rhythmic motion, but supports the entire chair. In fact, the Seng spring is to Turkish leather rockers what the pneumatic tire is to the automobile—absorbs the shock and jar, doubles the comfort and enduring qualities of the rocker. Leather Turkish rockers well designed and fitted with a Seng spring are positively the most luxuriously comfortable rockers it is possible to make, the easiest easy rocker ever made. They are upholstered with the best quality high carbon steel coil springs, securely fastened at the top and bottom, making the strongest and most durable construction. The genuine leather and fabricord imitation leather coverings used on our Turkish rockers are fully described on page 600.

This illustration shows the Seng Spring attached to the platform base.

Dependable Material, Construction and Finish.

DAVENPORT BED SOFAS

Easily Operated.

HOW THEY ARE MADE.

Frame made of thoroughly seasoned wood, carefully selected and well finished. The panels in the ends and the front rails as mentioned in the description of each piece are made of three-ply built-up stock, faced with quartered oak veneer. A method of frame construction adopted by makers of strictly first class furniture. Built in four sections. The ends bolted at the four corners to the box frame of the seat. The seat and back built on a separate hardwood frame are attached to the back posts and sides with our patent automatic ratchet folding attachment; a mechanically perfect device. Easiest of operation and absolutely will not get out of order. Below the seat of each davenport is a roomy box the full length and width of the seat, which will hold the bed clothing necessary for a comfortable bed. The length between the arms is full 6 feet, allowing ample room to recline as on any couch with the use of a sofa pillow.

This Picture Shows No. 1F3655 Opened for Use as a Bed.

THE SEAT AND BACK.

Supported by our all steel indestructible spring construction, except No. 1F3643 and No. 1F3644, which have the hand tied twine construction. The springs are covered with a good quality of duck canvas. When upholstered in leather the filling is a good grade of hair; when upholstered in the cloth coverings, a fine quality fiber and felted cotton is used. When upholstered in le fabricord (imitation leather), the tufts are diamond sh shown in No. 1F3643 and when upholstered in the cloth the tufts are biscuit shape, as shown in the illustration 1F3644.

HOW TO OPERATE.

The illustration to the left shows our No. 1F3655 made a bed, 72x45 inches. All our davenport bed sofas open same manner. Each one is fitted with an automatic d which it is easily converted into a large size bed and ba to a davenport sofa. To change into a bed, raise the seat is counterbalanced; when seat is raised the back lowe matically; when back is on a level push seat up until ratchet clicks. The seat can lowered to a level, completing the bed. To change back to a davenport, raise the the ratchet clicks, then bear down on seat and the back will raise and the seat low matically; simple and easy; nothing to get out of order, and can be operated by

Prices That Mean a Big Saving to Our Customers.

COLLAPSIBLE GO-CARTS

Handsome Design Latest and Best Improvements

THE ESSENTIAL FEATURES of a strictly dependable and reliable collapsible go-cart are style, comfort, strength, durability and simplicity of construction that permits of easy operation. Each one of our collapsible go-carts can be folded into a small, compact form, as shown in the small illustration to the left, making it easy to carry it with comfort, place it in carriage, street car or train, and it requires small space in the home. The frame is the most important and vital part of any vehicle. Many collapsible go-carts are made fine in appearance and to the average person may look as good as the best built vehicle, but in the actual use the defects are soon discovered. Our collapsible go-carts have been selected not only for their attractive style, but for their perfect mechanical construction. They have all the latest and best improvements, combining lightness in weight, the greatest strength, greatest comfort, most durable wearing qualities, and are the easiest to operate of any go-carts made.

This illustration shows the collapsible go-cart folded.

THE FABRICORD COVERING on the seat, hood, back, arms and foot rest of each go-cart is the best substitute for genuine leather that has ever been made. There are several grades of fabricord, but we have selected a quality and grade for each go-cart that is guaranteed by the manufacturer and will prove satisfactory. It is waterproof; the body of the material is a strong fabric, coated, finished and grained to look like genuine leather.

THE HOODS have strong, steel ribs, converging at the sides and fastened to the arms by a patent ratchet attachment, which permits the hood to be pushed forward or backward, or placed in any desired to shield the child. The metal hinged arms, attached to the front and the ribs in place when extended.

THE WHEELS are strongly constructed with standard crescent shaped metal spokes are firmly fastened to the hub and rim which gives them the greatest possible strength combined with lightness in weight, ability.

THE TIRES. One of the greatest annoyances in the use of go-carts and is the rubber tires. There are many different grades and s ber tires, but we have stipulated in our contract for these go-carts that o best quality of tires for go-carts shall be used, and in order to insure a reaso of wear we use ½-inch tires, whereas most carts with ⅜-inch tires, which are much cheaper an wear as long.

A Big Bargain.

Just look at this collapsible go-cart for $3.95. Why pay other dealers at least $5.50? The framework of this go-cart is made of steel. The reclining back is high with metal rim around the edges and can be adjusted to an upright or reclining position, as desired. High arms with strap that buckles across the front. Pusher handle made of tubular steel, long and gracefully bent, attached to steel gear frame. Hood has steel ribs and is attached to frame with adjustable ratchet attachment. Steel wheels, 10 inches in diameter, have crescent shaped rims, fitted with ½-inch rubber tires. Automatic foot brake within easy reach, easily locked or unlocked. Hood, padded seat, adjustable back, sides and dash are covered with good quality fabricord (imitation leather), black color. Steel frame is finished in the best quality of black enamel, thoroughly baked and hardened, making a surface that can be washed and cleaned with soap and water. Folds with one motion by holding pusher handles and placing foot on rear lock bar and pressing down with rear wheels on the floor. Crated and shipped from Chicago. Shipping weight, 35 pounds.

You May Forget the Low Price You Pay Us

Baby Carriages and Go-Carts

You'll Not Forget High Quality

Comfortable, restful, light running, strong and durable. Built of the best materials; they have all the newest devices which add to comfort and convenience. In the Reed vehicles the framework of the body is made of white maple. The reeds used are the best quality imported stock woven by hand, finished in natural light color with a heavy coat of waterproof shellac over two coats of transparent filler. The gears are made of Bessemer steel with four coiled springs placed beneath the body, **which remove all jar and jolt.** All gears are finished in black enamel, thoroughly baked and hardened and can be easily cleaned with soap and water. The upholstering on the seats, backs, sides and dash are the most popular materials in the latest design of weaves, in color or to harmonize with the color of the body.

We call special attention to one of the weak points of many carriages and go-carts on the market, namely, the flimsy wheels and poor quality of rubber tires. It has been customary to make a showy design that will attract the eye of the purchaser and to slight the construction of the vehicle by the use of inferior wheels and poor quality of rubber tires to keep the price down. In our line this year we use extra heavy rubber tires of the best quality without having increased our selling price. All our wheels are made of the best grade of steel with sufficient spokes **to make them strong and rigid.** Steel rims are made wi grooves to prevent the tires from slipping off.

25 cents to $1.50 will pay the freight charges on a go carriage to any place in the United States located east of N. Dak., Kansas City, Mo., or Little Rock, Ark. Frei other points proportionately low. We will be pleased you the exact freight or express charges to your railroad on any vehicle you may select, and you will find the ch be but a very small amount as compared with what you in placing your order with us. **All shipments made from**

SEWING MACHINES

GUARANTEED 20 YEARS ~ THREE MONTHS' TRIAL

New Models, New Designs, Latest Improvements

OUR TWENTY YEARS' WRITTEN BINDING GUARANTEE.

We guarantee the Minnesota Sewing Machine for twenty years. With every sewing machine (the Homan excepted) we issue a written binding twenty-year guarantee, by the terms and conditions of which any piece or part gives out at any time within twenty years by reason of defect in material or workmanship, we will replace or repair free of charge. This is the longest, strongest and most binding guarantee issued by any sewing machine maker or seller, and in this way we make you absolutely secure against any possible defect of any kind. Thousands upon thousands of the machines made by the company now manufacturing our machines, from thirty to forty years ago, are still in use today. This is the best proof of quality that anyone can produce; the best recommendation that could be asked for.

CERTIFICATE No._____

CERTIFICATE OF GUARANTEE

This is to Certify that this sewing machine is warranted to be perfect in material and manufacture and to be perfect in operation if properly managed. This machine has been carefully inspected and adjusted, and there are no defects in material or workmanship. It has been delivered to the transportation company in perfect condition, carefully packed, and we guarantee it to reach your station in good order. This means that if it is damaged in transit it may be returned to us and we will pay all expenses connected with the transaction and send a new machine without extra charge.

With fair usage we hereby agree to make good any defect in material or workmanship for a period of twenty years. Natural wear and tear on any of the parts is not considered a defect in material or workmanship.

This guarantee does not apply to attachments, or the breaking of needles, shuttles, bobbins or belts.

Dated at Chicago, this_____day of_____A. D., 19___

Sears, Roebuck & Co.,
Chicago, Ill.

SAFE DELIVERY GUARANTEED.

We guarantee every sewing machine to reach the purchaser in the same perfect condition it leaves us, and if any piece or part is broken by reason of rough handling in transit, or for any other reason, we will either replace or repair it or send you a new machine, all at our own expense.

OUR THREE MONTHS' TRIAL PROPOSITION.

When you send us your order for a Minnesota Sewing Machine, and enclose our price, we fill your order and ship the machine to you with the understanding that we give you the privilege of returning the sewing machine to us any time within three months after you receive it if for any reason you are dissatisfied with the machine (the Homan excepted); the money paid for the machine, including the freight paid by you, will be returned to you without question. This gives you the opportunity for testing and trying the machine in every way without its costing you one penny. If you are not satisfied any time within three months, we agree to return not only the price of the machine but the freight charges as well.

Three Months' Trial Contract

This is to Certify that *this machine is sold by us with the understanding and agreement that if it does not prove entirely satisfactory in every respect to the purchaser, that it can be returned at any time within three months from date it is received and the full amount paid for the machine, including freight charges will be refunded to the purchaser at once.*

Sears Roebuck & Co.

REPAIRS AND SUPPLIES.

We will always carry at the factory a full supply of all the different pieces and parts in which our various styles of sewing machines are made, and if you should meet with an accident of any kind and should want any part or parts of any sewing machine purchased from us, you can get these parts promptly and at actual factory cost.

Our Sewing Machines in Three of the Most Popular Styles in Warehouses Near You, as Shown on This Map

We Can Make Quick Shipment From Any of These Warehouses, Saving You a Great Deal of Time in Delivery and Saving You Considerable in Freight Charges.

For Prices See Pages 627, 629 and 644.

The Minnesota Model "A" Head

THE MINNESOTA MODEL "A" is a strictly high grade up to date sewing machine from every viewpoint. It w pay you to read this description very carefully, because particular attention should be given to the sewing machine he when making your selection, and after you have decided upon the head, the other parts, such as the woodwork and stan are of minor consideration. It is the head that does the work. This fact must not be overlooked. If the sewing machi head itself is not properly constructed, if the material used in its construction is not properly made and treated, if the par are not made to gauge, then no matter how large the head of the sewing machine, no matter how high its praises a sung, you have an inferior article, one which may give satisfaction for a time, but in the end will not stand the test.

SPECIAL FEATURES which have made our Minnesota Model "A" Sewing Machine famous fro one end of the country to the other.

In the purchase of an article which, as a rule, will last a lifetime, there are a number of important points which should not and m not be overlooked. Consider carefully the following features of the Model "A" Head, and if you have thought of buying another machi make a comparison of these points before you place your order.

INDEPENDENT POSITIVE CAM TAKE-UP insures a perfect stitch on all kinds of material, because there are no springs used in this construction; therefore, there is a steady, regular tension which is necessary for an even and perfect stitch.

DISC TENSION. Another aid and insurance for a perfect stitch.

AUTOMATIC TENSION RELEASE. By raising the presser foot all tension on the thread is released, and you can draw the work from under the presser foot without any danger of bending or breaking needles or breaking your thread—a great help because it allows the operator to use both hands when removing or changing the position of the work.

EXTRA LARGE AND STRONG FEED. Particular attention has been paid to this very important part of the Model "A" machine. We believe we have as perfect a feed as it is possible to produce. Our Model "A" machine will cross thicker seams without any assistance from the operator than is possible to do with any other machine.

SPECIAL NEEDLE PLATE. You will note from the illustration on page 624 the needle plate is made with teeth cut into the crossbar, which keeps the feed perfectly clean and free from lint and always insures perfect action.

SHORT NEEDLES. Our Minnesota Model "A" Heads use a very short needle, which means less trouble in breaking needles. These needles may be purchased from any sewing machine agent or dealer in any and all parts of the country. This is a great advantage, although we are in a position always to supply the needles at a much lower price.

ROUND AND HARDENED NEEDLE BAR. Proved by experience to give better satisfaction and will last longer than the square bar or the soft needle bar.

EXTRA LARGE SHUTTLE. Compare the shuttle the Model "A" Head with the shuttle used by other machine and you will find it will hold far m thread than any of them.

AUTOMATIC BOBBIN WINDER makes it easy wind bobbins and insures a perfectly wound bobbin all times, which is necessary for a perfect stitch.

These are the principal features which should considered and examined when purchasing a machi They are the wearing points and the parts which the same relation to a sewing machine that the has to the human being, or the engine to a locomo or an automobile. If you find a machine that has t points, you will make no mistake in ordering it, becau it must necessarily give satisfaction as far as wor parts are concerned.

DESIGN OF HEAD. This head is made and shaped with a view to the most perfect operation of the various parts, and yet not neglecting those perfect lines that make it the handsomest, most roomy and most shapely high arm sewing machine head possible to construct.

SIZE OF HEAD. Our Minnesota Model "A" is a high arm sewing machine head, with a working space under the arm of 5¼x8½ inches. This is the same size as those machines for which agents ask from $40.00 to $60.00. The bed plate measures 7x14 inches.

NICKEL PLATING. All of the bright parts of this head are heavily nickeled over copper plate, then highly polished. This insures a nickel finish that will not crack, peel, rust nor wear off. This applies to the working parts underneath the bed of the machine as well as to those parts that are exposed to view. The highly polished nickel plated parts on the outside of the head, in contrast with the rich black enamel finish, add greatly to the general handsome appearance of the machine.

COLOR ORNAMENTATION. The Model "A" Head is elaborat ornamented in a special old gold design, which, in contrast with black enameling and the elaborate nickel trimmings and grace outlines, makes it the handsomest sewing machine head possible produce.

THE ENAMELING. All the parts that are not nickel pla are finished in black enamel. The highest grade enamel is us three coats being applied, each coat being separately baked on a high temperature, rubbed down to a smooth surface by hand finally given a coat of special varnish, baked on at a high deg of heat, making the surface extremely hard and giving the mach a rich, heavy, lasting, fast black luster. Before the machine is ameled it is treated to one coat of special anti-rust preparation wh prevents the enamel from cracking, checking or peeling, which often occurs with other makes of machines.

An X-Ray Picture of the Wonderful Model "A" Head. Note the Great Features.

Construction of the Minnesota Model "A" Head

The strength, simplicity and correctness of the mechanical principles embodied in the Minnesota Model "A" Head can be judged from these X-ray or shadowgraph pictures shown on this page. This X-ray picture shows the mechanical construction of the Model "A" Head, and if you follow it closely and read the detailed description on the next page, we are sure you will understand why the Minnesota Model "A" is so far ahead of all other sewing machines in mechanical construction, and why we so strongly recommend the selection of our Model "A." Even in these illustrations we have called attention by means of dotted lines only to the most improved features. There are many other mechanical details which go to prove the superiority of the Minnesota Model "A" which we are unable to present satisfactorily on a catalog page, and we are also unable to show you the wonderful workmanship in this machine, the manner in which every piece and part is so carefully made and finished, everything fitting and operating perfectly, a combination of finest skilled workmanship that is not excelled by any fine watch or any complicated high grade mechanical device of any kind costing one hundred times as much.

Above is an X-ray picture or shadowgraph of the head, and the illustration below is made from a regular photograph showing the under side of the bed plate, giving you a better view of many of the improved mechanical features.

The eccentric system is used in our Minnesota Model "A," and all clumsy, hard working, sticky cog wheels are done away with. All running parts, even to the bobbin winder, are supplied with operating power direct from the main shaft and act absolutely independent of one another. The eccentric at the right end of the main shaft operates both the feed and shuttle, while the shaft head at the left end of the arm drives the needle bar and take-up simultaneously. By the use of this eccentric action much less power is required to run the machine and it insures a light running, easy operating movement, harmonious action and unfailing certainty of absolute evenness in the action of the different parts, and makes it impossible for one part to be slower or quicker in movement than another. It runs smoothly, nearly noiselessly and will never wear loose nor shaky.

Digitized by Google

Model "A" Head.

This illustration of the Model "A" Head with the face plate removed shows the needle bar, presser bar, automatic tension release, extra large tension adjusting nut, extra long spiral presser bar spring, presser bar regulator, presser bar lifter. The illustration also shows how the casting is reinforced to give the longest possible bearing surface for the needle bar. The lower part of the casting is cut away to give the operator a better view of the work as it passes under the presser foot.

Main Connection Double Fork Eccentric Levers.

The Main Connection Levers, as signified by the name, are the important parts of the sewing machine, because they communicate the power from the main shaft to the shuttle lever and the feed raising bar. These levers are made of the highest grade of malleable iron. The bearing surfaces are faced, hardened and ground to a perfect fit. The more perfect the adjustment of these levers the easier will the machine run and the longer will it last. This construction is an exclusive Minnesota Model "A" feature.

The Shuttle.

The Shuttle is the most perfect self-threading cylindrical shuttle ever produced. It is extra large in size, made of the finest tool steel, hardened, ground and finished. It is absolutely self-threading, being open at one end for inserting the bobbin, after which the thread is instantly drawn into place by two movements of the hand. There are no holes to pass through, and the shuttle can be threaded with the eyes shut. It has a perfect tension, which is practically automatic. It does not require regulating for any ordinary work. The bobbin carries a large amount of thread. The illustration shows the shuttle being held between the thumb and forefinger while threading.

The Shuttle Carrier.

The body in which the shuttle rests is fitted with a spring which holds the bobbin firmly in place and prevents it from rattling while the machine is in operation. The carrier is adjustable, so that when the shuttle shows signs of wear, after many years of use, the carrier can be moved closer to the shuttle race, thus enabling the operator to use the same shuttle for many years, with the same satisfaction as when new.

Our New Self Oiling Shuttle Race Found on All Minnesota Model "A" Sewing Machines.

This new improvement, this self oiling device for the shuttle race, solves the problem of keeping the race properly oiled without danger of getting too much oil on the race and soiling the upper and lower threads. It keeps the shuttle race always properly oiled and thereby reduces the friction of the shuttle against the race and prevents wear of the shuttle.

Needle and Thread Scale.

A scale indicating the proper needle to be used with the different sizes of thread is stamped on the forward shuttle slide. Breaking of the thread and needles often occurs if incorrect sizes of needles or thread are used.

Round Needle Bar.

Made of cold rolled steel drawn to size, hardened, straightened and then lapped to a certain gauge. In this way only can the perfect needle bar be made.

Needle Bar Cam.

Fastened to the needle bar with two screws. This cam is made with the slotted gib which insures a silent needle bar with no vibration.

Needle Clamp.

Holds the needle firmly in place and permits the needle to be removed in an instant when required, even though it should break accidentally in the bar where it cannot be reached by the fingers. The needles can be bought from us at factory cost. For prices see page 648.

Self Setting Needle.

The needle bar is constructed with a groove in which the needle shank is inserted as far as it will go, the flat side against the needle bar, so that the operation of setting the needle is absolutely automatic. It is not necessary to guess at the proper height or position of the needle.

Needle Plate.

This illustration shows the under view of the plate. Note the saw tooth edge on the small bar in the opening of the needle plate. The narrow bar fits into a corresponding groove in the feed and serves to steady the feed as well as strengthen the needle plate. The object of the saw tooth edge is to make the feed self cleaning and in that way prevent any dust or lint from gathering in the groove of the feed.

Presser Bar.

Made of cold rolled steel and is drawn to size. The presser bar spring is made of music wire; both ends are set square and ground. This prevents the ends of the spring from catching and twisting when adjusting the presser bar.

The Presser Foot

Has a large surface to fully cover the feed and the forward part nearest the operator is curved upward so that the foot of it will not catch in the seams of fleecy materials. The presser foot is highly polished.

Attachment Holder,

Made of cold rolled steel, is heavily nickel plated and polished. The presser foot may be removed from the attachment holder and other attachments put on without the use of a screwdriver.

Thread Cutter.

This machine is supplied with a steel thread cutter, conveniently attached to the presser bar, by the aid of which the thread can be easily cut, obviating the use of scissors and the danger of breaking or cutting the thread too short.

Double Feed.

The feed is made of the best quality tool steel; has five sets of teeth, two on one side of the needle, three on the other and so constructed that when in operation the goods must be carried forward with absolute accuracy.

Feed Movement

(Four Motion). The feed in this machine is operated by four movements. The feed comes up, takes a firm hold on the goods, carries them forward the full length of the stitch, then it falls, releasing the goods, and comes back again toward the operator ready for the next stitch. These four movements are provided entirely by the main shaft, insuring positive action on either heavy or light work.

Independent Take-Up.

The take-up in this machine is driven by a rotary cam on the end of the main shaft, making it positive in its action, insuring a perfect stitch and with no springs to get out of order or break. The positive action of this take-up makes it unnecessary to alter the tensions when the length of stitch or weight of material is changed.

Disc Tension.

The upper tension of this machine is of the modern disc type, and adjusts itself on all classes of work. The tension is located on the side of the cam house toward the operator. This location of the tension is not only far more convenient, but brings the point at which the tension is applied to the thread much nearer to the eye of the needle, thus reducing the amount of thread under tension and doing away, in a large measure, with the stretch in the thread, which on old style machines, frequently causes bad stitching or skipping of stitches.

Automatic Tension Release.

This machine is provided with an automatic tension release, which separates the tension plates by merely raising the presser bar lifter so that the work can be drawn from underneath the presser foot with ease.

Stitch Regulator.

The illustration shows the stitch regulator, which is fastened to the bed plate just in front of the arm in plain sight and within easy reach of the operator. The length of the stitch can be adjusted instantly by loosening the thumbnut and moving the pointer to the desired figure on the scale stamped on the stitch regulator plate. The stitch can be varied from seven to thirty-two stitches to the inch, thereby affording a range from the very smallest to the longest stitch.

Bearings.

The bearings of this machine are of the highest mechanical type. They are either roller or ball joint bearing, according to requirement. They are automatic in their workings, have special take-up devices, doing away with all unnecessary friction, insuring an easy running and nearly noiseless machine.

Adjustment.

All bearings and working parts of this machine which require adjustment are made of the finest steel that can be obtained, after being thoroughly hardened by the best and most improved process, are accurately ground to a perfect fit and so constructed that any lost motion due to the slight wear that may result after many years use can be easily and quickly taken up. This renders it practically indestructible and one of the most durable machines ever produced.

We Furnish, Free of Charge

With every Minnesota Model "A" Sewing Machine, a book of instructions telling how to operate the sewing machine. This book covers every point, makes everything so plain and simple that anyone without previous experience can learn to run the machine at once and do perfect work; tells you how to get the best results, how to take care of your machine, tells you where to oil and when. It tells you how to use the different attachments, the ruffler, tucker, hemmers and binders, and contains illustrations of these attachments in use.

Hand Wheel.

The hand wheel is of the very latest pattern, with handsome nickel plated polished rim, and is so constructed that it can be easily released and made to run in either direction for the purpose of winding the bobbin without the necessity of running the work from the machine and without causing the working parts to operate.

Locknut.

The locknut, which is located at the end of the shaft and used to release and tighten the hand wheel, is turned out of one piece of steel, has milled edge and is heavily nickel plated and polished. The locknut is plainly marked with arrows showing which way it must be to loosen or tighten the hand wheel.

Easy to Oil.

By means of convenient oil holes in movable metal plate on the back of head, all bearings are easily reached with oil. This is a most important feature, thorough lubrication prevents friction and wear.

Running Speed.

Every machine, before being shipped from the factory, is put to the severest possible test, being set up and attached to a large pulley and run at a speed five times faster than it is possible to run any machine by foot power, and by this severe test we learn that every machine is perfectly in every particular and capable of the highest possible speed.

Automatic Bobbin Winder

The bobbin winder on this machine is nickel plated throughout, and is the perfect bobbin winder ever produced. It is so simple that a child can operate it and the thread is wound on the bobbin automatically and so evenly and so tight as to make the bobbin work perfectly in the shuttle, producing an even tension and greatly improving the perfection of the stitch. This also prevents the breaking of the lower thread, which is liable to happen with an unevenly wound bobbin.

Bobbin Winder

Always in position and ready to operate. It is operated by means of the belt, which is placed in contact with the small wheel of the bobbin winder.

All New Model "A" Parts

Are examined and measured before they are put in the machines. This insures uniformity of parts and is also the reason why all Minnesota parts are interchangeable.

SEWING MACHINE SUPPLIES

On page 648 you will find listed many which are required from time to time by sewing machines. These prices are the lowest at which you can possibly buy these goods.

We aim at all times to keep a complete stock of all parts of all sewing machines listed in our catalogs. Prices on parts for machines of other manufacture will be given upon request.

Minnesota New Model "A"

Five and Seven-Drawer Upright Styles

Closed View Five-Drawer Box Cover Style. No. 26F121 Price.....$14.95

THESE FIVE and seven-drawer upright styles Minnesota Model "A" Sewing Machines with box cover are high grade in every particular. The head remains stationary on the table. It does not fold over and drop down. The illustration to the left shows the appearance of the machine when it is closed and not in use. There is a metal pan attached to the table, underneath the head, which prevents the oil from dripping on the garments of the operator. To oil the working parts under the bed plate is but the work of a moment. There is only one small screw to be removed and then the head can be thrown back on its hinges to clean and oil all of the working parts under the bed plate.

A tape measure, 18 inches long, accurately divided and beautifully colored to match the woodwork, is transferred on these tables, directly in front of the head, where it is most convenient for the use of the operator.

EQUIPMENT.

THE HEAD—The big Minnesota New Model "A" Head.
WOODWORK made of the finest and best selected grade of quarter sawed oak.
THE STAND—Our celebrated light running, ball bearing stand.

The machines shown on this and the opposite page are str high grade, of the very best quality throughout. The same grad quality cannot be purchased anywhere else for less than $30. $40.00. The illustrations on this page give an idea of the app ance of the hand lift drop head style of the Model "A" Se Machine when closed and not in use.

THE WOODWORK is made of the finest specially sel quarter sawed oak. This is the most expensive oak lumber o market.

THE TABLES are strongly built. The front of the tab cut with a triple swell.

A TAPE MEASURE 18 inches long, accurately divided beautifully colored to match the woodwork, is transferred on table, directly in front of the head, where it is most convenien the use of the operator.

THE TOP LID is made of built-up stock; five different l of wood glued together, with the grain of each layer of the running diagonally to the layer above, this construction h been found the most satisfactory insurance against warping, c ing or splitting. It is the way the piano cases are manufac for the most expensive pianos and everyone knows they are to last a lifetime. That is why we insist on this method of struction for our sewing machine woodwork, particularly the "A" style.

Minnesota Model "A" Ball Bearing Stand.

The illustration shown herewith represents the ball bearing construction of the balance wheel and the double ball bearing nickel plated steel pitman. In this picture we show just where the ball bearings are and the number of complete sets of ball bearings on every Minnesota Model "A" stand.

We use only the highest grade of gray pig iron in the manufacture of these stands. It is the nicest, best appearing and strongest stand made. Particular care and attention are paid to the finish and enameling of this stand, which is plainly evident when our Model "A" machines are compared side by side with machines which sell at from $30.00 to $40.00.

Another feature of our Model "A" stand is the position of the pitman. By referring to the illustration it will be seen that the pitman operates between the leg and the wheel. This means that it is out of the way and will not interfere with the easy operation of the machine. The dress guard on this stand is another very strong feature. The guard covers and protects the entire wheel. This makes it impossible for the dress to become caught in the wheel. Besides serving to protect the garments of the operator, it acts as a very strong brace for the leg and is also an anchor for the balance wheel, which is attached to the dress guard.

Illustration Showing Bearing Arrangement Wheel and Pitm Note—The entire w protected by the gu

THE DRAWER CASES. By referring to the illustrati will note the drawers on our Model "A" machines are encl all sides. These drawer cases are made of the finest selected tered oak veneer stock. They are strongly built and on acc the manner in which they are attached to the table and th frames make this set of woodwork very secure and prev liability of the drawer cases becoming loose and shaky. front of the drawer cases, just below the drawers, there is some scroll wood carving, rounding off the lower corners. pare our drawer cases with the ones which are used by othe ufacturers, even on machines that sell from $30.00 to $40.00.

THE DRAWERS are all large and roomy and are bui strong. The front of each drawer is provided with a beautiful carving, which serves as a drawer pull. This new drawer pu a very rich, tasteful effect; it does not tarnish, neither break; it is not in the way and will not catch in your dres often happens with the old style brass or nickel plated pulls. The center yoke is made with the swell front out correspond with the table and the drawer cases. It is hand decorated with wood carvings in the center and along the It is a very handy compartment for small supplies and acce such as needles, bobbins, thread, etc.

On the hand lift drop head style machines, when the closed and the machine is not in use, the head is protect the dust or chance of injury by a strong metal drum, stai finished to represent oak, the entire combination making th beautiful and most practical sewing machine ever sold.

A complete Set of Steel Foot Attachments, as described on pages 635 and 636, 75 cents extra.

THE MACHINES illustrated on this page represent our Fo and Six-Drawer Automatic Lift Minnesota Model "A" Drop He Sewing Machines in the apron front style of woodwork. This sty is becoming more and more popular day by day. It has more of artistic appearance, particularly when the machine is closed and in use. The additional carvings lend an attractiveness and t which can be added to only the apron front style of machines. T material used in the construction of these tables and drawer c is of the same high grade and special quality as all Minnesota M "A" tables. When the head is raised and the machine is ready work, the apron folds up under the head, out of the way, afford exceptional knee room for the operator. There is no danger of or particles of dust falling on the garments of the operator becau the head is protected by means of another apron which folds up under the head and is held close to the head by means of the ir apron when the head is drawn up into position, ready for sewing

Special Automatic Head Lifting Device

THE MACHINES illustrated and described on this and opposite page, in addition to having the largest and best heads, finest grade of woodwork and the best and lightest running stan are also equipped with our Special Automatic Head Lifting Dev by means of which the head is raised and lowered by merely op ing and closing the top leaf of the machine. This lifting device, p fect and simple, yet extremely strong, is operated without springs. One hand does the work and only one operation is nec sary. The chain which bears most of the strain is the finest chain of its kind manufactured, being equal to the finest bicycle chain. Each link is composed of three plates, securely riveted together. This gives the chain sufficient elasticity and prevents the possibility of its breaking under any strain. The chain, as well as all the parts exposed to view, are brass plated. By means of this automatic lifting device all have to do is to lift up and throw back the extension leaf, the h goes into place ready for sewing at once, with the belt on the pu wheel, nothing else required; it is just one easy motion.

Ball Bearing Balance Wheel

All our New Model "A" Machines are equipped with this latest improved ball bearing hanger. The hanger is the large bala wheel and shaft fastened to the wheel guard, as shown in this il tration. As this wheel supplies the operating power to the head, bearings on which it revolves are naturally subjected to consider strain. By the introduction of the ball bearings all friction is remo and the wheel revolves with the same freedom and rapidity as the bearing crank hanger of the bicycle. The application of the ball b ings to the balance wheel is one of the greatest improvements the greatest aid to the light running qualities of the machine, and have demonstrated by actual experiments and tests that our ball bearing hanger is at least 20 per cent lighter running than any ball bearing device or arrangement used on any other sewing machine made. By the aid of the ball bearings a machine is made not only lighter running, but exceedingly easy to operate and very rapid in action. The arrangement of the ball bearings with the balance wheel is the same as that on all high grade bicycles. The axle on which the wheel revolves passes through two steel cups, each of which contains eight solid steel balls, which are fitted in a patent ball retainer, which reduces friction and prevents the bearings from crowding and grinding. The cones are fitted into the balance wheel and by turning the journal to the right or the left it is possible to adjust the bearings so that the balance wheel will at all times run lightly and noiselessly. The cups and cones used on our stand are turned out of a solid bar of steel, after which they are ground out, tempered and hardened, and with proper oiling from time to time they will last a lifetime.

New Double Wing Pocket Cabin

Automatic Lift Drop Head Style

Minnesota New Model "A"

This illustration of the left hand swinging drawer case shows to what practical uses it can be applied. The upper compartment is arranged to hold a supply of spools of thread. The lower division is very conveniently arranged to hold all kinds of patterns, the instruction book, special samples of cloth, etc.

Closed View of the No. 26F102 Minnesota New Model "A."
See open view on opposite page.

This illustration of the right swinging drawer shows the orderly in in which the case attachments m kept. The inside of this drawer c lined with velveteen and is especiall titioned to hold all of the attach and most of the accessories supplie the machine. The attachments are at hand, easily within reach, and in plain sight.

Entirely New Set of Woodwork. This is an exclusive style and pattern, manufactured only for us. Order one of machines; take it home and try it. Use it for three months. Compare it with other mac and if you are not satisfied and sure that you have greater value for $18.95 in the New Style No. 26F102 Minnesota Model "A" Sewing Ma than your neighbors have in any machine for which they have paid from $45.00 to $60.00 you may return the machine and get your money The handsomest, most practical and finest finished cabinet ever used on a sewing machine.

MATERIAL. Specially selected large flaky figured quarter sawed oak and highest grade quarter sawed oak veneers are used for the construction of this woodwork.

DESIGN. Please observe its simplicity and yet its richness. This design and style is made only for Sears, Roebuck and Co. The carvings are tasteful and artistic. There is nothing gaudy or glaring to attract attention for the moment only. Every detail has been carefully considered, with the result that we not only have the most beautiful woodwork, but the most practical as well.

THE TABLE. The tables for our new style No. 26F102 Minnesota Model "A" woodwork are made of specially selected quarter sawed oak, with large flaky figures. The lid is made of built-up stock; that is, there are five different layers of wood, the grain of each layer running crosswise to the other, while the upper layer is specially selected quarter sawed oak with large flaky figures.

A TAPE MEASURE 18 inches long, accurately divided and beautifully colored to match the woodwork, is transferred on this table, directly in front of the head, where it is most convenient for the use of the operator.

THE DRAWER CASE. The newest, latest and most up to date drawer cases made. These swinging drawer cases cover and entirely conceal the drawers. The compartments arranged on both drawer cases are very practical and handy to get at. Every little detail has been looked after. Only the highest and most expensive grade of quarter sawed oak is used in the construction of these drawer cases. Note the gracefully curved sides of the drawer cases and the beautiful and artistic carvings on the fronts.

THE DRAWERS. Besides the special compartments in the drawer cases there are four of the regular sewing machine drawers, two on each side. The drawers are large and roomy and the upper right hand drawer is fitted with a special compartment to hold extra bobbins and needles according to their different sizes. The drawers are made and strong and are fitted with a neat w pull, capped with a brass escutcheon.

THE DRUM. When the machine is and not in use the head is protected injury, dirt and dust by a metal stained in imitation of oak, giving same appearance as the woodwork which entirely encases the under part head, preventing the dripping of oil o garments of the operator.

THE FINISH. We take particular in the finish of this style of woodwor is the richest effect we have ever seen o cabinet work. The selected stock an care and attention paid to the finish us to supply our customers with the and best finished set of woodwork eve plied with a sewing machine. This work is treated in the finishing depar in the same manner as the highest and expensive grades of furniture are fi The color is a rich new shade of golde a most luxurious finish.

A Special Feature.

This No. 26F102 sewing machine is equipped with our celebrated Automatic Head Lifting Device, perfect and simple, yet extremely strong; operated without any springs, one hand does the work; only one operation necessary. The chain which bears most of the strain is the finest chain of its kind manufactured, the equal of the finest bicycle chain. Each link is composed of three plates, securely riveted together. This gives the chain sufficient elasticity and prevents the possibility of its breaking under the strain. By means of this automatic lifting device all you do is to lift up and turn back the extension leaf, the head goes into place, ready for sewing at once; nothing further is required and it is just one easy motion.

Minnesota Model "A" Ball Bearing St

The illustration shown herewith represents the ball bearing construction of the balance wheel and the double ball bearing nickel plated steel pitman. In this picture we show just where the ball bearings are and the number of complete sets of ball bearings on every Minnesota Model "A" stand.

We use only the highest grade of gray pig iron in the manufacturing of these stands. It is the nicest, best appearing, lightest running and strongest stand made. Particular care and attention are paid to the finish and enameling of this stand, which is plainly evident when our Model "A" machines are compared side by side with machines which sell at from $30.00 to $40.00.

Another feature of our "Model "A" stand is the position of the pitman. By referring to the illustrations it will be seen that the pitman operates between the leg and the wheel. This means that it is out of the way and will not interfere with the easy operation of the machine. The dress guard on this stand is another very strong feature. The guard covers and protects the entire wheel. This makes it impossible for the dress to become caught in the wheel. Besides serving to protect the garments of the operator, it acts as a very strong brace for the leg and is also an anchor for the balance wheel, which is attached to the dress guard.

The above illus shows the ball bear the balance wheel an pitman. Note the wheel is protected guard.

Our New Library Table Sewing Machin

An Exclusive Style and One of the Most Practical Sewing Machine Improvements of Recent Years.

Equipped With Our Minnesota Model "A" Sewing Machine Head

$21.95

A library table which can be converted in a minute into a sewing machine is certainly a most practical idea for any home. When it is to be used as a table, as you will see from the illustration, there is nothing to indicate that it is any more than a nicely finished and practical library table. The sewing machine head is cleverly hidden. It is the work of but a minute to change this beautiful table into a practical sewing machine with more table surface than any other sewing machine. It makes a much firmer, stronger and more substantial sewing machine than any other manufactured. There is nothing about it to get out of order. The special features which make it possible for us to successfully conceal a complete, light running, latest style, ball bearing sewing machine in a library table, are made and attached to the table in such a way that it is only necessary to touch two levers (also concealed), to bring the treadle and balance wheel into position. When these levers release the treadle and balance wheel they also lock automatically, making only one operation necessary to arrange these parts for immediate use.

THE SEWING MACHINE HEAD is attached to the table in the same manner as the regular drop head styles, and all that is necessary to get at the head is to remove the false top of the table, which is very light, but strong and substantial on account of being made of veneered stock. For a complete detailed description of the Model "A" Sewing Machine Head see pages 622 and 623.

THE TABLE is made of selected highly figured quarter sawed golden oak. The legs are massive, exceptionally strong and are firmly braced by a convenient and useful lower shelf. One side of the table is fitted with a blind door suitable for attachments, accessories, thread, etc.

THE FINISH throughout is such as is put only on the finest furniture, being hand rubbed and highly polished, and brings out the beautiful grain of the wood as perfectly as it is possible to be shown.

THE TABLE is constructed with a double top. The upper part serves as a cover for the head and when removed can be used as a lap board, which is always a great convenience in a sewing room.

This illustration shows our Library Table Sewing Machine closed. You will ob how it completely conceals all evidence of a sewing machine and looks exactly like any grade library table. Can be changed ready for sewing in less than a minute.

This illustration shows our Library Table Sewing Machine open, ready for work, giving you all the advantages of the highest grade sewing machine, with the additional advantage of more table surface. Takes less than a minute to make the change.

THE LATEST ADDITION TO OUR I SIGNS. The library table style is the la addition to our Minnesota designs—the m advanced idea in cabinet work, and a mach that will not be found in other catalogs, offered by dealers or agents generally. It used in only one or two other makes which at about $60.00. So far as competition concerned, we could sell it for $40.00 and away under any possible competition. Th is nothing richer or handsomer in sew machine cabinet work; nothing more up date, nor that will appeal so strongly people of refined taste. It is adapted for finest room in any home. In woodwo graining, polishing, carving, graceful onti and other features, it compares favora with any library table in the best furnit stores. When you consider you have benefit of an attractive piece of furnit which you can in a minute transform int sewing machine ready for work—the high grade sewing machine at that—you can alize the quality and value we offer you only $21.95.

A TAPE MEASURE, 18 inches long, ac rately divided and beautifully colored match the woodwork, is transferred on t table, directly in front of the head, where is most convenient for the use of the ope tor.

PROTECTING YOU IN EVERY WAY, send you a signed written binding guaran with every machine, guaranteeing it agai all defects for twenty years. If through cident you should need a piece or part in years to come we can furnish it to y promptly, as we carry a full line of repa on hand at all times, and it is our policy furnish repairs and parts at factory co

Equipped With Minnesota New Model "A" Head and Automatic Lift

$18.90

Machine Open.

WOODWORK. The quality of the material and the general construction is very much the same as the high grade woodwork which is generally described on page [illegible]. The design of the cabinet, while plain, is very attractive and is strongly built. It is, in every particular, as tasteful as shown in the illustration. The quarter sawed oak panels on the door and sides of the cabinet are arched. The door is ornamented with artistic wood carvings, which give the cabinet a very rich and elegant appearance. A compartment, securely fastened to the door, is arranged to contain the attachments and accessories and such other supplies as are in constant demand when sewing. This compartment, as may be seen by reference to the illustration, is most conveniently arranged so that it will not be necessary for the person using the machine to move a chair or even change position when sewing, to use any of the attachments or accessories contained in this compartment. The cabinet is fitted with four large wooden casters, making it very easy to move from one part of the room to another. We attach a metal drip pan underneath the head on each and every one of these cabinets so that there is absolutely no danger of any oil dripping on the garments of the operator.

A TAPE MEASURE 18 inches long, accurately divided and beautifully colored to match the woodwork, is transferred on this cabinet, exactly in front of the head, where it is most convenient for the use of the operator.

THE STAND. The large ball bearing balance wheel, which is fully described on page 626, is attached to an extra strong panel, which is fastened on the side of the cabinet. We supply with these cabinets the metal pitman with ball bearings at both ends, which is illustrated and fully described on page 626.

ATTACHMENTS. For complete description of the Minnesota New Model "A" Attachments see pages 635 and 636.

For Description of New Model "A" Head See Page 622.

MACHINE OPEN.
Note Ventilator on Back of Cab

THE VERY HIGHEST GRADE full desk cabinet style sewing machine manufactured. Beautifully designed, richly carved and artistically decorated.

THE OAK STYLE is made of extra specially selected highly figured quarter sawed oak veneer, with large flaky figures, polished and hand rubbed to a piano finish. The doors, sides and top of this cabinet are all made of five-ply built-up stock, that is, five layers of wood, the grain of each layer running crosswise or diagonally with the other, while the top layer is highly figured quarter sawed oak.

THE SUNKEN PANEL on the door and both sides of the cabinet improves the appearance of this cabinet wonderfully. The beautiful and artistic carvings on the front and sides of the cabinet are such as are found only on the most expensive furniture. We call your particular and special attention to the construction of this cabinet; observe the door is hinged at the side of the cabinet, also that the small door at the right opens, allowing considerably more room and making it much more convenient and more comfortable for the operator. We have also added to this, our highest grade cabinet, a special ventilator feature, which may be opened or closed without getting up or changing your position while operating the machine, an improvement which is not found on any other sewing machine manufactured. This special ventilator means more comfort to the operator, especially when using the sewing machine in the summer months.

NEW DOOR CONSTRUCTION. On account of the new door construction, we have been able to attach to the door one of the most convenient cabinets for containing the attachments, accessories and all manner of supplies which are in constant demand while operating the machine.

NOTE THE SPECIAL COMPARTMENT for the attachments, accessories, bobbins, spools of thread, needles, all kinds of patterns, instruction book and special samples of cloth, in addition to which the cabinet is fitted with two very large and roomy drawers, so that the compartment attached to the door of this cabinet will take the place of six or eight of the ordinary drawers used in sewing machine woodwork.

A tape measure, 18 inches long, accurately divided and beautifully colored to match the woodwork, is transferred on this cabinet, directly in front of the head, where it is most convenient for the use of the operator.

CLOSED VIEW.

THIS SPECIAL CABINET is arranged so that there is a place for everything. special compartment for the accessories is made only for the accessories. The sa true regarding the division for the attachments. The bobbin compartment is so that the thread will not tangle, and you can always easily distinguish the ferent colors, also those bobbins which are wound with silk thread from the The spool compartment has special pins on which the spools are fitted so that will not roll around and unravel and become one tangled mass of thread. special needle compartment enables you to tell just how many needles you have avoids the loss of time and disappointment when you have considerable sewing and find that your needles are missing. The Minnesota New Model "A" Hea the working parts used in this desk cabinet style are fully described on pag and 623.

THE STAND. The large ball bearing balance wheel, which is fully described on 626, is attached to an extra strong panel, which is fastened on the side of the inet. We supply with the cabinets the metal pitman with ball bearings at ends, which is illustrated and fully described on page 626.

AUTOMATIC LIFT FEATURE. These Nos. 26F118 and 26F119 Cabinet Sewing Machines are equipped with our celebrated automatic lifting device, fully described on page 628; perfect and simple, yet extremely strong; operated without any spring; one hand does the work; only one operation is necessary.

WE FURNISH THIS CABINET IN BLACK WALNUT, AS WELL AS IN BUT, ON ACCOUNT OF THE WALNUT LUMBER COSTING MORE THAN WE CHARGE $1.50 EXTRA FOR THIS CABINET IN BLACK WALNUT.

Attachments for Our New Model "A" Machines

75 Cents for a Set of the Best Attachments in the World

ATTACHMENTS

It has been customary in the past for all dealers to furnish a set of attachments with every machine, whether the purchaser required them or not. We offer our machine with or without attachments. The prices quoted in the catalog for the machines, shipped from Dayton, Ohio, are all calculated without attachments, and at 75 cents we furnish a full set of the latest patent foot attachments, as shown in the illustration herewith, packed in a handsome velvet lined metal box arranged with a place for each particular attachment. The attachments will be furnished at 75 cents per set. If mail shipment, postage extra, 20 cents.

The set of attachments which we furnish for 75 cents consists of one tucker, one ruffler, one shirring blade, one short braider foot, one under braider, one binder, one set of four hemmers of different widths up to 5/8 of an inch and one bias gauge. These attachments are the same style as are furnished by the largest sewing machine dealers with their highest priced machines and are guaranteed to give perfect satisfaction. The attachments are handsomely nickel plated, polished and are packed in a strong metal box which is velvet lined.

The highest recommendation that can be given to a set of attachments is that it is made by the Greist Manufacturing Company, the makers of the most complete, improved and expensive attachments on the market, whose attachments are used by the makers of well known standard machines. Our attachments are made by this concern expressly for our machines and are made of the very best tempered steel, heavily nickel plated, and will last twice as long and do double the variety of work possible with cheaper attachments. They are adjustable, very simple in construction and so easy to understand and operate that any person can quickly learn to produce a large variety of the most beautiful work. Our instruction book, furnished free with the machine, explains fully the operation of each attachment included in the set.

If you intend to do plain sewing only with our machines you naturally do not wish to buy attachments, and will appreciate our departure from the old established custom of including a set of attachments with every machine at the customer's expense. If you require attachments you will nevertheless appreciate that it is unfair and unjust to force those that do not need them to receive and pay for them. If you purchase a machine without attachments and later wish to procure attachments, we can always supply you with the proper set.

Eleven Separate Attachments for 75 Cents

Accessories Furnished Free of Charge With all Minnesota New Model "A" Sewing Machines

We furnish with every Minnesota New Model "A" Machine a complete set of accessories, such as is usually furnished with every high grade machine, consisting of one quilter, five bobbins (and one in the machine), one cloth guide, gauge and screw, a large screwdriver, one oil can filled with oil, one shuttle screwdriver, one extra needle plate, one foot hemmer, one package of needles and one instruction book. We carry in stock a full supply of needles, bobbins, shuttles, attachments, etc., which are used in the operation of our machines. We can therefore fill all orders for repairs promptly. An order for repairs for the Minnesota New Model "A" Machine placed with us fifteen or twenty years from date would be filled as promptly as a repair order sent today. See page 648 for prices of sewing machine supplies.

Complete Book of Instructions Free

We furnish, free of charge, with every Minnesota Model "A" Sewing Machine, a book of instructions telling how to operate the sewing machine. This book covers every point, makes everything so plain and simple that anyone without previous experience can learn to run the machine at once and do perfect work; tells you how to get the best results, how to take care of your machine, tells you where to oil and when. It tells you how to use the different attachments, the ruffler, tucker, hemmers and binders, and contains illustrations of these attachments in use.

Attachments and Book of Simple Instruction

For The Minnesota New Model "A"

RUFFLER SHIRRING.

RUFFLING.

FELLING.

WIDE HEMMING.

SEWING ON BRAID.

The illustrations on this page will give you a little idea of the variety and style of work which may be done on the Minnesota Sewing Machines with the aid of the extra steel attachments which we sell for 75 cents. Few people realize the enormous amount of labor and the time which is saved by means of the attachments. Knowing the importance and realizing the necessity for selling only the very best attachments, we are pleased to say that we sell only those attachments made by the Greist Manufacturing Co., the largest manufacturers of sewing machine attachments in the world.

If we had the space, we could show many more pictures of different styles of work, all of which are fully and completely illustrated in our Instruction Book, which we believe to be the most complete and clearest instruction book furnished with any sewing machine, regardless of price. The Instruction Book goes into details and tells you very clearly and in the plainest possible language how to use the different attachments, shows you how they are put on the machine, how to operate them and what to do to produce the best results. The instructions are so clear that with a very little practice, persons who have never used a sewing machine succeed, not only in making their own garments, but become most skillful seamstresses, and in a great many cases earn their living through sewing, without the aid of any teachers save the instruction book which we furnish free of charge with every machine.

The attachments we supply are fully guaranteed by the manufacturer against defective material and poor workmanship, and we stand ready at any time to replace or repair free of charge any attachment or attachments which break because of defective material.

Our Minnesota Sewing Machines are very simple and easy to understand. If you have never operated a Minnesota Sewing Machine, you need not hesitate for fear of any difficulties. Even if you have never had any experience on a sewing machine of any kind, it will be a very simple and easy matter for you to learn how to operate the Minnesota. Not only that, but with a little practice and the very clear and simple directions in our new illustrated Instruction Book, you will be able to use all the attachments and do all kinds of fancy sewing.

The necessity for personal instruction is a thing of the past. Our new Instruction Book illustrates the different parts of the machine and clearly indicates what to do, how to do it, when and where to oil; shows actual photographs of the machine with attachments in full operation; tells step by step how to proceed; explains in every detail the various uses of the different attachments; tells you plainly and in the most simple language where and how to begin the different operations. Everything is made so plain and simple that our Instruction Book will more than take the place of the personal instructor.

No expense has been spared in arranging and preparing this new Instruction Book. It will be found valuable in the years to come. You will find it far more satisfactory than many visits from a personal instructor, because you will have full and complete instructions with you all the time. There need be no fear of forgetting some particular caution. You need not be afraid of making a mistake in threading the machine. The directions and illustrations are so clear that it is almost impossible for you to make a mistake. Practically the only parts that you will have to know how to adjust and change are the upper tension on the arm, the tension on the shuttle, the adjustment of the presser bar for different thicknesses of materials, and the threading of the machine. These are all made very clear and easy to understand in our Instruction Book.

Minnesota Model "S" Head

Illustrations Which Show Features of the Mechanical Construction.

It Will Do Any Work, Light or Heavy, Fancy or Plain Sewing, That Can Be Done on Any Family Sewing Machine.

Design.

By referring to the illustration it will be seen that the Minnesota Model "S" Head is extremely handsome and pleasing in appearance, the general design being worked out in curves and rounded corners so as to avoid suggestion of harshness or angularity.

Size.

Our Model "S" Head is the regular standard arm, family style, and measures 5¼ inches in height under the arm, 8½ inches from face to upright part of arm and 9¾ inches from bed plate to top of the needle bar. The bed plate is 7⅛ inches wide by 14½ inches long. These measurements provide sufficient space for practically any family sewing.

Finish.

The finish of the head is as fine as can be put on a sewing machine. Three coats of the finest grade of enamel are used, each coat being separately baked at a high temperature, and then rubbed down to a smooth surface by hand and finally beautifully decorated in an elaborate design worked out in gold and bright colors, after which it is given a coat of special varnish also baked in a high degree of heat, which gives the machine a durable rich and lustrous finish. Before the enamel is put on, the head is treated to a coat of anti-rust preparation, which prevents the finish from cracking, checking or peeling off, which so frequently occurs with other makes of machines.

Nickel Plating.

All of the bright parts, including the face plate, are first copper plated, then nickel plated and finally highly polished. The nickel plating applies to the working parts underneath the bed of the machine as well as to those that are exposed to view.

Lockstitch.

Our Model "S" is a regular lockstitch machine, which is the popular type adopted by all manufacturers of high grade family sewing machines.

Operating Parts.

The operating parts of the Model "S" Head are fully described and illustrated on this and the following page. All operating and working parts in this machine are made of the finest cold rolled steel that can be obtained.

Double Eccentric.

The double eccentric on the main shaft through the arm of the head operates the shuttle, feed and needle bar mechanism. The double eccentric is made of one piece, accurately balanced so as to prevent any vibration when the machine is being operated, and which also contributes greatly to its light and noiseless running qualities. This construction does away with all irregular movements and produces a shuttle and feed movement which is absolutely positive in every sense of the term. A glance at the working parts of this machine shows how remarkably simple it is. There are no springs, cushions, pads or other appliances required which necessarily add to the number of parts and the liability of the machine to get out of order.

Easy to Oil.

By means of convenient oil holes and a movable metal plate on the back of the head, all bearings are easily gotten at to oil. This is a most important feature, as thorough lubrication prevents friction and wear.

Simple and Light Running.

The Minnesota Head is constructed with few running or operating parts, rendering it easy to understand and operate, light running and free from vibration and noise, doing away with the liability to get out of order, common to many machines. The mechanism is so constructed that the full line of parts in the Minnesota head operate entirely independent of one another and all driving power is supplied direct from the main shaft, without the agency of the numerous connections, cogs and many unnecessary devices used in some machines to operate the feed, shuttle and needle power. The operator does not need to tamper with or adjust these parts, regardless of the weight of goods being sewed. This construction has made the Minnesota head famous as the most durable and simplest head ever produced.

Adjustment.

Much depends upon the adjustment of the working parts, for should any part, for instance the shuttle, be adjusted 1-32 of an inch out of place, the harmony between the parts would be destroyed and imperfect work would result. The operating parts in our Minnesota machines receive the finest and most accurate adjustment, are tested on all kinds of materials, and pass other numerous inspections, so that it is practically impossible for a Minnesota machine to leave our factory unless perfect in construction and adjustment.

Digitized by Google

The Independent Take-Up.

The take-up is operated by a cam on the main shaft, thereby being absolutely positive in its action and assuring uniformity of stitch in all classes of work.

The Needle Clamp

Holds the needle firmly in place and permits the needle to be removed in an instant when required, even though it should break accidentally in the bar, where it cannot be reached by the fingers. The needles can be had from us at a very low cost. For prices see page 648.

The Needle Bar

Is round and made of the best quality of cold rolled steel. It is accurately fitted, insuring absolutely uniform wear at all points. The needle bar is constructed with a groove so that the needle can only be placed in the proper position. It is not necessary to guess at the height or position when setting the needle, as is the case with many other makes of machines.

New Roller Bearing Feed Bar.

Newest and latest feature. In addition to the many improvements made on the various Minnesota Models, particularly the Minnesota Models "A" and "S," we have added a new feature to the Minnesota Model "S," making it one of the lightest and easiest running sewing machines on the market. The part of the feed bar which comes in contact with the feed lift bar has been fitted with a roller bearing. This roller bearing will make the machine run lighter and with less noise, and will also do away with the necessity for raising the feed after the machine has been in use some time.

Double Feed.

The feed is made from the best quality tool steel; has four sets of teeth, two on each side of the needle, and so constructed that when in operation the goods must be carried forward with absolute accuracy.

Feed Movement.

(Four-Motion.)

The feed in this machine is operated by four movements. The feed comes up, takes a firm hold on the goods, carries them forward the full length of the stitch, then it falls, releasing the goods, and comes back again toward the operator ready for the next stitch. These four movements are provided entirely by the main shaft, insuring positive action on either heavy or light work.

Presser Foot.

The presser foot is very large so that it will hold any weight and thickness of goods firmly in place. The edge of the foot nearest the operator is bent upward slightly so that it will not catch in fleecy material. The presser foot can be removed from the machine in an instant without the aid of a screwdriver. The illustration shows the foot being removed after the thumbscrew has been loosened.

Presser Bar Lifter.

The presser bar is fitted with a steel, case hardened, nickel plated lifter, so constructed that it can be turned to the right or to the left, raising the bar to the desired height for heavy or light material.

Needle and Thread Scale.

A scale indicating the proper needle to be used with the different sizes of thread is stamped on the forward shuttle slide. Breaking of the thread and needles often occurs if incorrect sizes of needles or thread are used.

A Sharp Steel Thread Cutter

Is placed on the presser bar, convenient to the operator, by the aid of which the thread can be easily cut, obviating the use of scissors and the danger of breaking or cutting the thread too short.

The Shuttle.

The shuttle is the most perfect, self threading, cylindrical shuttle ever produced. It is extra large in size, made of the finest tool steel, hardened, ground and finished. It is absolutely self threading, being open at one end for inserting the bobbin, after which the thread is instantly drawn into place by two movements of the hand. There are no holes to pass through, and the shuttle can be threaded with the eyes shut. It has a perfect tension, which is practically automatic. It does not require regulating for any ordinary work. The bobbin carries a large amount of thread. The illustration shows the shuttle being held between the thumb and forefinger while threading.

The Shuttle Carrier.

The body in which the shuttle rests is fitted with a spring which holds the bobbin firmly in place and prevents it from rattling while the machine is in operation. The carrier is adjustable, so that when the shuttle shows signs of wear, after many years of use, the carrier can be moved closer to the shuttle race, thus enabling the operator to use the same shuttle for many years, with the same satisfaction as when new.

Disc Tension.

The upper tension of this machine is of the modern disc type and practically automatic on all classes of work. The tension is located on the side face plate toward the operator. This location of the tension is not only far more convenient, but brings the point at which the tension is applied to the thread much nearer to the eye of the needle, thus reducing the amount of thread under tension and doing away, in a large measure, with the stretch in the thread, which on the old style machines frequently caused bad stitching or skipping of stitches.

SEE PAGE 632 FOR ILLUSTRATION AND DESCRIPTION OF THE NEW LIBRARY TABLE SEWING MACHINE.

Our Self Oiling Shuttle Ra

Found on all Minnesota Model "S" Sewi Machines. This new improvement, this oiling device for the shuttle race, so the problem of keeping the race prop oiled without danger of getting too mu oil on the race and soiling the upper lower threads. It keeps the shuttle always properly oiled and thereby redu the friction of the shuttle against the and prevents wear of the shuttle.

The Automatic Bobbin Wind

On this machine is nickel plated through and is the most perfect bobbin winder produced. It is so simple that any ch can operate it, and the thread is wound the bobbin automatically and so evenly smoothly as to make the bobbin work fectly in the shuttle, producing an tension and greatly improving the perfe of the stitch. This also prevents the bre ing of the lower thread, which is liable occur with an unevenly wound bobbin.

The Bobbin Winder

Is always in position and ready to ope It is operated by means of the belt w is placed in contact with the small wheel of the bobbin winder.

Stitch Regulator.

The illustration shows the stitch regulator, which is fastened to the bed plate just in front of the arm in plain sight and within easy reach of the operator. The length of the stitch ca adjusted instantly by loosening the thu nut and moving the pointer to the de figure on the scale stamped on this s regulator plate. The stitch can be v from six to thirty-two stitches to the thereby affording a range from the smallest to the largest stitch.

Locknut.

The lock which is lo at the end the main and used to lease and th the hand w is turned o one piece of hardened has milled and is b nickel plate polished. locknut is ly marked with arrows, showing whic it must be turned to loosen or tighte hand wheel.

IF YOU WANT GOOD RESUL FROM YOUR MACHINE, YOU M USE GOOD OIL. SEE PAGE 64

Attachments for Our Model "S" Machines

WE USE THE CELEBRATED GREIST FOOT ATTACHMENTS.

Our customers have the advantage and privilege of being able to purchase a machine without attachments, and are not obliged to receive and pay for attachments which are not required. From our many years of experience in selling sewing machines we have found that about one-third of the sewing machine users do not need the attachments, using the machine for plain sewing only; the only necessary attachments being the needles, bobbins, quilter, cloth guide, screwdriver, oil can and foot hemmer, which are always furnished with our machines at no additional charge. We have, therefore, deducted the cost of the attachments from the selling price and quote each machine without any extra attachments.

The attachments for our Minnesota Model "S" Sewing Machine, furnished at 75 cents extra, are made by the Greist Mfg. Co., the largest manufacturing plant devoted exclusively to the manufacture of sewing machine attachments. This illustration shows the Model "S" attachments arranged in a velvet lined metal box. Each attachment may be kept in its particular place as provided for by the construction of the box. The complete set includes one ruffler, one shirring blade, one tucker, one under braider, one binder, one short foot and one set of four hemmers up to ⅝ of an inch wide. The attachments are made of steel, heavily nickel plated and polished.

We furnish, free of charge, with every Minnesota Model "S" sewing machine a book of instructions telling how to operate the sewing machine. This book covers every point, makes everything so plain and simple that anyone without previous experience can learn to run the machine at once and do perfect work; tells you how to get the best results, how to take care of your machine, tells you where to oil and when. It tells you how to use the different attachments, the ruffler, tucker, hemmers and binders, and contains illustrations of these attachments in use.

Attachments Will Be Furnished at 75 Cents E

If you, the reader of this catalog, intend to use your mac plain sewing only, and do not wish to buy extra attachments, appreciate our departure from the old custom of including, at purchaser's expense, a set of attachments with every machine. If to purchase a machine without attachments, and later on wish to attachments, we can always supply you at our lowest price.

Accessories Furnished Free.

We furnish with every Minnesota Model "S" Machine a complete set of accessories, such as are usually furnished with every high grade machine, consisting of one quilter, five bobbins (and one in the machine), one cloth guide, a large screwdriver, one oil can, filled with oil, one screwdriver and wrench, one foot hemmer, one package of needles and one instruction book.

We Carry in Stock

A full supply of needles, bobbins, shuttles, attachments, etc., which are used in the operation of our machine. We can, therefore, fill order for repairs promptly. An order for repairs for the Minnesota Model "S" Machines, placed with us fifteen or twenty years from date, would be filled as promptly as a repair order sent us today.

)esk Cabinet Sewing Machine

Equipped With Our Minnesota Model "S" Head

Desk Quartered Oak Cabinet, Full Ball Bearing Machine.
Actual $30.00 to $35.00 Value.

$15.75

Machine Open.

These illustrations of the machine open and ed show you how practical the arrangement It makes a beautiful piece of furniture; a nice d, table or music cabinet, and can be quickly easily changed into a sewing machine, pro- g more than the usual room for work.

The cabinet is beautifully finished and orna- ted; rich but not over elaborate; a model of taste in every way. Our Minnesota Model Sewing Machine Head with which it is ped, is fully described on page 637.

The Model "S" Full Desk Cabinet is made of ted air seasoned and kiln dried quarter sawed The top is made of built-up stock, five of wood, the grain of each layer running wise, while the top layer is of selected quar- awed oak, finished and hand rubbed to a like piano polish. Particular pains are taken in selecting the lumber used for the tops of our cabinets, and the special er in which they are built insures them against warping, cracking or splitting. The door is strongly built of quartered with specially selected flaky grained quartered oak panel. The panels on both sides of the cabinet are also of specially ed quarter sawed oak. The molding on the doors, besides being handsome and ornamental, adds materially to the th of the cabinet. The door is locked by means of a turn bolt and brass knob.

Closed View.

A tape measure 18 inches long, accurately divided and beautifully colored to match the woodwork, is transferred on this table, directly in front of the head, where it is most convenient for the use of the operator.

Ball Bearings. Our Model "S" Full Cabinet Machine is as light running as the drop head style; is fitted with our celebrated bicycle ball bearing hanger, found only on our cabinet machines, which gives the same rapidity of action and ease of operation to the machine as the ball bearing arrangement to a bicycle. All wearing parts are made of steel, case hardened and ground out, and the steel balls are the best in the market. Simple in construction, no getting out of order. All parts are easily accessible, so that the balls or cups can be replaced at any time. All friction eliminated and operation made a pleasure.

Remember, we give you a three months' trial and a twenty-year guarantee, as explained on page 621.

Our Minnesota Model "S"

Five-Drawer Drop Head Sewing Machine

To fully appreciate the grade of woodwork we furnish in our Minnesota Model "S" Machine, to understand how much better it is in every way than the woodwork generally furnished in machines at $25.00 or less, you should be able to see, examine and compare one of our Model "S" Machines with machines offered by others at or about $25.00. That you may do this, you are at perfect liberty to order any one of the fine sewing machines described on these pages and have it shipped to you on our three months' trial plan, as explained on page 621 of this catalog. At the same time order a machine from any other house at or about $25.00, compare the two machines side by side, and if you are not at once convinced that we use a higher grade of woodwork, that our drop head cabinets are better made and better finished, you are at liberty to return our machine to us at our expense, and we will immediately return your money and any freight charges you paid.

Closed View, No. 26F140
See opposite page for open view.

FINISH. In point of finish our Model "S" Machine is strictly first class and of the very latest golden oak color, the popular finish put on high grade oak furniture. Before the finish is put on the woodwork is most carefully sandpapered so that the varnish, which is of the very best quality, produces a hard, glossy surface. The table is hand rubbed and polished.

Description of Model "S" Stand

Our Model "S" stands are made from the very best Birmingham, Alabama, light gray iron. The stands are molded by automatic machines, making every piece perfectly true, smooth and of uniform strength, so that when the different parts are put together they will perfectly. All Model "S" stand parts are filed and ground perfectly smooth, after which they are enameled by hand process. Particular pains are taken in enameling the stands and in adjusting the different parts. This special care and attention is plainly evident in our Model "S" Machines are compared side by side with machines the selling price of which is two or three times as much as that of our Model "S."

The arrangement of the ball bearings in the balance wheel is the same as that used on all high grade bicycles; the axle on which the wheel revolves passes through two steel cups, each of which contains eight steel balls, which are fitted into the balance wheel, and by turning the journal to the right or left, adjusting the bearings it is possible at all times to have the wheel run lightly and noiselessly. The cups and cones used on our stands are made out of a solid bar of steel, after which they are hardened and with proper oiling will last a lifetime.

This illustration shows how well the balance wheel is protected by the dress guard which covers the entire wheel. It also shows very plainly how the ball bearing balance wheel is fastened to the dress guard. Also note the position of the pitman rod between the wheel and the side frame of the machine. With this construction it is impossible for one's dress skirt to become entangled in the pitman or balance wheel, or impossible for them to become soiled by oil from contact with the working parts of the stand. The illustration on the opposite page shows the beautiful design of the side frame of the Minnesota Model "S" stand.

DESIGN. The Model "S" stand is our own special design, made with a view to procuring a neat, graceful open effect, and at the same time furnishing a most rigid and solid stand. The side frames or legs are made in the handsome open and wide ribbon pattern style. The style adopted in the side frames, besides making the stand perfectly rigid, also makes it easier to keep the stand clean and free from dust, because all parts can be reached from outside the frame.

INSPECTION. All parts are accurately trued, tested for strength; not a casting is allowed to be used that has a defect or that isn't true to gauge. After the stand has been properly assembled, the balance wheel and treadle are operated by steam power at a very high rate of speed, whereby the balance wheel makes a great many more revolutions than any operator could possibly make. If there is the slightest flaw in the iron, in the construction or adjustment of the stand, it becomes evident through this test and the stand is then rejected.

Description of Model "S" Woodwork

The woodwork on our Model "S" Sewing Machines is of very much higher grade than is usually furnished in a medium priced machine. It is made especially for our machines, under contract, by the largest manufacturer of sewing machine woodwork in the world, who supplies cabinets only for the highest grade sewing machines, therefore, cannot be in any way classed with the woodwork commonly used in machines that sell generally at $30.00 or less.

MATERIALS. Only the most select grade of solid oak is used in the construction of our Model "S" woodwork. It is carefully selected with reference to grain and color and is thoroughly air seasoned and kiln dried to insure against warping, splitting and cracking.

DESIGN. The Minnesota Model "S" cabinet is a model of beauty and artistic design, second only to our Model "A." It is made on the lines of the high grade up to date furniture.

TABLE. The table is made of selected nicely grained solid oak. The lid is made of built-up stock. This construction has proven the most durable, being practically indestructible. The front edge of the table is handsomely shaped. When the machine is not in use the head is lowered from view, the leaf covers it, and with the drum at the bottom completely protects the head from dust. When the machine is closed it makes a very convenient stand and frequently takes the place of a table used for such purposes.

DRAWER FRAMES. The drawer frames in which the side drawers are fitted are of the latest skeleton type, very handsome in appearance and made to correspond in design and style with the table and drawers.

DRAWERS. The crescent shape drawers are very large and roomy, made of nicely figured veneered oak to harmonize with the table. The fronts are handsomely fitted with brass plated drawer pulls. The center drawer is made with double swell front, interior is partitioned off for bobbins, needles and other accessories which are in constant demand when the machine is being used. Every drawer is fitted with a lock, and one key fits them all.

Minnesota Model "C" Hea

The Minnesota Model "C" Head

has been constructed with a view to furnishing an extra high arm machine, one that will give unqualified satisfaction, to meet the needs of our customers who desire a medium priced machine which will do a large range of work, heavy and light, equally well. While the parts are all guaranteed absolutely first class material, they are not of as fine construction and finish as our Minnesota Models "A" and "S" heads, but larger, stronger and better finished than our Belmont and Homan heads.

Design.

Our Model "C" Head is of the very latest design, with gracefully rounded lines which give it a handsome, well proportioned and strong appearance.

Size.

The head is extra large size, having as much room under the arm as the largest family sewing machine head. Height of arm from bed plate, 5¼ inches; from needle bar to base of arm, 8½ inches; size of bed plate, 7x14 inches.

Finish.

The head is finished with three coats of enamel, each coat being thoroughly baked and hardened before the next is put on and carefully rubbed down to a smooth surface, and finally treated to a coat of special varnish which is also baked at a high degree of heat, which makes the finish practically indestructible and of a beautiful rich black luster. Before the enamel is put on, the head is treated to a coat of anti-rust preparation which prevents the finish from cracking, checking or peeling, which so frequently occurs with other makes of machines.

Decoration.

The arm and bed plate are decorated with handsome floral figures in a combination of silver and gold, especially designed for this machine.

Nickel Plating.

The rim of the balance wheel, face plate, shuttle slides, tension plates, stitch regulating plate, presser bar lifter and screw heads are all heavily nickel plated and form a handsome contrast to the black enamel finish.

The Needle Bar.

The needle bar is round and made to fit perfectly. It is absolutely positive in its action, insuring even and automatic operation on materials of any weight and thickness.

Self Setting Needles.

The needle bar is constructed with a groove so that the needle can only be placed in the proper position. It is not necessary to guess at the height or position of the needle, as is the case with many other makes of machines.

The Shuttle.

The shuttle is cylindrical in shape, made of the finest cold rolled steel. It is absolutely self threading, being open at one end for inserting the bobbin, after which the thread is instantly drawn into place by two motions of the hand.

The Shuttle Carrier.

The shuttle carrier is made of steel and is fitted with a spring lining, which holds the shuttle firmly in place and prevents it from rattling when the machine is in operation.

The Double Four-Motion Feed.

The double four-motion feed is made of the very best drop forged steel, hardened, constructed with four sets of teeth, two sets on each side of the needle, which carry the goods forward firmly and evenly; as the action of the feed is entirely controlled and operated by the main shaft it is strong and certain in its movements. When you get the machine the feed will be regulated for ordinary family sewing.

The Presser Bar.

The presser bar is round and fitted with a presser bar adjuster by which the pressure on the goods is regulated. At the factory, before shipping the machine, this bar is regulated to give the proper pressure for most household materials, and it is only necessary for you to adjust this bar when sewing on extra light or extra heavy materials.

The Presser Foot.

The presser foot has a very large under surface extends on both sides of the needle and holds firmly in place over the feed. The forward part presser foot nearest the operator is curved upward the foot will not catch in seams or fleecy material

The Take-Up.

Both the needle bar and take-up are driven by the head at the left end of the main shaft, and there simultaneously and in perfect harmony, insuring stitching.

The Tension.

The tension is placed on top of the arm and co two flexible nickel plated steel plates, through w thread passes. The pressure on the thread is regul a small thumbscrew. By pressing a small projection lower tension plate, called the tension release, th being sewed can be taken away from under the foot without bending the needle or breaking the

Stitch Regulator.

The stitch can be regulated to run from seven ty-four stitches to the inch by means of a regulat is located on the bed plate just below the bobbin in easy reach of the operator.

Thread Cutter.

To do away with the necessity of using scissors prevent the breaking or cutting of the thread to our Model "C" head is provided with a sharp steel cutter.

Bobbin Winder.

The bobbin winder is automatic in operation, strongly made, well finished and well nickel pla is so simple a child can operate it.

Bearings.

All bearings are made of steel, especially selected durable qualities, and properly fitted so as to mini friction and prevent wear. All bearings are fi adjusting devices, whereby any lost motion caused slight wear through years of constant use can be

The Attachments

will be furnished with or without the machines and at cost price, 75 cents per set, and comprise a full set of all the latest patent foot attachments, which will be furnished by no other dealer.

We furnish the following set packed in a handsome velvet lined metal box, as shown in the illustration: One ruffler, one shirring blade, one under braider, one tucker, one short foot, one binder and one set of hemmers, different widths up to ⅝ of an inch. Our price for full set, 75 cents. Be sure to state if you wish the attachments shipped with your machine. If ordered separately, allow 20 cents extra for postage.

Instruction Book Free.

We furnish with every Model "C" sewing machine a book of instructions telling how to operate the sewing machine. This book covers every point, makes everything so plain and simple that everyone without any previous experience, can learn to run the machine at once and do perfect work; tells you how to get the best results, how to take care of your machine, tells where to oil and when. It tells you how to use the different attachments, the ruffler, tucker, hemmers and binders and contains the illustrations of these attachments in use.

Accessories Free.

We furnish free with our Minnesota Model "C" machine a complete set of accessories such as are furnished with all high grade machines, consisting of

1 quilter.
5 bobbins and 1 in the machine.
1 large screwdriver.
1 foot hemmer.
1 oil can.
1 cloth guide.
11 needles and 1 in the machine.
1 shuttle screwdriver.

No. 26F151

Five-Drawer Drop Head Style Solid Oak Woodwork

Closed View of the No. 26F151 Minnesota Model "C" Machine

THE HEAD—The Minnesota Model "C" Head is fully described on foregoing page.

THE WOODWORK—Only the most select grade of solid oak is used in the construction of our Model "C" woodwork.

THE TABLE is made of selected nicely grained solid oak. The lid is made of built-up stock. The front edge of the table is handsomely shaped, with a full swell in the center. When the machine is not in use the head is lowered from view, the lid covers it, and with the metal drum at the bottom, completely protects the head from dust and injury.

THE DRAWER FRAMES—The frames in which the side drawers are fitted are of the latest skeleton type, made to correspond in design and style with the table and drawers.

THE DRAWERS are very large and roomy, made of nicely grained solid oak. The drawer fronts are handsomely decorated with special embossed figures, and are fitted with a handsome nickel plated drawer pull.

THE CENTER DRAWER is made with a triple swell to correspond with the outlines of the table, and is very convenient for supplies, such as needles, bobbins and thread.

FINISH—Our Minnesota Model "C" woodwork is handsomely finished and receives the same care and attention which are given the woodwork furnished with machines for which you would have to pay at least $25.00. This woodwork is all furnished in the latest golden oak color, a most popular finish.

THE STAND—Our Minnesota Model "C" stand receives the same care and attention given our highest grade stands, the only difference being in the arrangement of the balance wheel and pitman. This stand has the cone bearing balance wheel and wooden pitman. A very light running stand, and the best of its kind manufactured.

ATTACHMENTS for the Minnesota Model "C" Head are illustrated and fully described on page 642.

Five-Drawer Drop Head Style, Marquetry Woodwor

Closed View of the No. 26F153 Minnesota Model "C" Machine.

THE HEAD is described on page 642.

THE WOODWORK is the popular five-drawer style, two drawers on each side and center drawer. Made of selected nicely figured oak, finished in the popular golden oak c marquetry decorated; a beautiful effect not shown on any cabinet offered by any other de This large illustration will give you a slight idea of the appearance of the cabinet. The de tions consist of the latest fancy colored marquetry effect, in beautiful contrast to the golden oak finish of the woodwork, a rich handsome high class effect that is sure to please.

THE TABLE is made of solid oak, particular care being taken to select only nicely gr oak. The front edge of the table is handsomely shaped.

A TAPE MEASURE 18 inches long, accurately divided and beautifully colored to m the woodwork, is transferred on this table, directly in front of the head, where it is convenient for the use of the operator.

DRAWER FRAMES—The drawer frames in which the side drawers are fitted are of latest skeleton type, much handsomer in appearance and far preferable to the old fashi solid cases.

DRAWERS—The drawers are very large and roomy, made with rounded corners to monize with the table. The fronts are handsomely decorated with marquetry of special de and fitted with nicely plated and polished ring pulls. The center drawer is made with front; the interior is partitioned off for bobbins, needles and other accessories which ar constant demand when the sewing machine is being used. Every drawer is fitted with a and one key fits them all.

THE DRUM is made of metal; encloses and protects the head from dust and dang being injured, also prevents oil from dripping on the garments of the operator while the chine is in operation.

THE STAND—Our Minnesota Model "C" stand receives the same care and attention our highest grade stands, the only difference being in the arrangement of the balance whee pitman. This stand has the cone bearing balance wheel and wooden pitman. A very running stand, and the best of its kind manufactured.

Automatic Head Lifting Device
For description see page 628.

No. 26F155

Five and Seven-Drawer Styles

With Ball Bearings and Automatic Lift

Closed View No. 26F157, Showing Seven-Drawer Style.

THE HEAD. The machine is furnished with the genuine Minnesota Model "C" high arm head, which is fully described on page 642.

THE WOODWORK is something entirely new, and has been specially designed for this particular model. The carvings are very handsome and are pressed into the wood itself, making a heavy embossed figure, far more satisfactory than the carving which is glued on to the drawer front.

THE TABLE is made of selected nicely grained solid oak. The lid is made of built-up stock. The front edge of the table is handsomely shaped and has a triple swell. When the machine is not in use the head is lowered from view, the lid covers it, and with the metal drum at the bottom, completely protects the head from dust and injury.

THE DRAWER FRAMES are the skeleton type, very light, but substantial and strong.

THE DRAWERS are very large and roomy. The fronts are specially shaped, with a triple swell to correspond with the design and shape of the table. The embossing on the drawer fronts is a work of art and makes this the handsomest set of woodwork supplied on any sewing machine that is sold up to $25.00. The drawers are fitted with brass plated pulls made to harmonize with the carvings. Each drawer is fitted with a lock, and one key locks them all.

THE CENTER DRAWER is made with the triple swell to correspond with the outlines of the table, and is very convenient for supplies, such as needles, bobbins and thread.

FINISH—Our Minnesota Model "C" woodwork is handsomely finished, and receives the same care and attention which are given the woodwork furnished with machines for which you would have to pay about $25.00. This woodwork is all furnished in the latest golden oak color, a most popular finish.

THE ATTACHMENTS for the Minnesota Model "C" head are illustrated and fully described on page 642.

THE STAND—For this special Minnesota Model "C," in both the five and seven-drawer styles, we are supplying our highest grade ball bearing metal pitman, the identical stand which is supplied on all Minnesota Model "A" Machines. For full and complete description see page 626.

Full Desk Cabinet Style

Equipped With Minnesota Model "C" Head

Fully Described on Page 642

$14.45

THE WOODWORK.

This handsome full oak desk cabinet is made of the very best solid oak, thoroughly air seasoned and kiln dried. The door is made with specially selected quarter sawed oak large panel, ornamented with handsome design drop carvings and massive moldings and caps. Please note the rich and tasteful decorations on this woodwork. The sides are solid full oak panels. The lid is made of built-up stock with specially selected quarter sawed oak top. This construction prevents warping and cracking. The inside of the door is fitted with wooden pockets to hold the oil can, bobbins, screwdriver and other accessories so they will be convenient for use when the machine is being operated. The cabinet is the product of the finest cabinet makers, finished throughout in a strictly first class manner; every piece and part is thoroughly sandpapered before it is put together, insuring perfect cabinet work. The varnish used on this cabinet is strictly high grade. It brings out the rich golden oak finish which is so popular. It is worked over and hand rubbed, giving a rich glossy appearance, the same as the hand polished effect shown in the high grade furniture. We attach a metal drip pan underneath the head on each and every one of these cabinets so that there is absolutely no danger of any oil dripping on the garments of the operator. The cabinet rests on four rollers so that it can be easily moved about.

BALANCE WHEEL.

This cabinet is fitted with a ball bearing balance wheel which is illustrated in such a way as to show the two sets of ball bearings. This gives the same rapidity of action and ease of operation as the ball bearing arrangement on a bicycle. The bearing is simple in construction, no getting out of order, all the parts easily accessible so that the balls or bearings can be replaced at any time in the future if in the years to come there is reason to replace anything. By means of the ball bearings all friction is eliminated and the running of the machine is made a real pleasure.

The complete set of extra Steel Foot Attachments is illustrated on page 635. 75 cents extra.

THREE MONTHS' TRIAL.
SEE ABOUT OUR LIBERAL OFFER ON PAGE 621.

Our price of $14.45 for the Full Desk Cabinet Minnesota Model "C" does not include attachments. We do include a set of accessories as shown on page 635, but we do not charge you a price to include attachments, as you may not need them if you expect to do plain sewing only. For 75 cents additional we will send you a full set of high grade attachments, described on page 635.

Low Priced Machines

IF YOU WANT TO BUY A SEWING MACHINE and cannot afford to pay from $14.95 to $[illegible] (according to the style of cabinet) for one of the best machines that money can buy (our high grade sewing machines), see pages 625 to 635, or cannot afford to pay even $10.95 to $13.45 (the price of our high arm Minnesota Model "C" Machines), we will be pleased to accept your order for our Belmont machine at $9.85, our even our Homan machine at $8.45, and will guarantee to furnish you at these prices a far better sewing machine than you can procure from any other dealer at anywhere near the price.

WE WERE THE FIRST to offer high grade machines at prices far below the old time high prices of the "agency" machines, and have through this method built up a sewing machine business of such magnitude that we can furnish today a sewing machine of the very highest grade, second to none, and by many considered the very finest sewing machine in the world, at about half the price you would be obliged to pay for a strictly high grade machine purchased from any one else.

A REPUTATION such as ours can only be established through good merchandise at money saving prices. We have come to the conclusion, after a number of years' experience in the sale of very cheap machines, that our customers and friends are not entirely satisfied with such a purchase. A sewing machine is only satisfactory when it will give the very best of service at all times, and as it is an article that in most cases is purchased but once in a lifetime, we do not consider it an economy for anyone to buy a machine that is not guaranteed for at least twenty years and will compare favorably with the best known makes of machines that have been on the market for the last forty years.

REMEMBER that we will sell you our Homan machine at $8.45. If you want it, send your order accompanied by $8.45 and the machine will be sent you. Remember, we will be glad to get your order for our Belmont machine at $9.85 if you feel that that is all you care to invest in a sewing machine, and we will take great care in entering your order and will make prompt shipment and guarantee that either of these machines, by comparison with any other sewing machine at anywhere near these prices, will be far better in every way. But if you want to buy a machine that will carry our twenty-year guarantee and will prove satisfactory for the entire period of our guarantee, then

The Belmont and Homan Machines
Are Shipped from DAYTON, OHIO.

No. 26F181 Belmont Five-Drawer Drop Head Oak Cabinet Machine, with complete accessories. Shipping weight, 120 pounds.
Price..... **$9.85**
Guaranteed Twenty Years.
Extra Set Steel Foot Attachments, 75 cents per set.

No. 26F182 Homan Five-Drawer Drop Head Sewing Machine, with complete accessories. Shipping weight, [illegible] pounds.
Price..... **$8.45**
Guaranteed Five Years.
Extra Foot Attachments, 75 cents per set.

WE RECOMMEND that you buy our high grade sewing machine in preference to any other sewing machine made. Read the description of these machines carefully, pages 625 to 646, then order one on approval without any obligation to keep it, and satisfy yourself.

LESS THAN $1.00 A YEAR is what one of our high grade machines will cost you. You can figure this out yourself by taking the price of the machine which you select and which is regulated by the style of cabinet you choose, and divide this amount by 20, the number of years for which we guarantee the machine. As an illustration, our most popular six-drawer drop head automatic lift machine is priced at $17.85. If this investment were divided into twenty years it would mean only 89 cents a year. Can you afford to invest your money in a cheap sewing machine when you realize that our high grade sewing machine will represent such a small annual expenditure? If you want a sewing machine that will do really fine work of all kinds, it is surely worth $1.00 a year, and you cannot afford to invest your money in a sewing machine that will be likely to give you trouble and cause you annoyance and last but a comparatively short time.

NO ONE HAS A MONOPOLY of the English language and, therefore, our statements may be, and are, repeated in practically the same words by a number of other dealers. We do not ask you to merely accept our statement of the facts regarding our ability to supply you with a far better sewing machine for the money you have to invest than any other dealer or manufacturer will, but we ask you to order a machine from us, place it in competition with any other machines that may be offered to you and then decide for yourself after having tested it thoroughly to your entire satisfaction. We invite comparison; in fact, we will feel far better satisfied if you will only make the comparison and let the machine talk for itself.

Our Minnesota $5.95 Improved Hand Machine

No. 26F190 Price, **$5.95**
Shipping Weight, about 35 pounds.

AT $5.95 we furnish our Minnesota Hand Machine with iron base without cover, as illustrated on the left. For $7.85 we furnish the machine complete with wooden base and a fine bent wood cover. This is a very convenient machine for those who travel and for women who are unable for various reasons to operate a treadle power machine.

THIS IS A FIRST CLASS, RELIABLE MACHINE, having every improvement that is found on our high grade stand sewing machines, and capable of doing the widest range of work. It has an automatic bobbin winder, self threading vibrating steel shuttle, self setting needle clamp, tension liberator, all the latest improvements, combining simplicity, durability and strength in construction, speed and light running qualities, unequaled for ease of management and capacity for a wide range of hemming, felling, binding, tucking, ruffling, gathering, seaming, etc.; adapted to every variety of sewing from the lightest muslin to the heaviest cloth.

Wood Base and Cover.
No. 26F195 Price, **$7.85**
Shipping Weight, 60 pounds.

THE BEARINGS are of the best hardened steel and are adjustable. We pay as much attention to the adjustment of this machine as we do to our Minnesota Model "A," and we will not admit that this machine is equaled by any hand machine on the market, regardless of price [illegible]. One particular point of superiority lies in its feed, which is the four-motion feed, the same that is used upon our high grade stand machine. This feed is absolutely positive, its movements being regulated by the eccentric lever bar, and does not require the use of coil springs to obtain the four movements of the feeding mechanism.

THE HAND ATTACHMENT can be detached and removed and the machine set on a table or stand and operated by foot power, the wheel having a groove for the belt. Other points of excellence lie in its self setting needle, positive stitch regulator, and a device by which the belt is readily released, thus enabling the operator to wind the bobbin without operating the working parts of the machine. We furnish instruction book and a full set of accessories free of charge with the machine. Free on board cars at Dayton, Ohio.

No. 26F190 Minnesota Hand Machine, with complete accessories, with iron base, no cover. Price.....$5.95
No. 26F195 Minnesota Hand Machine, with complete accessories, with wood base and cover. Price..... 7.85

About Sewing Machine Supplie

There are a great many machines in use for which it is difficult and in some cases impossible to get new parts. The factories originally making these machines have either gone out of existence or have destroyed the tools and machinery necessary for making the different parts of their earlier models. We are in a position to supply parts for almost every sewing machine and will always supply these parts at the lowest possible price. If you want a new shuttle or an extra supply of bobbins, and you do not find the name of your machine on our shuttle list, send your old shuttle or an illustration, together with 75 cents and the extra postage and if it is at all possible we will fill your order for the shuttle, returning to you whatever balance we can, according to the price of the shuttle. It is impossible for us to list the names of all the different sewing machines which are in use at the present time because there are so many factories making sewing machines for a great many different customers, each of whom requires a different name on the machine. If you need any bobbins for your machine either send us an illustration of the shuttle or a sample bobbin and send us the remittance according style bobbin which you require for your machine.

Some factories have made minor changes in the appearance of their shuttles shuttle which they make at the present time does not look exactly like the shuttle furnish for your machine, although it is made to fill the same shuttle carrier.

We are in a position to supply individual attachments for almost any make of In ordering separate attachments, it is best to send a sample to us because an illus not sufficient. For example: The Greist attachment factory makes a ruffler for also well known machine and the illustration is the same for all machines, the differen construction of the ruffler being so slight as not to be noticeable in the illustration.

If you are ordering parts or supplies for one of our sewing machines, mention the the head and give the head number, which you will find stamped upon the front shuttle on the bed plate under the front slide, or upon the bed plate behind the upright part

Needles Per Dozen 15c

NEEDLES — BE SURE TO SEND SAMPLE. — NEEDLES

It is very important to use only the very best needles. A machine will not work well with poorly made needles. It is to our interest, therefore, to supply only the best and highest grade sewing machine needles made. In ordering needles, be sure to send sample, also mention name and head number of the machine. This will insure prompt attention and the proper filling of your order for needles. No order will be filled for less than 1 dozen needles. **Also send cash in full with the order and allow for postage at the rate of 2 cents per dozen.**

No. 26F306 Sewing Machine Needles, for all family sewing machines, regardless of name and make.
Price, per dozen 15c
If mail shipment, postage and packing extra, 2 cents.
No order filled for less than 1 dozen needles. **Be sure to send sample.**

SEWING MACHINE OIL.

To obtain the best results from your sewing machine, to insure and warrant its always running easy and lasting a long time you must use good oil. For this reason we have had prepared for us a special extra high grade sewing machine oil, and we recommend our customers to include a bottle of this oil when they purchase a machine.
No. 26F4083 Price, per 4-ounce bottle. 8c
If mail shipment, postage and packing extra, 12 cents.

NEEDLE THREADER.

One of the handiest attachments ever manufactured is the sewing machine needle threader, illustrated and described herewith. We have tested and compared this needle threader with all other styles on the market and find it the only satisfactory needle threader that is manufactured. There is nothing about it to get out of order, nor can it be easily broken. By means of it you can thread the needle quickly without straining your eyes and without pushing the machine from one part of the room to the other so that the light will properly strike the eye of the needle and enable you to see the eye. The attachment is simplicity itself and is always ready. Even people who have good eyesight have trouble in threading needles. This attachment does away with all that trouble, with all worry and annoyance in threading.
No. 26F4060 Needle Threader. Price each 10c
If mail shipment, postage extra, 2 cents.
Price, per dozen 90c
If mail shipment, postage extra, per dozen, 6 cents.

GREIST TUCK FOLDER.

It is very strong and with reasonable care is indestructible. It is made entirely of steel, heavily nickel plated, beautiful in design and finish and perfect in workmanship. It has a capacity of from pin tucks to tucks 1 inch wide and will operate equally well upon all kinds and grades of materials, whether light or heavy, starched or unstarched, of cotton, linen, wool or silk.

Will fit any machine. Instructions sent with each folder.

No. 26F4061 Tuck Folder.
Price, each 45c
If mail shipment, postage extra, 4 cents.

DARNING ATTACHMENT.

A most useful article. Will fit any machine. darning attachment is very simple and fills a long With it you can darn stockings, lace curtains, towels, underwear and many other articles. A saver because more and better darning can be attachment than is possible to do by hand. plete instructions for the operation of the attach with each darner.

INDEX

HOW TO FIND ANY ARTICLE YOU WANT TO BUY

This index is alphabetically arranged. In the Brief Index, we index the General Names of the various lines of merchandise, and in the Itemized Index we index each article by the name or names it most commonly bears. Thus you may find what you want either under the General Name of the line of merchandise to which it belongs, or under the name of the article. Items such as repairs or parts of articles, or tools, or some small supplies to which we may not have given the name you call them, may be found under such general headings as "repairs," or "tools;" or under the name of the line of goods with which they are commonly associated; for example, to find a repair part for a musical instrument not named in the index, look under the heading "Repairs—Musical Instrument;" or if a tool, under the heading "Tools."

WHEN YOU ARE REFERRED TO PAGE 664 it means that we show the goods in which you are interested in some special catalog or sample book. Look over the list of goods on page 664 and send for the special catalog that contains the goods you want to buy.

INFORMATION on Terms, How to Send Money, Methods of Shipping, Postage, Express and Freight Rates, given on pages 12 and 13.

BRIEF INDEX

HOW TO MEASURE for wearing apparel is explained on page 663.

If you wish to refer to any particular line of merchandise use this brief alphabetically arranged index. It is usually easy to find any article after locating the general line, as the headings, illustrations and descriptions readily direct you to the various items you want.
